UNPLANNED PROCUREMENT UNDER-PERFORMS BY DESIGN

THE CENTRAL PROCUREMENT BOARD'S LATEST UPDATE FOR THE 2ND AND 3RD QUARTER OF 2021 IS FAR FROM COMPREHENSIVE AND LACKS REAL SUBSTANCE, FOR WHICH ITS OWN LACK OF CAPACITY IS TO BLAME. THIS, IN TURN, IS AN OUTCOME OF THE NEW PROCUREMENT REGIME ACTIVATED IN 2016, WITHIN WHICH THE CPB SEEMS TO HAVE BEEN SET UP TO FAIL. WHY ELSE WOULD SUCH A CUMBERSOME SYSTEM BE IMPLEMENTED IN THE ABSENCE OF SUFFICIENT CAPACITY TO GOVERN IT EFFECTIVELY - AS ADMITTED BY THE FINANCE MINISTER HIMSELF? - PAGE 4

N\$22-M ROAD UPGRADE FROM DU PLESSIS PLAAS TO EPUKIRO - 4

The Ministry of Defence has an ongoing exemption from the finance ministry for security reasons (including tenders for uniforms and chicken imports from abroad).

26 NOVEMBER 2021

The Central Procurement Board of Namibia has admitted to having little bark and even less bite, after being completely sidelined on the N\$7-b Green Hydrogen project and rendered toothless in the face of carte blanche tender exemptions to the Ministry of Defence, Ministry of Health, NamPower, Telecom (amongst others) who now enable their own bidding with little public scrutiny – courtesy of Namibia's new procurement legislation riddled with loopholes.

Chairperson of the Central Procurement Board, Patrick Swartz, confirmed at a media briefing in Windhoek last week that Namibia's procurement authority that is supposed to deal with all high value procurement on behalf of state entities, was completely sidelined in the green hydrogen project, touted to attract N\$6-b in foreign direct investment and N\$800-m annual revenues.

Questioned by journalists at the briefing on 16 November, Swartz diplomatically avoided a direct answer on why the biggest project ever to be undertaken in Namibia did not go through the board – as envisioned by the Public Procurement Act.

Instead, he said the CPB could only deal with projects for which plans are submitted to it by state entities, which was clearly not the case with the Green Hydrogen project.

A 'request for proposal' process was launched by president Hage Geingob on 03-Aug-21 for the development of green hydrogen and ammonia (GH&A) projects in the //Karas Region, after international investors had submitted six written offers (details in *Bulletin 1411*).

Swartz did not say whether the Office of the President had obtained an exemption from the CPB for this RFP.

In his midyear budget speech earlier this month, finance minister lipumbu Shiimi said "We are encouraged by the positive response to the Request for Proposals (RFP).

"Subject to confirmation of feasibility of the two identified sites, i.e., Springbok and Dolphine, this activity has the potential to attract over N\$7 billion in Foreign Direct Investments (FDI) in the coming years, create well over 20,000 jobs during the construction phase and raise about N\$100 million in annual concession fees for the Government.

"Going forward, more sites will be placed on auction in the near future", Shiimi added.

The CPB's media briefing reported on progress made between 01-Apr-21 and 30-Sep-21.

When asked about exemptions granted for tenders above the thresholds established for state entities under the Public Procurement Act and which should be administered by the CPB, Swartz confirmed that the Ministry of

Central Procurement

Defence has an ongoing exemption from the finance ministry for security reasons (including tenders for uniforms and chicken imports from abroad).

Similarly, the health ministry was allowed to conduct all Covid-19 related procurement under exemption or through 'emergency procurement' without involving the CPB.

Neither of these two ongoing exemptions had been announced prior to the briefing.

Nampower's two-year carte blanche

Swartz also disclosed – for the first time – that NamPower has obtained an exemption to conduct procurement above its threshold without involving the CPB for the next two years.

This explains why the power utility issued its own tender in May for the Engineering, Procurement & Construction of the Anixas II Power Station in Walvis Bay referenced W/OIB/NPWR-03/2021 that closed on 22-Oct-21.

An earlier tender for the same project issued by the CPB referenced W/EOI/CPBN-01/2020 closed on 19 October last year but was cancelled in April this year (*Bulletin 1403*), after the CPB had already pre-qualified four Chinese contractors in February (*Bulletin 1389*).

Unlike many other state entities, NamPower does not publish its bid opening reports on its website (ex-

cept for two recent RFQs).

Nampower also recently issued an invitation for pre-qualification of an EPC contractor for the 40MW Rosh Pinah Wind Project tender W/OIB/NPWR-02/2022 that closes 04-Feb-22.

This blanket exemption to NamPower was first disclosed by finance minister lipumbu Shiimi in his midyear budget speech on 05 November, when he said "steps have been taken to address critical capacity challenges identified in both the Procurement Policy Unit (PPU) and the Central Procurement Board (CPB), as well as to exempt key public enterprises with adequate capacity to manage their own procurement functions such as NamPower".

These "critical capacity challenges" should have been foreseen when the Public Procurement Act of 2015 was activated in 2016, resulting in nationwide chaos in government procurement at all levels, as is still evident today – five years later.

Telecom's blanco procurement

Another state-owned entity, Telecom Namibia, has also obtained an exemption from having to go through the CPB for some projects, manifested, for example, in its tender G/OIB/TN-163/2021 for the supply, delivery, installation, commissioning and maintenance of Operations and Business Support Systems (OSS/BSS) to Telecom Namibia that closed 12-Oct-21 (14 bids between N\$49-m and N\$693-m were published in *Bulletin 1419*).

