Prime Minister

MESSAGE

I am happy to learn that PHD Chamber of Commerce and Industry and KPMG have compiled a Report to be released at the 22<sup>nd</sup> India International Security Expo 2019.

The Expo has been witnessing an increase in the number of participants and stakeholders in fields related to defence and security. It has provided a platform to the small and medium industries to enhance their contribution in meeting defence and security requirements. The participation of foreign stakeholders is an opportunity to leverage Indian products in the international market.

A strong and thriving defence sector is a pre-requisite for a secure nation. Our focus is on innovation and research in every field of activity. Several laws and reforms have been introduced to strengthen the process.

The Expo will showcase the latest technological innovations and products in the areas of defence and homeland security.

May the deliberations and interactions at the 22<sup>nd</sup> India International Security Expo 2019 lead to a strengthening of the environment of peace and security.

(Narendra Modi)
