MESSAGE

I am happy to know that PHD Chamber of Commerce and Industry is celebrating 116 years of its efficacious existence by having its Annual Session on the theme of 'Resilient India' on September 30, 2021.

The year that has gone by has been a difficult one with the COVID-19 pandemic disrupting lives and livelihoods across the world. Sectors such as aviation, tourism, automobile and real estate are among the most affected. However, the worst seems to be over and today we are optimistically looking at the post-COVID economic recovery.

On August 15th, India entered its 75th year of independence and we have set ourselves an ambitious goal of creating an Atmanirbhar Bharat. The role of corporate sector and industry bodies like PHDCCI is extremely important in realizing this dream of self reliant India.

By promoting ethical corporate governance, focusing on job creation and incentivizing research and innovation, you should lead India on the path towards prosperity and happiness. I would also urge our corporate world to come forward to supplement the government's efforts in creating an all-encompassing support system for our young and aspiring sportspersons who made the nation proud through their exemplary performance at Tokyo Olympics and Paralympics.

I congratulate PHDCCI for all the good work it has done over the decades. My best wishes to all those associated with the PHD Chamber for success in all their endeavours.

Message

I am happy that the PHD Chamber of Commerce and Industry (PHDCCI) is bringing out its **116th Year Book on the theme 'Resilient India'** on the occasion of its **Annual Session being held on September 30, 2021.**

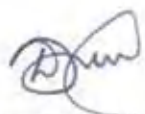

PHDCCI in its 116 years journey has played an important role in promoting industry, trade and entrepreneurship. It has provided a constructive platform to Indian and foreign investors and also helped the Government in developing as well as implementing various programs and policies to further enhance India's industrial sector.

In the current scenario where industries, particularly MSMEs and start-ups have been adversely affected by COVID, the role of industry chambers like PHDCCI assumes critical importance. The relentless efforts of the Chamber to serve its industry members and at the same time help the government restore the supply chains impacted by COVID-19 during the phases of lockdown are laudable.

I am happy to note that PHDCCI has a special focus on Renewable and Alternate energy and has held deliberations on Innovations in RE, Promotion of Electric Vehicles and Solar Power, not only in Delhi, but also in various States.

The Chamber is also encouraging and motivating its members to install solar power, which is the need of the hour. It is heartening to note that PHDCCI has been advocating use of Green Hydrogen in industry, especially Steel industry. We require more such efforts by the industry. India is well on its way to not only achieving but surpassing her international commitments regarding controlling emissions and generating RE.

I wish the 116th Annual Session success.

PHDCCI has a special focus on NCT of Delhi and has been working with towards improving the Ease of Doing Business in Delhi. I have also met a delegation from the Chamber and we had fruitful discussions about requirements of entrepreneurs in Delhi post COVID. The Chamber has been submitting various suggestions to agencies like NDMC and have been taking up various issues impacting industry & trade in Delhi with relevant authorities.

The noble gesture of the Chamber's members of donating money to install Oxygen Plants in a few hospitals of Delhi is commendable. We are sure that through collaboration with agencies like PHDCCI, Government of NCT of Delhi will soon be able to make Delhi a world class business, tourist & retail destination.

I urge the industry to support the state government's efforts in the fight against the pandemic and donate to CM Relief Fund to help mitigate the impact of the Coronavirus crisis on the common man.

Best wishes for the success of the 116th Annual Session.

मुझे यह जानकर अत्यन्त प्रसन्नता की अनुभूति हो रही है कि पी0एच0डी0 चैम्बर ऑफ कॉमर्स एण्ड इण्डस्ट्री द्वारा दिनांक 30 सितम्बर, 2021 को अपने 116वें वार्षिक सत्र के अवसर पर 'रेसिलिएंट इंडिया' विषयक अपनी 116वीं ईयर बुक का प्रकाशन किया जा रहा है।