An earlier CPB tender on behalf of Telecom, with the same description, G/OIB/CPBN-02/2020, also under Open International Bidding, had closed on 21-Sep-20 but was cancelled in April this year, since the 'expected outcome' was not achieved from the 18 tenderers (*Bulletin 1402*).

WIDI without the CPB

What Swartz failed to mention at all, was another mega project currently unfolding without the CPB's involvement – the Walvis Bay Industrial Development Initiative (WIDI).

This tender was referred to by Shiimi in his budget speech – an expression of interest for investors to partner with the government in the National Single Window, the New Container Terminal at the Port of Walvis Bay and the Special Economic Zone in Walvis Bay that "had closed few days ago" and that "[I]n the coming days, a credible evaluation process will ensue to gauge the interest of investors.

"This is yet another demonstration that Namibia is engaging the world in a transparent manner" – except for the fact that the Central Procurement Board had also been sidelined in this exercise.

This EOI refers to an unreference tender issued by the Namibia Investment Promotion &

Board sidelined

Development Board on its website on 04 October, that closed 30 October.

In terms of the call for expressions of interest, the Namibian government seeks a Walvis Bay Industrial Development Initiative (WIDI) partner involving Nampor's New Container Terminal (NCT) at the Port of Walvis Bay.

According to the EOI, "the GRN seeks to develop a Special Economic Zone (SEZ) in near proximity to the port of Walvis Bay".

As part of Namibia's ambition to develop into a regional logistics hub, "the implementation of a National Single Window (NSW) has also become a priority project and is being considered alongside the development of a SEZ and the management of the NCT by private developers and operators respectively", according to the tender notice.

To effectively implement these initiatives, the government has consolidated them into a project called the Walvis Bay Industrial Development Initiative (WIDI).

It also includes the establishment of a special economic zone (SEZ) to "aid the conversion of Namibian raw materials and resources to finished and semi-finished products and components as part of the nation's drive to diversify Namibia's economy".

WIDI consists of three project components:

- (1) management and operation of the existing NCT at the Port of Walvis Bay by a private operator;
- (2) development and deployment of an NSW facility;
- (3) development and operation of a SEZ near Walvis Bay.

The EOI, launched on 30-Aug-21 - two months before the notice was published by the NIPDB - invited "leading global developers and operators with significant capability and well proven experience in port and container terminal management, shipping and logistics sector operations, developers and operators of special economic zones and business development experts ... to partner with government in the WIDI.

A National Coordinating Committee, with lead coordination by the NIPDB, was constituted to identify and approach global market leading operators, and to facilitate the EOI from potential operators and developers on behalf of the government.

In addition to the NIPDB, the committee also comprises the Ministry of Public Enterprises, Ministry of Industrialisation & Trade, Ministry of Finance (PPP and Procurement Policy Units), Nampor and Namibia Industrial Development Agency.

The call for EOIs is a "market sounding process" to "allow government to assess the market appetite for partnerships" after which "government will then assess

whether the interest expressed by the private sector warrants continuing with a subsequent Request for Proposals under the provisions of the Public-Private Partnerships (PPP) Act" (*Bulletin 1417*).

In addition, the National Petroleum Corporation of Namibia has just issued two mega tenders on its own - ostensibly on exemption from the CPB - one for bulk fuel storage and another for an LPG pipeline.

Namcor's own bulk fuel storage

Tender SC/EOI/NC-02/2021, closing 09-Dec-21 (*Bulletin 1423*) is an expression of interest calling on interested companies/investors for the construction, financing, commissioning, operation and maintenance of "a" bulk fuel storage facilities for Namcor.

Namcor invites prospective companies/investors to submit their qualification statements in line with the Public Procurement Act 15 of 2015.

The objective of the project is to procure an investor with the required technical and financial capabilities and experienced team to Build, Operate and Transfer bulk fuel storage facilities for NAMCOR within the next three years.

Namcor's LPG pipeline

Tender SC/EOI/NC-01/2021, closing 03-Dec-21 (*Bulletin 1421*) is another expression of interest, this time for companies/investors for the construction, financing, commissioning, operation and maintenance of a 2.5km jetty LPG pipeline system on a Build, Own, Operate & Transfer (BOOT) model.

The jetty refers to the offshore infrastructure comprising part of Namcor's bulk fuel storage facility in the Port of Walvis Bay.

Namcor invites local and international investor companies and/or joint ventures to submit their qualification statements - also in line with the Public Procurement Act 15 of 2015.

Here the objective is to acquire an investor with the required technical and financial capabilities for the construction of a 2.5km pipeline on the existing NOSF jetty, operation and maintenance of the pipeline as well as financing of the design, engineering, procurement and construction.

Since both these Namcor tenders are issued "in line with" the Public Procurement Act, exemptions must have been obtained from the CPB to go ahead without the CPB's involvement, although the granting of such exemptions were never publicly disclosed.

Retrofitting the Procurement Act?

The health ministry was allowed to conduct all Covid-19 related procurement under exemption or through 'emergency procurement' without involving the CPB.

In his midyear budget address on 05 November, finance minister Iipumbu Shiimi alluded to forthcoming changes to the Public Procurement Act of 2015.

The Public Procurement Amendment Bill is currently at the legal drafting stage, anticipated to be tabled in the National Assembly during the next session.

Shiimi did not elaborate, but it is reasonable to assume that the Bill will retrofit the Procurement Act with exceptions that would legalise further exemptions from involving the Central Procurement Board - and not disclosed until after the fact.

