NAMIBIA'S SHADOWY DEVELOPMENT BUDGET HAS HAD ITS N\$133 BILLION TOTAL FROM LAST YEAR REWRITTEN IN VANISHING INK FOR 2021/22, WHICH ALSO OBSCURES TENS OF MILLIONS IN CUMULATIVE INVESTMENTS TO DATE IN ITS NEW, WATERED-DOWN FORMAT. We conclude our two-part deconstruction of the distorted development budget THIS WEEK, EXPOSING SOME OF THE UNREPORTED SPENDING OVER PREVIOUS YEARS THAT AMOUNTS TO POTENTIAL WASTEFUL EXPENDITURE AND PROJECT FAILURES THROUGH INCOMPETENCE, MALFEASANCE OR CORRUPTION - PAGE 2.

WALVIS BAY'S FUEL DEPOT FIREFIGHTING CONTRACT REDUCED TO ASHES

NAMIBIA'S CENTRAL PROCUREMENT BOARD HAS ANNULLED THE AWARD OF ITS N\$60-M, REISSUED TENDER FOR THE CONSTRUCTION OF A FIREFIGHTING SYSTEM AT THE PORT OF WALVIS BAY'S NEWLY-COMPLETED NATIONAL OIL STORAGE FACILITY, AFTER THE SUCCESSFUL CONTRACTOR FAILED TO COME UP WITH THE REQUIRED PERFORMANCE SECURITY. THE FIRST TENDER THAT CLOSED IN 2019 WAS CANCELLED AMIDST APPEALS BY SOME UNSUCCESSFUL BIDDERS. THE OIL FACILITY'S COST ESCALATED ASTRONOMICALLY FROM N\$900-M IN 2014 TO N\$6-B UPON COMPLETION DUE TO GROSS GOVERNMENT MISMANAGEMENT, DURING WHICH IT WAS DISCOVERED THAT ADEQUATE FIREFIGHTING FACILITIES HAD BEEN OVERLOOKED - PAGE 2.

Extension and renovation of National Botanical Research Institute in Windhoek – no expenditure reported until 2019/20, yet between 2015/16 - when the project commenced - and 2018/19, N\$72.2-m was voted, taking midyear revisions into account.

22 OCTOBER 2021
 Namibia's N\$133 billion programme for capital development projects under implementation last year has been reduced to an undisclosed quantity in 2021/22.

This is the effect of the National Planning Commission's new development budget format introduced this year, that has for the first time expunged the combined value of projects under implementation, alongside omitting the financial balances to project completion, introduced last year.

In 2020/21 – the last year in which project totals were reported – Namibia's overall development budget listed 403 active projects with a combined total of N\$133-b.

In 2019/20 – the last year in which balances to project completion were reported – Namibia's overall development budget under implementation listed 422 projects totaling N\$138.7-b, requiring N\$83.7-b to complete.

This year's 397 projects have no stated total value, no balances of expenditure required to bring them to closure, alongside missing or incomplete data on what has been spent on them to date – meant to replace project totals.

As noted previously (in *Bulletin* 1417), Namibia's development budget has been degraded into a

shadow of its former self, stripped of these key financial indicators to the point where any meaningful evaluation has become challenging, while conveniently concealing potential wasteful expenditure and project failures through incompetence, malfeasance or corruption.

Tens of millions in capital project expenditure over previous years has also been expunged from the 2021/22 national development budget in what amounts to an unprecedented concealment of cumulative investments to date.

A review of this year's development budget by the *Tender Bulletin* has revealed that the National Planning Commission in the Office of the President, responsible for the development budget's compilation, has for the first time chosen not to disclose estimated values of individual projects, replacing this instead with purported previous expenditure, which has largely been recorded inaccurately – if at all.

This renders any meaningful measurement of progress obscure and serves as a convenient cover to conceal the extent of previous wasteful expenditure, malfeasance and corruption on capital projects that have been delayed or abandoned.

There are 197 projects in the NPC's 2021/22 development bud-

Construct veterinary clinics, offices and accommodation in various regions (started in 2009) – N\$13-m actual expenditure reported until 2019/20, yet between 2015/16 and 2018/19 N\$147.2-m was voted, taking midyear revisions into account.

Capital swept

get, with a combined N\$5.5-b voted expenditure this year – equaling what it was five years ago and its second-lowest in nine years.

This downgrade of transparency in the budget document's new format renders an accurate financial measure of progress on each project difficult – if not impossible, without a large-scale, comprehensive forensic audit.

