India has made considerable economic progress since its Independence. Over the years, various policy initiatives and economic reforms have made India one of the fastest growing economies in the world. The emerging economic environment involving rapid technology changes, globalisation of economy, liberalisation of trade & industry, emphasis on international competitiveness and bringing the existing laws in tune with the future market needs, the Government has also initiated various legislative reforms in areas of economic and commercial laws.

As the area of economic and commercial laws undergoes frequent changes, it becomes necessary for everyone to constantly update themselves with the various legislative changes made as well as judicial pronouncements rendered from time to time. In the light of above developments to provide an understanding of certain economic and commercial legislations which have direct bearing on the functioning of companies, **the Corporate Affairs Committee of PHDCCI is organising a Seminar on Latest Developments under Economic & Commercial Laws on 26th June, 2019 from 1:00 PM to 6:00 PM (preceded by Lunch) at PHD House, New Delhi.**