Shiimi also announced that "Codes of Good Practices" are to be issued in terms of Section 70(1) of the Public Procurement Act, "to support businesses owned by the youth, women, and local producers."

"The Code of Good Practices was gazetted few days ago on 29 October 2021 for public comments. We urge all Namibians to study the Code and provide inputs."

This reinforces the wholesale subjugation of public procurement to the BEE syndrome that continues to undermine supply chain efficiency, service delivery and project execution, while encouraging tenderpreneurship on an unprecedented scale.

Successful bidders 'are vetted'

Yet, for those routine tenders not wild-carded through exemptions, the CPB's Swartz insisted that bidders were vetted by the bid evaluation committees before being recommended for an award.

This vetting includes tendering within their line of business and possible inspections of company premises to verify the information submitted.

Yet, on the controversial N\$3.5-b hostel food tender G/ONB/CPBN-

1/2020, the CPB had included general traders, an earthworks contractor and a property company among the nine successful bidders, while some experienced caterers were found to be lacking on 100% Namibian and 51% PDN ownership or had missing obligatory documents.

After eleven participating companies had objected to the Review Panel during the seven-day standstill period, the RP held a hearing in March and then ordered the CPB to review its February award for the government hostel food tender.

The RP found that the CPB's tender evaluation process was marred with discrepancies and inconsistencies (*Bulletin 1418*). This tender will be re-issued in due course, Swartz confirmed at the briefing, while the Ministry of Education Arts & Culture is in the meantime conducting its own emergency procurement in anticipation of the 2022 school year.

CPB moves to old RCC premises

Meanwhile, the CPB announced in *New Era* on 16-Nov-21 that it will be moving to new offices premises "effective 01-Dec-21" at Erf 8161 in Julius Nyerere Street.

That turns out to be the old RCC complex, which was recently taken over by Namibia Post & Telecom Holdings, after the embattled Roads Contractor Company could no longer afford the upkeep.

CPB Marketing & Stakeholders Engagement Specialist, Johanna Kambala, confirmed that that the Board will have more space to conduct its business at the new premises - business that increasingly excludes the really big tenders on which it has no oversight.

See accompanying tables.

Kent water meters, pumps, manhole covers, civils and tanks.
Pipes and fittings: UPVC, HDPE, galvanised, UD, SV, PEX and copper (All sizes!)

Telecom Namibia has also obtained an exemption from having to go through the CPB for some projects.

Another mega project currently unfolding without the CPB's involvement is the Walvis Bay Industrial Development Initiative (WIDI).

26 NOVEMBER 2021

The Central Procurement Board of Namibia is in the process of working through procurement plans totaling N\$1.3 billion from government ministries, offices and agencies – without disclosing the coverage of these plans within the plethora of state entities.

The value of these plans is a reduction on previous years – an indication that more state procurement is being conducted below the public radar, although the CPB has not expressed an opinion on this.

This is one of the highlights of the six-month period between April and September this year, reported on by CPB chairperson Patrick Swartz at a media briefing in Windhoek last week.

The briefing on 16 November, gave an overview of the activities and challenges encountered during the second and third quarters of 2021 from 01-Apr-21 to 30-Sep-21.

The statistics presented provided an incomplete picture of the CPB's activities, however. The six-month coverage of the first two quarters in 2021 provided few annual comparisons with previous years.

A visit to the Board's website

PROCUREMENT PLANS TO THE CPB		
DATE	PRO-JECTS	N\$
as at 31-Mar-20	40	5,271,339,260
as at 31-Mar-21	13	1,276,366,136
as at 30-Sep-21	6	630,288,008
TOTAL		7,177,993,404

SOURCE: Central Procurement Board media briefing 15-Nov-21. Number and identity of entities submitting annual procurement plans not disclosed.

provided none of the missing information, not even coverage of last week's briefing. The CPB's latest annual report on its website is for 2017/18.

Without disclosing the coverage of the procurement plans processed – which are known to be scant, Swartz said in total the CPB approved individual procurement plans over three years amounting to:

- * N\$5,271,339,260 for 40 projects as at 31-Mar-20;
- * N\$1,276,366,136 for thirteen projects as at 31-Mar-21;
- * N\$630,288,008 for six projects as at 30-Sep-21.

This hardly accounts for full coverage of over 200 ministries, offices, agencies, state-owned entities, regional and local councils.

Projects currently in the pipeline amount to only N\$1,382,709,219, of which 29 are in the planning phase, 22 are in the bidding phase and one is awaiting contract signature.

The report does not disclose which SOEs, ministries, offices, agencies and councils submitted procurement plans – and which have not.

Health's N\$3.45-b 'Direct Procurement'

The six-month summary also lists contracts the CPB awarded under 'direct procurement' from sole suppliers on behalf of the Ministry of Health & Social Services:

- * N\$863,121,000 to the Lutheran, Anglican and Catholic churches for medical

N\$37-m 'emergency' awards to Gender Equality, Poverty Eradication & Social Welfare for food parcels.

Unplanned procurement

- services for 2021/22 to 2023/24;
- * N\$309,090,000 to the Namibian Blood Transfusion Service for blood supplies for 2021/22 to 2023/24;
- * N\$1,545,450,000 to the Namibia Institute of Pathology for the same three financial years;
- * N\$251,426,000 to the City of Windhoek for utility services until 31-Mar-24;
- * N\$397,975,000 to Nored, Cenored, Erongo RED and Oshakati Premier Electric for electrical services for three financial years until 31-Mar-24;
- * N\$82,579,098 to training institutions in South Africa, Zambia, India, Cuba, Russia, UNAM and the IUM for training of staff and students for 2021/22.

