

Establishment of the Standardisation Cell in PHD Chamber of Commerce and Industry

We are pleased to inform you that PHD Chamber of Commerce and Industry is establishing the Standardisation Cell on the recommendation of Standard National Action Plan (SNAP), Bureau of Indian Standards (BIS).

Indian National Strategy for Standardisation (INSS) underlines the role of a harmonised, dynamic and mature standards framework in establishing a robust quality ecosystem in the country and the need to position standards as a key driver of all the economic activities relating to goods and services. INSS flags the need to create fora and processes to articulate and assess the needs for standards in different sectors. SNAP visualises the Standardisation Cells in the PHD Chamber of Commerce and Industry as an important forum to address this need.

With this background, PHD Chamber of Commerce and Industry is establishing the Standardisation Cell with the objectives of identification of new areas of development of standards, revision of existing standards and harmonising existing standards with international standards. The Cell intends to fulfil aforementioned objectives through facilitation of consultations and dialogue among the members of PHD Chamber as well with the professional bodies, scientific organisations, academic institutions and domain area experts. This entails active participation of the industry stakeholders.

We request the members, interested in joining the Standardisation Cell of PHD Chamber of Commerce and Industry, to kindly share their details in the appended format at spsharma@phdcci.in.

Name	Designation	Organisation	Contact No.	Email Address

Please contact for any query related to this mail to Ms Kritika Bhasin, Research Officer at