राज्य सरकार ने पिछले 04 वर्षों में उत्तर प्रदेश के सम्बन्ध में देश व दुनिया की धारणा को बदला है। प्रदेश सरकार ने पूर्ववर्ती व्यवस्था में रिफॉर्म करके, परफॉर्म करते हुए ट्रांसफॉर्म किया है। मा0 प्रधानमंत्री जी के देश की अर्थव्यवस्था को 05 ट्रिलियन डॉलर इकोनॉमी बनाने के लक्ष्य के क्रम में हमारा संकल्प प्रदेश को 01 ट्रिलियन डॉलर अर्थव्यवस्था के राज्य के रूप में विकसित करना है। इसके लिए सभी आवश्यक कदम उठाये गये हैं। राज्य सरकार के प्रयासों के परिणामस्वरूप अब उत्तर प्रदेश देश की दूसरी सबसे बड़ी अर्थव्यवस्था बन गया है।

प्रदेश में निवेश का उत्तम वातावरण सृजित करने के लिए योजनाबद्ध ढंग से कार्य किया गया। नई औद्योगिक निवेश एवं रोजगार प्रोत्साहन नीति के साथ 20 से अधिक क्षेत्र-विशिष्ट निवेशोन्मुखी नीतियों के पारदर्शी कार्यान्वयन से, राज्य सरकार रोजगार सृजन के लिए निवेश और 'मेक इन यूपी' को बढ़ावा दे रही है। राज्य सरकार द्वारा उठाये गये कदमों के फलस्वरूप 'ईज ऑफ डूइंग बिजनेस' में प्रदेश को देश में दूसरा स्थान प्राप्त हुआ है।

पी0एच0डी0 चैम्बर ऑफ कॉमर्स एण्ड इण्डस्ट्री ने अपनी 116 वर्षों की यात्रा में उद्योग, व्यापार और उद्यमिता को बढ़ावा देने में महत्वपूर्ण भूमिका निभायी है। चैम्बर ने भारतीय और विदेशी निवेशकों को एक रचनात्मक मंच प्रदान किया है। देश में औद्योगिक गतिविधियों के विस्तार और विकास के लिए भी सरकार का सहयोग किया है। मुझे पूर्ण विश्वास है कि यह संस्था भविष्य में भी इसी प्रकार सक्रिय रहेगी।

वार्षिक सत्र के सफल आयोजन के लिए मेरी हार्दिक शुभकामनाएं।

The Government of Kerala has been pro-active in taking up many initiatives to energize and stimulate the business environment in the State. It has rolled out many policy reforms to clear hurdles for investment and has accelerated industrial growth. We have also nurtured an investment climate which fosters sustainable and ecofriendly development. Through innovative interventions such as K-SWIFT, K-CIS etc. we have charted out a path for industrial development heralded by reforms that are in tune with the changing times.

The holistic approach adopted by the Government of Kerala, dovetailing industrial development with sustainable development practices is facilitating the transformation of our State as a preferred investment destination. PHDCCI has been extending full support in our efforts to facilitate resilient and adaptable recovery of businesses in Kerala. I am confident that the Chamber would continue its contribution in our nation's economic growth.

I wish all success to the PHD Chamber of Commerce and Industry on their 116th AGM.

PHD CHAMBER OF COMMERCE AND INDUSTRY

Profile

PHD Chamber of Commerce and Industry of India (PHDCCI), founded in 1905, is completing its 116 glorious years. PHDCCI has evolved as an Institution of National Importance. With a rich heritage of pre and post Independent India, PHDCCI has followed a path of nation building with a foundation of sound and inclusive economic policies.

PHDCCI is an Apex National Chamber with the unique distinction of representing more than 200 regional chambers of commerce and trade associations and over 1.5 lakhs large, medium & small scale cross-sectoral companies serving the nation and will be celebrating its 116th year of existence this year in September 2021.

PHDCCI through its two Foundations viz. PHD Family Welfare Foundation (PHDFWF) and PHD Rural Development Foundation (PHDRDF) is serving the under-privileged sections of the Indian society since 1980s.

Presence

PHDCCI's presence is spread in almost all parts of the country. Headquartered in Delhi, PHDCCI has its regional offices in Patna, Bhopal, Chandigarh, Dehradun (Garhwal), Kashipur (Kumaon), Jaipur, Jammu, Srinagar, Lucknow, Raipur, Shimla, Ranchi, Guwahati, Ahmedabad and Cochin. PHD Chamber is globally connected through institutional linkages with over 100 important foreign Chambers of Commerce.