- * G/ONB/CPBN-03/2020: Provision of maize meal blending, packaging and transportation to regional distributors' warehouses closed 15-Feb-21, with 22 offers - again including many general traders - from N\$168-m to N\$328-m (*Bulletin 1391*).

Both tenders were referred back to the MEAC by the CPB in August and September, according to the CPB 'board decisions' on its website (*Bulletin 1418*).

Emergency tender awards approved for the **Ministry of Gender Equality, Poverty Eradication & Social Welfare** consisted of:

- * N\$20,334,000 for food parcels distributed by the Food Bank Programme;
- * N\$16,859,000 for food parcels distributed under the Marginalised Programme.

The *Tender Bulletin* is not aware of any public tenders under these programmes resorting under the Office of the Prime Minister. Nor were any tender exemption made known.

If formal tenders had been issued on time, there should not have been a need for 'emergency procurement'.

N\$520-m awards under 'competitive bidding'

The CPB summary for the six months also lists five projects awarded under competitive bidding (which the *Tender Bulletin* has reported on):

- * N\$73,035,568.36 to Nexus Building Contractors for Nampower's Sekelduin Indoor Substation building;
- * N\$340,808,287.38 to Sinohydro Corporation Ltd / Adaptive Building Land Construction joint venture for Nampower's Kunene & Omatando substation;
- * N\$55,728,460 to Fichtner GmbH / Lund CE & Pregon CE JV for transactional advisory services for Nampower's Otjikoto Biomass project;
- * N\$49,504,972 to ID Building Contractors for Phase 1 of the Erongo primary

The annual reduction in the value of annual procurement plans is an indication that more state procurement is being conducted below the public radar.

CPB CONTRACT EXTENSIONS – 2021 - FIRST QUARTER

STATE ENTITY	CONTRACT EXTENDED	N\$
City of Windhoek	operation and maintenance of Kupferberg general and hazardous waste disposal sites under contract EDE 11010/2015	7,588,705

The CPB's total is incorrect at N\$85,507,465. SOURCE: Central Procurement Board media briefing 15-Nov-21

N\$22-M UPGRADE OF DR1635 FROM DU PLESSIS PLAAS TO EPUKIRO

26 NOVEMBER 2021

The Roads Authority awarded the tender for upgrading to low volume seal of DR1635 from Du Plessis Plaas to Epukiro, Omaheke Region on 03-Nov-21 to Namibbeton Civil Engineering for N\$21,957,657.25 including VAT – the second-lowest offer.

When tender W/ONB/RA-02/2021 closed 19-Aug-21, thirteen offers were received ranging from N\$19.9-m to N\$28.9-m (*Bulletin 1417*).

Contract awarded to Namibbeton after 11 of 13 offers were non-responsive

The only other responsive bidder was Octagon Construction = N\$25,803,603.30 - corrected price. Eight of the eleven non-responsive companies were disqualified for lack of proof of ownership/lease agreements for equipment and insufficient evidence of specific experience required:

- * KL Construction = N\$19,882,510.43

- * Alugodhi Engineering / Shasa Engineering

- JV = N\$23,524,715.92

- * Quivertree Investment No. 13 = N\$24,551,156.80

- * Brandberg Construction = N\$25,947,948.54

- * Globex Investments = N\$26,856,547.02

- * Brumar Construction / Odjove Trading JV = N\$27,425,696.97

- * New Success Investments = N\$27,763,665.47

- * Zero Six Five Trading = N\$28,870,112.90.

The problems stated in the Award Notice for

the remaining three bidders were:

- * Palladium Civil Engineering = N\$23,470,644.61 (bid letter signed but validity period not stated - incomplete);
- * Pentau Trading / PMPH Constructions JV = N\$23,494,719.65 (bid letter signed but validity period not stated - incomplete);
- * Nexus Civil = N\$23,840,946.85 (no ID for surveyor and contracts manager is SA citizen).

TENDER AWARDS

that under-performs

school in Swakopmund on behalf of the MEAC;

* N\$952,912.46 to Radial Truss Industries for upgrading Tubussis PS and hostel in the Erongo Region on behalf of the MEAC.

N\$272-m tender extensions include fuel storage facility, PSEMAS and hospital catering

The CPB report lists extensions and price increases granted on existing contracts.

The Board said it had managed to reduce price variations from over N\$2.5-b in March 2019 to below N\$1-b in March 2021.

Price variations/extensions during the six-month period reviewed total N\$272-m, including:

- * possible additional costs of N\$87.5-m to Namcor's oil storage facility in the Port of Walvis Bay;
- * the Ministry of Finance's PSEMAS contract increased by N\$74.14-m and extended until 31-Mar-22;
- * Ministry of Finance's Integrated Financial Management System was increased by N\$11.34-m under tender F1/17-6/2008;

N\$450-m 'emergency' awards to the Ministry of Education, Arts & Culture for the Namibian School Feeding Programme

* an additional N\$81.67-m for hospital catering services from 01-Dec-21 to 31-Mar-22 to the Ministry of Health & Social Services under tender A13-/4/2013 (E13-3/2015).

