

Khadi gets separate unique HS code, exports to get a boost

Khadi has marked its presence in the exclusive HS code bracket, issued by the central government on 4th November 2019 to categorize its products in export. In a long awaited move to make export of Khadi, exclusively categorized from the general league of textile products, the Ministry of Commerce and Industry has allocated separate HS code for this signature fabric of India.

This decision of government will open a new chapter in the field of Khadi export. Earlier, Khadi did not have its exclusive HS code. As a result, all the data regarding export of this signature fabric used to come as a normal fabric under the textile head. Now, it would be possible to keep a track of export figures and plan export strategies accordingly.

HS Stands for Harmonized System and it is a six digit identification code. It was developed by the WCO (World Customs Organization) and custom officers use HS Code to clear every commodity that enters or crosses any international border.

Background

Khadi and Village Industries products are eco-friendly and natural, and are in great demand in the International Markets. Recognizing its potential to generate exports and its eco-friendly importance, the Ministry of Commerce had accorded deemed Export Promotional Council Status (EPCS) to KVIC in 2006, to boost the export of Khadi products. However in the absence of separate HS code, the export of Khadi products was difficult to categorize and calculate.