Membership Development

The Membership Development Committee was reconstituted with Mr. Saket Dalmia as Chair and Mr. B K Sabharwal as Co-chair.

The Committee discussed the measures needed to strengthen the membership base as also to keep up the interests of members in the activities of PHD Chamber.

The total number of members of PHD Chamber as of mid September, 2021 is 2524 including Rajasthan, Bihar, Jharkhand, Chhattisgarh, Uttarakhand, Jammu & Kashmir, Punjab and Madhya Pradesh Chapter, North-East, Himachal Pradesh, Haryana, Uttar Pradesh State Chapter (Lucknow), Chandigarh, Kerala and Gujarat. During the year under review, 145 new members joined PHD Chamber, including 45 new patron, 9 star and 23 new association members while 249 members resigned or were removed from the membership of PHD Chamber.

PHD Chamber members and our 226 association members represent around 1,50,000 industrial, service and trade enterprises. A list of association members is given in Annexure 'C'.

Functions

PHDCCI is engaged in organizing seminars and webinars annually including workshops and social networking events in almost all parts of the country. Besides, PHDCCI is represented on Central and State Advisory Committees / Consultative Boards. Both Central and State Governments consult PHD Chamber before announcing or formulating any major economic / industrial policy. With the in-house expertise, PHDCCI gives business advice to Indian companies on various aspects of business including national and regional economic and industry related issues, corporate affairs, taxation, finance and banking, capital markets, MSMEs, infrastructure and energy, hydrocarbon, labour and industrial relations, health, human

resources and skill development, tourism, agri-business and environment among others.

Services

Certification and Attestation Services: PHDCCI is authorized by the Government of India to issue certificates of origin (non-preferential) to Indian exporters. PHD Chamber also attests commercial documents of various types. Recommendation letters for visas for business promotion to foreign diplomatic missions in India are also issued for representatives of member companies.

PHD Research Bureau, the research arm of PHD Chamber of Commerce and Industry was established in 2010. Its objective encompasses review of the economic situation and policy developments at sub-national, national and international levels and analysis in order to update the members from time to time, to present suitable memoranda to the Government as and when required. The Research Bureau prepares State Profiles and conducts thematic research studies on various socio-economic and business developments and makes recommendations to the Government. The Research Bureau has been instrumental in forecasting various lead economic indicators, national and sub-national. It has undertaken various policy studies for the Government of India and State Governments. Many of its research reports are widely covered by media and leading business newspapers.

The Research Bureau published 20 reports/papers during 2020-21, including PHD Chamber Analysis on the Union Budget 2021-22, Analysis of State Budgets FY2021-2022, The Future of Expanding India-USA Bilateral Relations: Strengthening Bilateral ties through FTAs, Ease

of Doing Business of MSMEs Index, Growth in Industrial Infrastructure, PHDCCI Economic and Business Momentum (EBM) Index, PHDCCI Economy GPS Index, PHDCCI Quick Economic Trends, Impact of Coronavirus 2.0 on Economy and Businesses, PHDCCI Quick Survey on Impact of Coronavirus 2.0 on Consumption and Investments, Impact of Coronavirus 2.0 on Media Industry, PHDCCI Quick Survey on Impact of Halt of Oxygen Usage for Industrial Purposes on Industrial Production, PHDCCI's Suggested 30 Reforms for the Next 30 years, PHDCCI WPI Inflation Trends, Debt to GDP Ratio and Fiscal Scenario of Select Economies, Analysis on Sources of Deficit Financing, Analysis of top 50 Products of India to world based on HS digit classification, State-wise Mapping of Guidelines for COVID Containment, Ease of Doing Business in Uttarakhand and Clubbed Report of Representations by PHD Chamber to Government of India and State Governments.

Further, the Research Bureau disseminated more than 500 analytical notes on various socio-economic and business developments, provided updations on Central and State Governments'

policy announcements and prepared around 50 newsletters during the year.