N\$85.5-m contract extensions - Q1

During the first quarter of 2021, the CPB also extended the periods of four contracts amounting to N\$85.5-m, without disclosing by how long they were extended (except in one case). Three are for the Ministry of Finance:

- * contract EDE 11010/2015 - operation and maintenance of the Kupferberg general and hazardous waste disposal sites for the City of Windhoek = N\$7,588,705;
- * support and maintenance of the Integrated Financial Management System (IFMS) under tender F1/17-6/2008 for the MoF = N\$3.78-m;
- * Payroll Deduction Management System (PDMS) under tender 01/2202 also for the MoF, awarded in 2002 at no cost;
- * administration of the Public Service Medical Aid Scheme (PSEMAS), also for the MoF, under tender F1/17-6/2009, for the period 01 July this year until 31-Mar-22 = N\$74,138,780.

NamPower has obtained an exemption to conduct procurement above its threshold without involving the CPB for the next two years.

N\$186-m contract extensions - Q2

During the second quarter of 2021, the CPB extended the periods of five contracts amounting to N\$186-m:

- * extension of time and notification of possible additional costs for the National Oil Storage Facilities in Walvis Bay for the Ministry of Mines & Energy = N\$87.5-m;
- * extension by the Ministry of Health & Social Services of Bio Dynamics (Pty) Ltd's service level agreement for Roche instruments for twelve months from 01-Aug-21 to 31-Jul-22 = N\$5,624,164;
- * extension of support and maintenance of the Integrated Financial Management System (IFMS) under tender F1/17-6/2008 for twelve months from 01-Oct-21 to 31-Mar-22 for the MoF = N\$11.34-m;
- * extension of the Payroll Deduction Management System (PDMS) under tender 01/2202 for the MoF for six months from 01-Oct-21 to 31-Mar-22 at no cost;
- * extension of catering services to the Ministry of Health & Social Services for six months from 01-Oct-21 to 31-Mar-22 = N\$81.671-m.

M&E flags two NTA projects behind schedule

The CPB has meanwhile commenced monitoring and evaluating the contracts it facilitated on behalf of state entities - five years after the new procurement system was activated.

Of the 33 active projects (14 for works, 10 for services and 9 for goods) monitored between 01-Jul-21 and 30-Sep-21, five contracts (15%) exceeded expectations, eleven (34%) were on track, nine (27%) were behind schedule, seven (21%) were three months or less into implementation and one contract was "determined" by

N\$520-m awards under 'competitive bidding' on five projects.

The CPB's latest report does not disclose which SOEs, ministries, offices, agencies and councils submitted procurement plans - and which have not.

the Board.

This project is for the construction of the Nkurenkuru Vocational Training Centre, where in April, slow progress after six months was found and no visible progress up to August. The CPB is now exploring alternative legal options.

This is a reference to Tender W/ONB/CPBN-08/2019 for the construction of the Nkurenkuru VTC in Kavango West, Phase 1B, that had closed on 04-Mar-20 with 29 offers from N\$34-m to N\$46-m (*Bulletin 1342*).

After finding 28 bidders to be non-responsive, the CPB awarded the contract on 09-Jul-20 to Neu-Olulya Trading for N\$35,561,067.67 (*Bulletin 1362*).

Another project listed by the CPB with only 81% progress having been made after 104% of the time had lapsed, is for the upgrading of the Okakarara Vocational Training Centre in Otjozondjupa Region.

The *Tender Bulletin* is aware of two tenders issued directly by the Namibia Training Authority in this regard:

- * W/ONB/NTA-02/2019 for upgrading of Okakarara VTC, Phase 1 for electrical installation works closing 15-Jul-19;
- * W/ONB/NTA-01/2020 for upgrading of Okakarara VTC, Phase 1: Heating, ventilation, air-conditioning and refrigeration (HVAC-R) installation works closing 26-Oct-21.

Cancelled projects

The report lists five tenders that were cancelled (all of which have been reported previously by the *Tender Bulletin*):

Namcor's EOI for the construction, financing, commissioning, operation and maintenance of a 2.5km jetty LPG pipeline system on a Build, Own, Operate & Transfer (BOOT) model also does not involved the CPB.

* two tenders by the Road Fund Administration were cancelled - one for the automation of Mass Distance Charges and the other for the acquisition of land for the construction of offices;

* the tender for the construction of a firefighting system at Namcor's National Fuel Storage Facility in Walvis Bay;

* Telecom's tender for the compilation, sale of advertising space, printing and maintenance of an online telephone directory for five years;

* NamPower's prequalification tender for the engineering, procurement and construction of the Anixas II power station in Walvis Bay;

* the Ministry of Education, Arts & Culture's tender for the supply of food to school hostels.

Challenges

The report identifies four challenges, for which it has recommended mitigation measures.

Bidders awarded contracts find it difficult to obtain performance guarantees in time.

CHINA'S HIGHWAY TO N\$3-B IN NAMIBIA

26 NOVEMBER 2021

After a tender process behind closed doors – exclusively for Chinese contractors – the Roads Authority has awarded the final stretch of the Windhoek – Hosea Kutako International Airport highway to Zhong Mei Engineering Group for over N\$1.035-b.

The announcement was made by Roads Authority CEO Conrad Lutombi, who said the successful bidder – on the back of a grant from Beijing – would build the final 21.3km section of the highway from the Dordabis turnoff to HKIA, that includes three interchanges at Dordabis, Sonnleiten and the airport, plus two river bridges. This stretch, previously stated as 23.5km, has a contract period of 36 months.

During the site hand-over, Lutombi said this part of the project is financed through a Chinese grant of about N\$1-b and only Chinese companies registered in Namibia were short-listed for the award.

Zhong Mei was chosen after a 'successful procurement process' headed by the Chinese Embassy in Namibia under the auspices of the Chinese Project Management Enterprise, in consultation with the Roads Authority.

