Improving Productivity and Lives of Farmers in India's Maharashtra State

ADB is preparing an innovative Maharashtra Agribusiness Network (MAGNET) project. MAGNET will increase the incomes of small and marginal farmers in India's Maharashtra State in line with the state government's Vision 2030 by providing holistic agribusiness and value chain support in horticulture. It will enhance (i) the capacities of agribusiness institutions and farmer producer organizations, (ii) access to finance of farmer producer organizations and value chain operators, and (iii) horticulture value chain infrastructure. The infrastructure will use designs that are responsive to gender and people with disabilities, and include climate adaptation and mitigation financing.