PHD Research Bureau has Trade and Investment Facilitation Services (TIFS), which is a vital component for international trade and investment community. It is envisioned to facilitate firms across the globe for trade and investments in India while simultaneously meeting India's rapidly growing appetite for new markets to enhance trade and investments. TIFS is an information and advisory hub to provide requisite and detailed information to facilitate national and international business firms to invest in India; advising them on prospective business opportunities in India in general and in states and promising sectors in particular. The aim of TIFS is to make India a US\$ 100 billion (per annum) investment destination and US\$ 400 billion merchandise exports by 2022.

Capacity Building: PHDCCI organizes focused entrepreneurial development training programmes in co-operation with the Konrad Adenauer Foundation of Germany in various states.

The total number of members of PHD Chamber as on September, 2021 is 2524 including Rajasthan, Bihar, Jharkhand, Chhattisgarh, Uttarakhand, Jammu & Kashmir, Punjab and Madhya Pradesh Chapter, North-East, Himachal Pradesh, Haryana, Uttar Pradesh State Chapter (Lucknow), Chandigarh, Kerala and Gujarat. During the year under review, 145 new members joined PHD Chamber, including 5 new patron, 9 star and 23 new association members while 249 members resigned or were removed from the membership of PHD Chamber.

PHD Chamber members and our 225 association members represent around 1,50,000 industrial, service and trade enterprises. A list of association members is given in Annexure 'C'.

PRESIDENT WRITES

"The need of the nation is to unite and work towards national progress."

Prime Minister, Mr. Narendra Modi's recent quote reverberates with India entering into its 75th year of its Independence and 'Azadi Ka Amrit Mahotsav' being celebrated throughout the country to commemorate the glorious history of our people, culture and achievements. We at the Chamber are honored to contribute to this grand event through the ongoing efforts by our State Chapters. The Chamber has been at the forefront of promoting economic development of the country for the past 116 years and working with great enthusiasm along with all its stakeholders for leading the 'Bharat Jodo Andolan' (Unite India Movement), taking major strides for building a more inclusive and confident Aatmanirbhar Bharat. Vey aptly put in by Mr. Piyush Goyal, Minister of Commerce & Industry, Consumer Affairs & Food & Public Distribution and Textiles, "Under the decisive leadership of Prime Minister Shri Narendra Modi, we have aimed to transform India in every field. Be it Ease of Doing Business or Ease of Living, Be it Transparency or Transfer of Benefits."

The past month has been one of great accolades and celebration. It gives me great pride to congratulate our athletes who gave us a stellar performance at the Tokyo Olympic 2021 games. In bleak times of the pandemic, the medals won add to our glory and joy. This is the much needed encouragement to promote sports at grassroots and national level so that our talented youth get opportunities to represent India on international platforms in times to come.

Reminiscing the last year and a half that has gone by, I feel

deep gratitude at the fact that India handled the Coronavirus pandemic fairly well. The overall COVID-19 scenario in India is now under control, with coronavirus infections slowly but steadily abating. No doubt the second wave of coronavirus during April and May 2021 was a real blow but the speed of recovery was fast. India's economy rebounded at a record rate in the first quarter of the current fiscal year with GDP growing by 20.1% versus the same period of last year, when the economy declined by 24.4 %.

The Reserve Bank of India's (RBI) initiatives and the government's structural reforms have proven to be very effective in containing the economic disruptions. The Indian economy is rapidly normalizing and now moving towards pre-COVID levels with several states/UTs relaxing the COVID-19 restrictions, including reopening of schools and colleges. Consumption, investment and external demand are also regaining gradual momentum and helping to boost the so-called 'V-shaped' recovery.

The PHDCCI Economy GPS Index during April-July of FY 2021-22 was estimated at 110.8 versus 62.6 for the corresponding period of previous year. Lead economic and business indicators, GST collections, e-way bills, railway freight, exports, power, passenger vehicles sales, passenger traffic, unemployment rate, forex reserves and manufacturing PMI registered positive sequential growth in July 2021 versus June 2021, though majorly because of low base effect. Indian stock markets outperformed their emerging market peers on a year-to-date basis, supported by a combination of short-term and medium term factors. India attracted the highest ever FDI inflow of USD 81.72 billion in FY 2020-21 despite disruption caused by the outbreak of the pandemic due to measures taken by the government on the fronts

of FDI policy reforms, investment facilitation and ease of doing business. Further, India is fast progressing in discussions on FTAs with several countries like UK, UAE and GCC countries, Australia and the European Union.