Lutombi said the Namibian government is responsible for costs relating to leasing and maintenance of the contractor's site camps.

N\$120-m will be spent on Namibian and SME sub-contractors, while approximately 270 jobs will be created during construction (*Die Republikein, The Namibian, New Era* 15-Nov-21).

Zhong Mei was already tipped as beneficiary of a contract to construct the second phase of the airport highway two years ago (*The Namibian* 15-Nov-21).

The latest award brings the total cost of the freeway to about N\$3-b – all sections of which will have been built by Chinese contractors.

One previous section was co-financed through an N\$350-m AfDB loan.

The consulting engineer for all phases of the project is VKE Namibia, while the Roads Authority oversees implementation.

And then there is still a new international airport in the pipeline, which will probably also be an all-Chinese project.

Zhong Mei's offer was the highest

Zhong Mei lands the final stretch of the Windhoek – Hosea Kutako highway for over N\$1-b – on the back of a grant from Beijing. This means the entire N\$3-b airport highway will have been built by Chinese contractors, while Zhong Mei's portfolio of known Namibian state contracts is also worth at least N\$3-b.

Zhong Mei's offer of ¥447,746,240.08 was the most expensive of the six offers received, when tender RA/DC-CR/06-2014/28 for the construction of Phase 2B of Trunk Road 9/1 from Windhoek to Hosea Kutako International Airport to dual carriage freeway standards (Dordabis to HKIA) closed at the Roads Authority on 21 May 2021 (*Bulletin* 1406).

At an exchange rate of approximately ¥1.00 to ZAR2.23 the other five bids ranged from N\$943,552,300 to N\$996,324,980. The prices were only stated in Chinese Yuan on the RA website.

The other offers were (in ascending order):

* China Civil Engineering Construction Cooperation [probably Corporation] = ¥423,117,625.66

* China Railway Seventh Group = ¥430,190,066.32 [built the 15km N\$922-m Phase 1A of the HKIA project in JV with Onamagongwa]

* China State Construction Engineering Corp = ¥432,506,618.80

* China Harbour Engineering = ¥442,003,298.10

* Qinghan Group Co Ltd = ¥446,782,502.77 [possibly Qingjian International Group].

Phase 2B 21.3km (previously 23.5km) funded by China without public tender

This tender was not advertised in the public domain and only Chinese contractors were allowed to tender.

The contract for Phase 2B of the airport highway covers the longest stretch from the Dordabis turn-off to the airport.

During a press briefing in March, Lutombi confirmed that this phase is financed through a grant from the Peoples Republic of China and anticipated having a contractor on site already by June or July this year.

19.5km Phase 2A with AVIC as main contractor

Section 2A under tender RA/DC-CR/06-2014/2A was awarded in Nov-19 to Chinese company AVIC and Namibian SMME sub-contractors for N\$950-m. AVIC's

offer was initially rejected as being too low.

This phase starts at Auasblick/Sam Nujoma interchange and ends at the Dordabis interchange. The 19.5km stretch of the freeway road includes three interchanges and two river bridges, with a contract period estimated at 42 months.

This phase is co-funded through a N\$350-m AfDB loan and is 44% complete, Lutombi said in November.

China Railway 7th Group & Onamagongwa build 10km Phase 1

Phase 1 of the construction of TR9/1 to Hosea Kutako International Airport to dual carriageway standards is an 8.4km stretch from Main Road 49/UNAM to the Sam Nujoma Drive Extension, awarded under tender RA/DC-CR/06-2014 to China Railway Seventh Group in joint venture with Onamagongwa Trading Enterprises for N\$799-m, after the tender closed on 07-Oct-15.

Phase 1 commenced in Jan-16 and includes 15km of ramp roads, four interchanges and 13 new bridges. It was supposed to be completed by Jan-18 but was then extended by 3km for N\$150-m in 2019.

The cost estimate of this section, fully funded by the Namibian government, was N\$922-m, according to Lutombi. This phase of about 10km is about 44% complete, Lutombi said in November (*Details were published in earlier Bulletins* 1415, 1392, 1129).

Henties - Uis road to Zhong Mei through the back door

Zhong Mei has been the beneficiary of several other Namibian state contracts in the past.

In 2017 it was awarded the Roads Authority contract for the construction of the Henties Bay - Swakopmund - Uis road for N\$755-m through the back door.

The contract for Section A of Phase 1 (90km from Swakopmund to Henties) of the Henties Bay to Kamanjab road upgrade

was actually awarded to the Road Contractor Company as part of the SOE's "financial turn-around strategy".

The RCC then sub-contracted 52% of its contract to Zhong Mei.

As usual, for tenders set aside for the RCC, this contract was not advertised in the public domain. The RCC has been technically bankrupt for years and relies on annual budget bailouts from the Treasury – despite multiple preferential contract awards for road projects.

The MR44 project consists of two phases: Phase 1 is the Henties – Swakopmund – Uis road of 186km, while Phase 2 is 216km from Uis – Khorixas – Kamanjab. This road is part of Namibia's ambitious programme to link the port of Walvis Bay via Kamanjab and Ruacana with Angola by road and rail, and relates to the envisaged new port at Cape Fria (*Bulletin* 1136, 1159, 1180, 1305).

N\$229-m contract for Ongenga - Oshakati road

In 2017, then Minister of Works & Transport, Alpheus !Naruseb, opened the 38km road between Oshakati and Ongenga that was upgraded from gravel to bitumen standards.

