

## Good Governance Index (GGI), Ministry of Personnel, Public Grievances & Pensions

Dr Jitendra Singh, Hon'ble Minister of state, Ministry of Personnel, Public Grievances & Pensions launched the 'Good Governance Index' (GGI) at an event organized by the Ministry of Personnel, Public Grievances & Pensions submitted by Centre for Good Governance (CGG), on the occasion of Good Governance Day recently. The framework of GGI aims to put forth a comprehensive means of computing an index to measure governance across states and rank them accordingly. The intent of the index is to provide information for the State Governments to act on and improve providing some insights to Central Ministries and Departments.

The GGI framework conceptualises and builds upon the fact that good governance acts as a means to effective delivery of essential services such as education, healthcare, environment protection; enabling economic growth and development in sectors such as agriculture, industry; and access to legal protection and judicial services thereby covering major components of what constitutes governance.

### **The GGI takes into consideration ten sectors:**

- Agriculture and Allied Sectors
- Commerce & Industries,
- Human Resource Development

- Public Health
- Public Infrastructure & Utilities
- Economic Governance
- Social Welfare & Development
- Judicial & Public Security
- Environment
- Citizen-Centric Governance

These ten Governance Sectors are measured on total 50 indicators. Difference indicators are given different weightage under one Governance Sector to calculate the value. E.g. Under Agriculture & Allied Sector, there are 6 indicators with different weightage, namely: Growth rate of agriculture and allied sector (0.4), growth rate of food grains production (0.1), growth rate of horticulture produce (0.1), growth rate of milk production (0.1), growth rate of meat production (0.1) and crop insurance (0.2). The states and UTs are divided into three groups: a). Big States, b). North-East & Hill States and c). UTs. The states and UTs are ranked on all indicators separately, at the same time composite ranking is also calculated for these states and UTs under their respective groups based upon these indicators.