The NPC has offered no explanation for this new format that strips individual capital projects of their total cost estimates and funding required for completion, as in the past. And to exacerbate matters, its inclusion of previous years' expenditure is largely inaccurate or missing.

In its introduction to the estimates of development expenditure over the medium terms from 2021/22 to 2023/24, the NPC only says: "In line with the expected reduction in economic activities and revenue collection, the total development budget allocation from the Inside State Revenue Fund for the 2021/2022FY was scaled down to N\$5.5 billion, which represents a N\$1 billion decline when compared to the previous year budget."

Development expenditure of N\$5.55-b from the central government's own fiscal resources in 2021/22 equals the N\$5.6-b in 2017/18 and is 44% below its N\$9.8-b peak in 2015/16 seven years ago.

This year's 14% decline on

2020/21's revised N\$6.456-b is the fourth year-on-year decline over the nine-year span since 2013/14, with a cumulative contraction of 26% or -2.9% averaged annually over the past nine years.

Projects flagged methodology

Of the 397 projects comprising 2021/22's development budget, the *Tender Bulletin* has flagged 103 that appear dubious in terms of their stated historical expenditure.

As the accompanying graphic of one project listed in this year's budget shows, the budget no longer reveals the project total, nor its estimated balance to completion, but shows only [purported] actual expenditure until 2019/20, together with 2020/21's estimate.

Of the 103 projects flagged, 21 supposedly have had no previous expenditure at all – including last year's estimates – even if they had started several years ago.

Our listing of these projects below shows what this year's development budget includes and also what it does not include in terms of previous expenditure as well as each year's midyear revisions.

Other projects, with no purported actual expenditure until 2020/21 but only last year's estimates, were found to have omitted all or much of previous years' actual expenditures.

Small stock distribution and development in communal areas – no actual expenditure reported until 2019/20, although the project started in 2014. Between 2015/16 and 2018/19 N\$10.97-m was voted, taking midyear revisions into account.

WALVIS FUEL STORAGE FIREFIGHTING CONTRACT ANNULLED

22 OCTOBER 2021
 The Central Procurement Board of Namibia has annulled the award of its tender for the construction of a firefighting system at Walvis Bay's newly completed national oil storage facility, after the successful contractor failed to come up with the required contract performance security.

The annulment of tender W/ONB/CPBN-03/2020 was effected on 21 July, according to a notice on the CPB's website.

The invitation for bids on the firefighting system was issued by the CPB under open international [sic] bidding on behalf of the National Petroleum Corporation of Namibia and closed on 16-Nov-20.

The annulment was effected in terms of Section 55(1) of the Public Procurement Act and in line with the provisions of ITB 40.2 of the bidding document read together with Section 55(7)(b) of the PPA and Regulation 38(4).

Section 55(7) of PPA states that "Where the bidder whose bid has been accepted ... (b) fails to provide any required security for the performance of the contract, within the prescribed period, the

Board or public entity may select another bidder from amongst the remaining valid bids".

Regulation 38(4) states: "A bidder to whom a procurement contract is awarded fails to sign a contract or to provide the required security for the performance of the contract within a period 30 days from the date of the notification of the award or such further period as may be extended by the public entity, the public entity must select another bidder from amongst the remaining valid bidders as contemplated in section 55(7) of the Act".

Although these sections state that another bidder should be selected, the annulment notice, signed by CPB Chairperson PP Swartz, says: "Should there be a fresh solicitation of the bid, the advertisement shall be published in the local media and on www.cpb.org.na".

Awarded to Pioneer Mechanical / Waldheim Construction

The N\$60-m external firefighting system contract was awarded by the CPB on 02 February this year

to Pioneer Mechanical Contractor Namibia / Waldheim Construction & Installation joint venture.

The JV had tendered the second highest price of N\$59,616,928.80 (including VAT) when the tender closed on 16-Nov-20 with seven offers from N\$46.3-m to N\$59.9-m (*Bulletin* 1376).

The unsuccessful tenderers were:

- * Namibia Construction = N\$46,324,818.23
- * D-Square Trading Enterprises = N\$47,819,061.95 [2019]
- * Teya Investment No. 18 = N\$50,080,869.30
- * Omahooli Solutions = N\$51,239,265.98 [2019]
- * ETN Technical Services = N\$58,679,327.30
- * DME Namibia Solution = N\$59,968,042.04.