I am glad to say that the second COVID-19 wave did not impact Indian agriculture production in any significant way. Food grains output is estimated at over 305 million tons this year. Monsoon has been bountiful after a brief lull and kharif sowing is slowly gaining pace. Industry welcomes the RBI's recent decision to keep key interest rates unchanged at a record low at 4 percent and maintain an accommodative monetary policy stance is sure to boost the confidence of businesses and consumers. Experts are forecasting GDP growth in the range of 8.3-10.5 percent for FY 2021-22. CRISIL Credit Rating Agency has upgraded the credit quality outlook for India for FY 2021-22 from 'cautiously optimistic' to 'positive' predicated on a sustained recovery in demand.

I, along with Vice President, Mr. Saket Dalmia and other PHDCCI members along with other Industry Chambers participated in a virtual meeting with Hon'ble Prime Minister, Mr. Narendra Modi, wherein the PM urged exporters to take advantage of the opportunities created in the post-COVID scenario. Mr. Modi explained how multifold increase in manufacturing, reduction in logistics cost, developing partnerships and creating international markets for domestic goods can help boost the country's outbound shipments and expand the export basket. As a follow-up, Industry Minister, Mr. Piyush Goyal indicated that a target of US\$ 400 billion has been set for merchandise goods for FY 2021-22, in line with the PM's clarion call, "Local Goes Global: Make in India for the World." Exports

from India during April-August 2021 grew by 66.92 percent to US\$ 163.67 billion, amid rise in external demand due to recovery in key global markets. The growth was led by higher demand for engineering goods, gems, jewellery, textiles, chemicals and petroleum products. Exporters benefited from the rupee's recent fall and the various cost-cutting initiatives.

PHDCCI's majority members are MSMEs, some who suffered immensely during the pandemic period, with a total decline in their earnings. To alleviate their stress, we are pleased at the recent passing of the Factoring Regulation (Amendment) Bill, 2020 in the Upper House of Parliament, as this will expand the avenues of working capital credit to MSMEs. Industry is also relieved that the government has put an end to the contentious retrospective tax law, indicating a move to attract foreign investments and also refund the amount paid in litigation by companies without any interest thereon.

I must point out that high commodity prices are posing a serious challenge to small businesses to operate in pandemic times. It would help if the government did away with custom duties on imports of primary raw materials for industrial use for the current FY 2021-2022 and impose export duties on various primary commodities showing huge price increases. PHDCCI urges the Government to bring petroleum products under the ambit of GST. As obvious, high inflation of fuel products is not only stoking inflation but also increasing the cost of raw materials for manufactured products.

A note-worthy initiative announced by the PM in his Independence Day speech was allocation of Rs 100 trillion for 'Gati Shakti' for building a foundation for integrated infrastructure

growth, to speed up economic recovery. This increased spending on infrastructure will have a multiplier effect to rejuvenate the aggregate demand in the economy, particularly for sectors such as cement, metal, power and more importantly also generate jobs. Robust growth of infrastructure is the key ingredient to realize the vision of Aatmanirbhar Bharat. I am glad to indicate that India has been working for a reset of its logistics sector including railways, highways, inland, waterways and airports to put in place an effective transportation grid. I opine that a robust & automated logistics sector is very necessary for 'Make in India', 'Aatmanirbhar Bharat Abhiyan', 'Vocal for Local', and 'Digital India' initiatives.

I also compliment the government's announcement of the assets monetization scheme, worth Rs 6 crores, whereby the proceeds will be used for new infrastructure creation, recycling the future assets and build multiplier effect on growth and revive credit flow.

The government also announced a National Hydrogen Mission, considering India spends Rs. 12 trillion on energy imports every year. In this context, PHDCCI organized an international summit on "Powering India's Hydrogen System." The summit was a great success as it was addressed by Dr Jatinder Singh, Minister of State for the Ministries of Science and Technology, Earth Sciences, Prime Minister's Office; Personnel, Public Grievances and Pensions; Department of Atomic Energy and Department of Space, Mr. Mukesh Ambani, Chairman and CMD of Reliance, Ms. Tina Bru, Minister of Petroleum and Energy, Govt. of Norway, Mr. Ashwani Kumar Choubey, Minister of Union Minister of State for Environment, Forest and Climate Change and many internationally renowned experts including many Nobel Laureates.