The road intersects with the Omafo-Outapi road at Omaboolota and links the Oshana, Omusati and Ohangwena Regions. The project was fully funded by the Namibian government.

The main contractor was Zhong Mei Engineering Group with several local sub-contractors. The N\$216-m project was scheduled to be completed within twelve months but took longer.

Tender RA/DC-CR/13-2013 for upgrading to bitumen standards of 39km of District Road 3609 from Oshakati to Ongenga in the Oshana, Omusati and Ohangwena regions closed on 12-Nov-14, when Zhong Mei's offer of N\$216,800,290 was the fifth-lowest out of eleven contractors (*Bulletin* 1080). In 2015 it was reported that the contract amount had escalated to N\$229-m (*Bulletin* 1159).

Section 2 of N\$1.1-b Namwater pipeline

Another Namibian state contract awarded to Zhong Mei involves the Omdel – Swakopmund water pipeline replacement.

In 2019 China State Construction Engineering Corp, in joint venture with Kata Investments, was awarded the NamWater contract for the construction of the first section of the Omdel – Swakopmund pipeline replacement project.

The second section of the N\$1.1-b pipeline was awarded to Zhong Mei Engineering Group in JV with Luka Properties (*Bulletin* 1083, 1304).

The Bank of Namibia, as agent for the Government for the issue and management of Government Securities announces the results of Inflation Linked bonds auction held today, 24 November 2021, for the GI27, GI29, GI33 and GI36 as follows (settlement date 25-Nov-21):

Proper planning would alleviate the need for 'emergency procurement'

FROM PAGE 5

The Procurement Policy Unit is looking into the "challenging" wording of the Procurement Act in this regard, while at the same time proposing that "more stringent financial requirements in bids" should be considered.

Another problem is compliance with legal timelines, within which health protocols, project complexity and size of bids affect evaluation time.

The CPB proposes that procedures be amended to accommodate health measures and that the number of days to deadlines be amended to working days.

The CPB says it lacks adequate capacity to handle complex projects and write specifications and evaluation criteria, for which formal, short-term and on-the-job training are required.

Contract management is a challenge involving the identification of compliance with regard to various laws, for which closer cooperation with public entities and project

managers are required to detect non-compliance at an early stage, in addition to run-of-the-mill issues such as scrutinizing progress reports and conducting regular site visits.

Procurement Tracker on annual plans

In its latest report released in October, the Institute of Public Policy Research's Procurement Tracker lists only 26 central government votes out of 33 that submitted annual procurement plans for the financial 2021/22.

Four votes did not submit annual procurement plans:

- * Agriculture, Water & Land Reform;
- * International Relations & Cooperation;
- * Works
- * Transport.

The report, which does a better job at interpreting state procurement data than the CPB does, lists only 46 out of some 200 SOEs and government institutions

N\$272-m tender extensions include fuel storage facility, PSEMAS and hospital catering.

that submitted annual procurement reports. "While compliance with the Public Procurement Act of 2015 has certainly increased since 2017, there's still too much non-compliance in terms of transparency across the public procurement sector", the report states (Procurement Tracker, Issue 14, October 2021).

The procurement of obscurity

As recently as September this year, *Tender Bulletin 1412* ('The procurement of obscurity'), noted that the Central Procurement Board had awarded tenders worth less in the four years to 2020 than its predecessor, the Tender Board, did five years ago in only two years – such is the degree of obscurity into which public procurement descended under Namibia's new procurement regime.

The CPB awarded contracts worth N\$1.6-b to Namibians, N\$752.1-m to foreigners and N\$65.5-m to joint ventures from 2017 to 2020 – 36% of what the former Tender Board in two years. The former Tender Board awarded contracts worth N\$3.75-b over two years during 2013 and 2014 – 55% more than the CPB over the four years just reviewed.

The CPB issued a total of 71 public tenders in four years from 2017 to 2020 – one tenth of the 783 issued by the former Tender Board in only two years from 2013 to 2014.

The 2018/19 financial year was one of the best in terms of public entities submitting procurement plans worth N\$8-billion for approval to the CPB.

But in 2019/20 the value of procurement plans submitted fell to below N\$6-billion.

By March 2021 the CPB had only received individual procurement plans from public entities for 2020/21 worth about N\$2-billion.

This decline in the submission of procurement plans over the past three years is another indicator of how more procurement is being conducted below the radar independently of the Central Procurement Board.

See accompanying tables.

The Public Procurement Amendment Bill will probably retrofit the Procurement Act with exceptions that would legalise further exemptions from involving the Central Procurement Board.