According to media reports, an appeal against the award was lodged by some aggrieved bidders, which was confirmed by CPB spokesperson Johanna Kambala at the time.

According to the CPB bid evaluation report, only Pioneer and D-Square were compliant after the first stage of the evaluation, while only Pioneer passed the technical and financial evaluation.

After a previous tender with the same description was cancelled

for unknown reasons after it had closed on 18-Sep-19, the CPB issued the ONB tender on behalf of Namcor, after it had emerged that the national fuel storage facility's firefighting infrastructure was inadequate.

The firefighting tender is linked to the National Oil Storage Facility project in Walvis Bay, for which Namcor conducted its own risk assessment and identified the need for a fire station to comply with minimum international standards.

The National Energy Fund will finance about N\$50-m needed to upgrade the fire fighting capabilities.

According to informed sources, officials had only discovered that the facility did not meet international firefighting standards after the project was completed by China Harbor Engineering Company with the Roads Contractor Company and Babyface Civils as local partners.

The joint venture was awarded the contract for the national fuel depot in 2014, when the cost was about N\$900-m, ballooning to N\$3.8-b in 2014 and to N\$5.5-b by 2016 (*Bulletins* 1388, 1376).

diture.

The list of 103 projects is by no means exhaustive, but represents the most obvious cases that we have flagged - those projects with suspiciously low previous expenditures in relation to their starting date.

We have not included those projects that have run up relatively large amounts in previous expenditure, which we have given the benefit of the doubt.

Our review of past expenditure covers the period 2013/14 until this year, all of which are contained in our database of development projects.

Due to space constraints, we listed the first 48 of the 103 flagged projects in *Bulletin 1417*, Vote 6 - Safety & Security until Vote 31 - Veterans Affairs.

This week, we conclude our two-part review of flagged projects in Namibia's 2021/22 development budget, which covers Vote 32 - Higher Education, Training & Innovation, until vote 38 - Water.

WHAT IS NAMCOR UP TO?

22 OCTOBER 2021

The National Petroleum Corporation of Namibia is in the process of acquiring undisclosed strategic assets and is soliciting foreign consultancy firms to partner with it in the exercise.

This emerges from the executive summaries of two bid evaluation reports posted on its website, after two high-end consultancy tenders were issued without being advertised in the local media.

The cryptically-worded tenders provide give no clue as to what they are about but could relate to the operation of the now-completed National Oil Storage Facility and Jetty at Walvis Bay, the cost of which escalated from N\$900-m in 2014 to N\$5.5-b.

The two consultancy tenders could also tie in with an expression of interest recently issued by the Namibia Investment Promotion & Development Board (NIPDB), looking for partners for the Walvis Bay Industrial Development Initiative (WIDI) closing on 30-Oct-21.

The WIDI consists of three project components:

- (1) management and operation of the existing New Container Terminal at the Port of Walvis Bay by a private operator;
- (2) development and deployment of a National Single Window (NSW);
- (3) development and operation of a Special Economic Zone near Walvis Bay.

The implementation of an NSW is a priority project and is being considered alongside the development of a SEZ and the management of the NCT by private developers and operators (details in *Bulletin 1417*).

Namcor's two cryptic consultancy tenders could also relate to Recon Africa's current oil exploration in the Kavango region or to the search for international partners for possible green hydrogen production in Namibia, for

*** Cryptic energy stratagems point to oil and gas mergers, acquisitions and disposals, after Namibia's energy parastatal invites only foreign firms to conduct asset evaluations and partner with it in new ventures**

*** International consultants bid over N\$6 million on two tenders for due diligence and production assets evaluation in a 'potential acquisition'**

which the NIPDB recently issued a Request for Proposals for "climate combating feasibility activities for the production of green hydrogen" on two sites inside the Tsau//Khaeb (Sperrgebiet) National Park (details in *Bulletin 1411*).

According to Namcor's website, its mission as the "national oil company of Namibia", is to create value to "all its stakeholders across the oil and gas value chain".

"Our world-class exploration and production database, and oil license blocks form some of the major attractions to Namibia's hydrocarbon potential.

"We have recently entered the downstream retail sector and we are currently rolling out several service stations at strategic locations around the country.

"We have been designated as the operator of the National Oil Storage Facility and Jetty at Walvis Bay, which, upon completion will improve Namibia's security of supply of petroleum products."

Additional consultants for asset evaluation

Tender SC/RP/NC-09/2020 is a request for proposals for the appointment of **additional** consultants to the panel for the technical and commercial evaluation and due diligence of production assets over four years, as part of a 'potential acquisition'.

