24 SEPTEMBER 2021

Over twelve months after the tender had closed, the African Development Bank published the award for tender RA/DC-CR/06-2014/2A-AW-Lot 1 for clearing, grubbing and fencing operations on a 19.5km stretch of the Windhoek - Hosea Kutako International Airport road upgrade.

The tender closed at the Roads Authority head office in Windhoek on 05 August 2020.

The RA Procurement Management Unit had issued the Specific Procurement Notice inviting bids from eligible Namibian Micro, Small and Medium Enterprises. The project is funded through African Development Bank financing loan no. 2000 2000 02004 for N\$350-m outside Namibia's State Revenue Fund.

China Railway 7th Group & Onamagongwa did Phase I

Phase 1 of the construction of TR9/1 to Hosea Kutako International Airport to dual carriageway standards is an 8.4km stretch from Main Road 49/UNAM to the Sam Nujoma Drive Extension, awarded under tender RA/DC-CR/06-2014, that closed on 07-Oct-15 to China Railway Seventh Group in joint venture with Onamagongwa Trading Enterprises for N\$799-m.

Phase 1 was supposed to be completed by Jan-18 but was then extended by 3km for N\$150-m in 2019 (*Bulletin 1129*).

Phase 2B funded by China without public tender

No public tender was issued for Phase 2B for the remaining 23.5km from the Dordabis interchange to HKIA.

Only Chinese contractors were allowed to bid under tender RA/DC-CR/06-2014/28, with five offers from N\$943.55-m to N\$996.325-m received by the Roads Authority on 21-May-21 for the longest 23.5km stretch from Dordabis to the airport.

This brings the total cost of the freeway to N\$3-b (bid details in *Bulletin 1406*).

No award was made public for this Phase 2B, although a contractor was supposed to be on site by mid-2021.

The previous sections were financed through the N\$350-m AfDB loan but were all built by Chinese contractors.

And the new international airport will probably also be an all-Chinese project.