The COVID-19 pandemic has prompted us to use every tool at our disposal to address the challenges and opportunities before us. The government has simultaneously increased spending to boost aggregate demand. Incentives to corporates through the expansion of production linked incentive (PLI) schemes worth for many new sectors will boost the manufacturing sector and result in long-term benefits for the economy. The liberalisation of the formal labour market would expedite India's upward movement in the ease of doing business rankings and attract further investments.

As we come out of the pandemic, there will be significant need for businesses to transform the corporate landscape to relearn, rethink, re-innovate and re-invent in almost every field. The aim is to create a New India i.e. an Aatmanirbhar Bharat and Startups are the key to building this new age India. Besides, the Government has also come up with Digital India initiative, which focuses on three core components: creation of digital infrastructure, delivering services digitally and increase the digital literacy. We are poised to become the Innovation & Invention hub of the world. '21st century is the 'Century of Startups' & with Indian Startups going places, it is the 'Century of India'. Today, Indian unicorns are gaining international acclaim. There are about 60 unicorns in India today, mostly in the areas of health, technology and e-commerce. It is expected that in 75 weeks of "Azadi ka Amrit Mahotsav, 75 startups would become unicorns. Going further, we appreciate the launch of e-RUPI, which will enhance the digitization process of the country and the percolation of various welfare schemes of the government at the ground level. It will negate pilferages and will ensure full benefit to

intended beneficiaries and also help increase the private sector's efficiency in CSR activities.

I also opine that to build a high growth trajectory, the government needs to frontload the National Infra Pipeline expenditure, which will offer a multiplier effect to rejuvenate the aggregate demand in the economy. Sustained momentum in capital expenditure, particularly in the road and rail sector augurs well for continued economic recovery. Undoubtedly, robust growth of infrastructure is the key ingredient to realize the vision of Aatmanirbhar Bharat. Given that the global economy is opening, and people are looking for international travel, the tourism and hospitality sectors would help increase its contribution to economic growth.

Post-COVID response of our Government needs to be appreciated and further propelled. The Indian government is taking all necessary steps to ensure that we are well prepared to face the challenges posed by the aftermath of the COVID-19 pandemic. Several states are building facilities with more pediatric beds, oxygen supplies, ventilators, etc. due to concern that children returning to school without being vaccinated will be among the most vulnerable in case the third wave of coronavirus infection occurs.

India adopted a completely digital approach while planning its vaccination strategy and has offered the CoWIN platform as a digital public health good to the world to combat COVID-19. This has been helping people with receiving timely vaccination, expediting normalcy in the post pandemic globalized world. The vaccination drive crossed the landmark figure of 85 crores inoculated citizens, recently, one of the largest feats across the globe.

It is with pride that I commemorate the Industry members who have taken a leading role in the vaccination drive. It is heartening to know that in the new phase of universalization of COVID-19, the government will supply (free of cost) 75% of the vaccines being produced by the vaccine manufacturers in the country, to States and UTs. Research and Development of new vaccines, drugs and medical devices related to COVID-19 by companies in the normal course of business will be regarded as CSR for three financial years till FY 22-23.

I request all citizens to be careful and follow appropriate behavior of social distancing norms as per the advisories issued by the Ministry of Health & Family Welfare against the emergence of a possible third wave.

On our initiatives front, the Chamber continues to work relentlessly to support the nation in its recovery efforts. In addition to donating Rs. 528 crores to the PM Cares Fund, industry members have also been in the forefront in providing relief materials to the frontline workers. PHDCCI through its Family Welfare Foundation have set up a 250 bedded COVID care center at Dwarka, New Delhi, installed oxygen generation plants at various hospitals including Medichack Hospital at Faridabad, Haryana and Tirath Ram Shah Charitable Hospital, New Delhi and has been instrumental in distributing 200 oxygen concentrators to COVID care centers for the needy families. PHDCCI along with associate partners has signed MoUs and set up ICU Tele Medicine Centres at Burari and also at Indira Gandhi Hospital. I must express my

gratitude to all the doctors and healthcare professionals for the strength displayed in serving humanity during the COVID times.