This tender was issued on 03-Mar-21 - without being advertised

in the local media and closed on 02-Apr-21.

According to the executive summary of the bid evaluation report on Namcor's website, three offers were received, of which two were responsive:

* TRACS International = N\$2,567,835 (91.67% score).

* Moyes & Co = N\$6,368,880 (66.75% score).

From the information available it is not clear whether the company with the highest technical score was selected for the award.

* Alpha Petroleum's offer was not responsive (failed to achieve the minimum technical score of 60%).

Namcor invited proposals from reputable, competent and experienced companies with a proven track record in technical and commercial evaluation and due diligence "of oil and gas mergers, acquisitions and disposals" and portfolio management.

The four-year renewable Master Service Agreement covers:

- * asset evaluation;
- * virtual Data Room based technical and economic evaluation;
- * physical Data Room based technical and economic evaluation;
- * commercial due diligence;
- * asset fair market valuation and bid preparation;
- * Liaison with management of other due diligence work streams as necessary (e.g. legal, tax); and
- * provision of reports for Namcor management at key stages.

The undated executive summary signed by Namcor procurement

ENERGY UPDATE

committee chairperson Nestor Sheefeni, states that Namcor seeks to form a working partnership with a competent service provider who will 'collaborate closely, in an extended team environment, from start to finish'.

The role requires a general progression from high level screening through to detailed due diligence, economic analysis and transaction structuring.

Three firms pre-qualified in October 2020's first round

This followed an earlier tender last year - SC/RP/NC-05/2020 - for the appointment of a panel of consultants for the technical and commercial evaluation and due diligence of production assets over four years, as part of a potential acquisition.

This tender closed 28-Oct-20 after bids were invited on 28-Sep-20 - again without being advertised in the local media.

According to the executive summary of that bid evaluation report also posted on Namcor's website, six offers were received, of which three were responsive:

* IHS Markit = N\$4,124,000 (92.78% score)

* Wood Mackenzie = N\$7,031,015 (85.22% score)

* Envoi Limited = N\$4,815,680 (78.08% score).

Again, from the information available, it is not clear whether the company with the highest technical score was selected for the award.

The companies that were non-responsive were:

* Moyes & Co (no valid tax documents)

* TRACS International (no valid tax documents)

* Uniwe International Energy Service Ltd (did not achieve the minimum technical score of 60%).

NO PEUGEOTS AND NO PUBLIC TENDERS FOR NAMPOL'S NEW WHEELS

22 OCTOBER 2021

Namibian Police chief, Sebastian Ndeitunga, was blissfully unaware of a 2018 cabinet directive for preferential procurement of official vehicles from the government co-owned Peugeot assembly plant in Walvis Bay, when Nampol ordered 25 traffic law enforcement vehicles for N\$11.37-m from private dealerships – without public tender.

Former finance minister Calle Schlettwein had directed all public entities in 2018 to procure locally manufactured vehicles from the 49% government-owned plant in Walvis Bay until all the Peugeot 3008 and 5008 models had been exhausted sold.

Ndeitunga was not aware of this instruction, but agreed that that it was a good idea to buy locally, hinting that there was always a 'next time'.

The Road Fund Administration, itself a state-owned entity, had made funds available for the Nampol fleet addition, consisting of eleven VW Polo GTIs, six Toyota Corollas and three Toyota single cab pickups, plus another five vehicles still to be delivered.

During the handover ceremony, where a memorandum of agreement was signed between RFA and Nampol, additional equipment to the value of N\$3.6-m was also handed over - including five Trucam average speed cameras, five Intoxlyzer breath analysers

and five MaxX alcohol screening devices. None of these were procured through public tenders, either.

Executive Director of the Ministry of Home Affairs, Immigration, Safety & Security, Etienne Maritz, said the RFA support could not have come at a better time considering the severe financial constraints the ministry was facing.

RFA Chief Executive Director, Ali Ipinge, confirmed that over N\$2.4-billion was invested annually in the road sector - mostly for maintenance and upgrading of national roads.

The support to Nampol will continue in coming years with at least N\$15-m per annum, he promised (*New Era 12-Oct-21, Namibian Sun, Die Republikein 13-Oct-21*).

Which procurement method was used?

Not only was the Nampol chief unaware of the irregular preferential procurement of vehicles, he also did not explain under which procurement method the vehicles were ordered and whether the ministry's Procurement Management Unit was bypassed in the procurement process.