AGRICULTURE - LIVESTOCK

REFERENCE: EIF 1426 - IREMA goats; **CLOSING:** 06-Dec-21 15:00
DESCRIPTION: Request for Quotations: Supply and delivery of Boer Goats - 600 does/ewes and 30 bucks/rams. IREMA Kunene Project. **DESCRIPTION:** Kunene North of Red Line = 300 does and 14 bucks; Kunene South (free zone) = 300 does and 16 bucks (total 630). The Environmental Investment Fund of Namibia (EIF) in conjunction with the Ministry of Agriculture, Water & Land Reform (MAWLR) is implementing a climate change adaptation project titled 'Improving Rangeland and Ecosystem Management Practices of Smallholder Farmers Under Conditions of Climate Change in Sesfontein, Fransfontein, and Warmquell Areas' - IREMA Kunene Project, which aims to reduce the vulnerability of smallholder farmers under climate change conditions by safeguarding natural capital that generate ecosystem services to sustain agricultural production systems. IREMA Project, under the supervision of MAWLR, intends to implement a small stock revolving programme in the project target areas (Sesfontein constituency and Khorixas district) in the Kunene Region. The objective of the revolving programme is to provide quality core breeding flock of goats (suitable for the arid conditions in the project target areas to selected vulnerable households to gain a sustainable means of income generation and enhanced food security. The EIF IREMA Kunene Project invites interested individual farmers/producers to submit quotations. **PROJECT REQUIREMENTS AND CONDITIONS:** (1) The age of the goats should be between two teeth (12 months) and four teeth (24 months); (2) preference will be given to farmers/producers in the Kunene Region; (3) for Kunene North of Red Line, two successful bidders each are expected to supply 150 does/ewes including seven Boer bucks/rams; (4) for Kunene South (free zone), two successful bidders each are expected to supply 150 does/ewes including eight Boer bucks/rams; (6) bidders must include transport cost separately (successful bidders will be expected to deliver the goats at Khorixas and Sesfontein); (7) prospective bidders must indicate the area where the goats will be sourced and indicate in the quotations whether they will be supplying the goats either in Kunene North of Red Line or Kunene South; (8) all goats offered by short-listed bidders will be inspected and evaluated by the Directorate of Agricultural Production, Engineering & Extension Services (DAPEES) and IREMA Project staff members; (9) price will be based on the local and national goats' market price; (10) the goats will only become the property of IREMA Project once they are delivered by supplier; (11) the supplier must have a police declaration testifying the ownership of the goats; (12) EIF has the right to accept or reject any offer. **SUBMIT:** Quotations in sealed envelopes must be submitted by hand to various ADC offices in Kunene Region or to EIF in Windhoek. All submitted quotations must be registered in a Register Sheet provided.

ICT AT THE SSC IS ANYONE'S GUESS

26 NOVEMBER 2021

The Social Security Commission has awarded an ICT tender four months after it had closed in May. This is the only item under 'tenders' on the SSC's website, listing recommended bidders for tender G/ONB/SSC-01/2021 for the supply and delivery of computer equipment and related services for a period of three years.

This Open National Bidding invitation for bids was advertised in the local media and closed on 24-May-2021, when 26 offers were received.

Only three offers were found to be responsive, according to the Executive Summary of the Bid Evaluation Report signed by SSC Executive Officer Milka Mungunda on 08-Sep-21.

The three recommended bidders were among the six lowest offers. It is not clear if all three companies were recommended for the award or whether only the lowest bidder was successful.

The three responsive bids were ranked from 1 to 3:

- * Shine Technologies = N\$3,665,837.98
- * Prime Innovative Technologies = N\$3,830,450.19

* **SSC's only item under 'tenders' on its website is the executive summary of a three-year ICT tender**

* **Total prices from N\$3.4-m from established IT vendors and up to N\$6.9-m from newcomers**

* **23 of 26 bidders are found non-responsive on technical issues**

* Virtua Technologies = N\$3,794,816.65.

The most common reasons for rejecting the other companies were missing signatures - even on attachments - and incomplete documents.

The 23 unsuccessful bidders and the reasons for their non-compliance were in ascending order:

- * Bidvest Namibia Information Technology = N\$3,364,085.80 - not all attachments initiated
- * Independent Business Systems = N\$3,559,956 - missing copies; power of attorney not signed
- * Bluesky Technologies = N\$3,789,244.03 - total bid price not included in bidding document
- * Brand Excellence = N\$3,870,595.04 - missing copies; power of attorney signed by 50% shareholders "for which no evidence is attached"
- * Business Connexion = N\$3,914,849.55 - not

- all attachments initiated
- * G-Tech Office Equipment = N\$3,923,850 - AA copy not certified
- * Globemaster Trading = N\$3,930,037.60 - submitted a copy of the certified copy of the AA compliance certificate
- * Schoemans Technologies = N\$4,016,613.05 - "submitted Bidvest Good Standing tax certificate instead of Schoemans Technologies"; [this sounds like a possible mix-up of documents since Bidvest also submitted a tender]
- * Rendezvous Investment = N\$4,121,758.16 - no power of attorney
- * Green Enterprise Solutions = N\$4,155,846.11 - quoted for carry bag instead of backpack for laptops
- * Dimension Data Namibia = N\$4,184,643.70 - attachments not initiated
- * Onix Business Solutions = N\$4,268,242.10 - information to establish ownership insufficient
- * Gadgets Namibia Solutions = N\$4,293,363.69 - not all attachments initiated; no total bid price in activity schedule

- * Gwamumbula Investments = N\$4,510,747.60 - AA certificate not certified
- * Kinetic Ovations = N\$4,654,728.33 - "did not comply with the fields for mandatory criteria"
- * Tekmak Investment = N\$5,090,056 - missing copies; document not fully initiated; price schedule not completed
- * Optagon Investment = N\$5,122,330.52 - missing copies
- * Ema Marquez Technology & Services = N\$6,120,174.70 - missing copies; document not fully initiated
- * Action Information Technology = N\$6,584,395.50 - no specifications/data sheet for laptops; "did not quote for mandatory fields as product data was not provided"
- * March Nine Investment = N\$6,747,900 - no specifications/data sheet; "did not quote for the fields for mandatory criteria"
- * Lanzelot & Bukky Supplies & Investment = N\$6,944,679.39 - missing copies; document not fully initiated; bid form not completed
- * Riqueza Digital Era Consultants = N\$6,958,166.50 - missing copies; bid form not completed
- * G-Mobility Investments Technology = no total price - bid submission form not completed; statement confirming compliance with eligibility requirements not signed.