If Nampol used the 'Request for Quotation' procurement method then at least three quotations should have been obtained from relevant dealers, which could have been advertised in the local media or should at least have been posted on ministry's website. But the RFQ method is only supposed to be used for goods up to N\$2-m and the 'restricted bidding' method for goods up to N\$3-m, according to the Public Procurement Act 15 of 2015.

And the chronic lack of police vehicles hardly constitutes an emergency justifying 'Emergency Procurement'.

After a long period without any public procurement, the Ministry of Home Affairs, Immigration, Safety & Security has recently started advertising some Open National Bidding tenders for the different divisions resorting under the re-configured ministry - long after the Ministry of Home Affairs & Immigration was merged with the Ministry of Safety & Security in 2020.

The MHAISS started posting 'Requests for Quotations' on its website only since October - but so far none of these were for Nampol. The Nampol website <https://nampol.gov.na> does not have a procurement section.

It remains a mystery how items like uniforms, blankets, badges, buttons, ranks and insignia, hats and caps, reflective traffic jack-

ets, cleaning materials, furniture, etc. are currently procured for Nampol.

Until 2015, such goods supplies and other service tenders for ration packs, refuse removal, firefighting equipment, etc., were advertised and handled by the now defunct Tender Board of Namibia.

Arbitrary vendor registration notice

The Nampol vehicle purchase was preceded in May by a 'Notice to Suppliers' requesting the submission of company profiles for the provision of goods, works and services to the MHAISS Procurement Management Unit for procurement during the 2021/22 financial year.

Under GOODS SUPPLIES this notice listed under Item 3: new fleet (*New Era 04-May-21*).

An analysis of the arbitrary and impractical supplier request with confusing classifications of 110 items was published in *Bulletin 1368*.

For example, the notice restricted each bidder to only register for one item and only for one region [which would restrict a Walvis Bay manufacturer from delivering in Windhoek].

The lack of public procurement by the security ministry was highlighted in the same edition.

These updates are compiled from media reports and Market Namibia & Tender Bulletin's own sources.

REFERENCE: MWT 1419 - training; **CLOSING:** 12-Nov-21 11:00
DESCRIPTION: Request for Quotations - Training facilities services. AfDB financing loan no. 2000200002004. Transport sector. Project: Transport Infrastructure Improvement Project. Project ID No. P-NA-DZ0-001. The Government of the Republic of Namibia has received financing from the African Development Bank towards the cost of the Transport Infrastructure Improvement Project and intends to apply part of the agreed amount for this loan to payments under the contract for consultancy services for the skills development promotion and training of railway infrastructure maintenance. The MWT as implementing agency for this project is required as per AfDB rules and procedures, to arrange training facilities for the consultant services to conduct skills development promotion and training for railway infrastructure maintenance. As of now, the MWT has appointed a consultant, R&H Rail (Pty) Ltd, to provide the needed services. MWT therefore requests fixed training facilities for the consultant to conduct the skills development training for railway infrastructure maintenance in three regions: Khomas, Oshikoto and Erongo. The contract duration is eight months. Requirement criteria for each facility are for 50 learners per region, so we need: (a) a room large enough to accommodate 50 learners at 1.5m social distance (15m long by 20m wide equals 300sqm room); (b) 51 tables and chairs; (c) a white board with markers; (d) flip chart; (e) a white wall to project on; (f) electricity for the projector, laptop etc. for the trainer; (g) the room must be properly ventilated; (h) sanitisers at the entrance; (i) the room must have property lights conducive for studying; (j) proper ablution facilities for males and females; (k) preferably within walking distance to railway lines for practical training. MWT invites eligible consultants [sic] to indicate their interest in providing these services by submitting information indicating that they are qualified to perform the services (brochures, description of similar assignments, experience in similar conditions, availability of appropriate skills among staff, etc.). Consultants [sic] may constitute joint ventures to enhance their chances of qualification. **ELIGIBILITY** criteria, establishment of the short list and the selection procedure will be in accordance with the AfDB's 'Procurement Framework for Bank Group-funded Operations' dated Oct-15, which is available on the bank's website (www.afdb.org). **SUBMIT** quotations delivered to MWT and marked 'Supply of training facilities for the Transport Infrastructure Improvement Project'. Electronic submissions in PDF format may also be submitted by the submission deadline to Randolph.Beukes@mwt.gov.na and enjambali@mwt.gov.na.