While we at the PHDCCI continue our efforts to solve problems of our nation including our industry members and people in general, I conclude in the words of Chandrasekhar Azad, "A plane is always safe on the ground, but it is not made for that. Always take some meaningful risks in life to achieve great heights". We too at the Chamber are set to undertake transformational initiatives and look forward to your support and guidance so that we can together achieve greater heights and make the Prime Minister's vision of "Sabka Prayas" along with "Sabka Saath, Sabka Vikas, Sabka Vishwas" a reality as New India propels forward as the global engine of economic growth in the years to come.

"Take up one idea. Make that one idea your life; dream of it; think of it; live on that idea. Let the brain, the body, muscles, nerves, every part of your body be full of that idea, and just leave every other idea alone. This is the way to success, and this is the way great spiritual giants are produced."

Mr. Dharmendra Pradhan, Hon'ble Union Minister of Petroleum & Natural Gas and Steel said that Aatmanirbhar Bharat is a historical step undertaken by

the Government of India and is a continuous evolving process. He urged trade and industry stakeholders to support the Government in strengthening the

five pillars of Self-Reliant India viz., Economy, Infrastructure, Technology driven System, Demography and Demand. He emphasized that we all have to come together to ensure wealth creation and significantly raise the standards of living of all sections of the society to achieve all inclusive socio-economic development. The Minister informed that his Ministry is

making all efforts to increase the production of Natural Gas indigenously and more than 400 districts of India have already been connected through natural gas.

In the welcome address, Mr. Sanjay Aggarwal, Senior Vice President, PHD Chamber, emphasized that a multi-pronged strategy should be adopted to reduce India's

oil import dependency that includes increasing domestic oil and gas production, promoting bio fuels and renewables, energy conservation and energy efficiency and improvement in refinery processes.

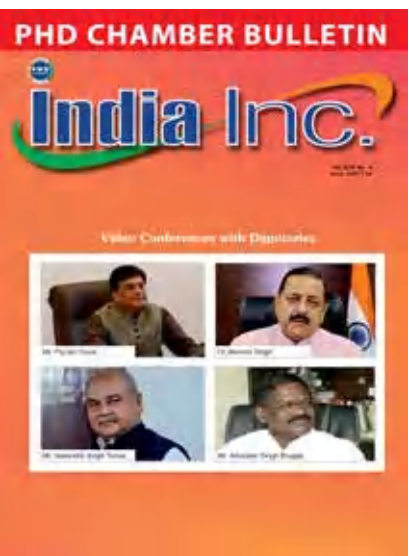

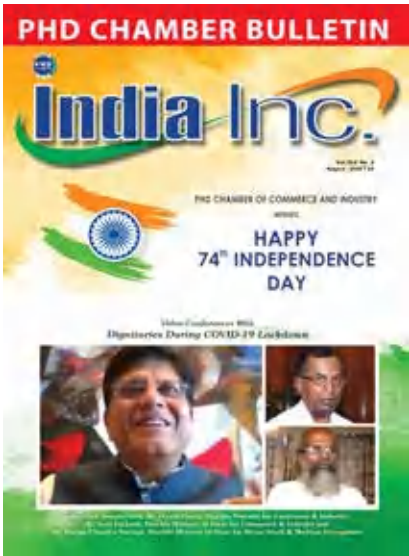

The Minister also released the PHD Annual Report detailing all the activities of the Chamber since October 2019.

VALEDICTORY SESSION

MINISTERIAL MEETINGS

INTERACTIVE SESSION WITH HON'BLE FINANCE MINISTER, MS. NIRMALA SITHARAMAN

PHD Chamber organized an interactive session with Hon'ble Finance Minister, Ms. Nirmala Sitharaman on "Demystifying Union Budget 2021-22" on February 8, 2021. The Finance Minister indicated that the Indian government follows the "Minimum Government – Maximum Governance" principle and this was presented in the Union Budget 2021- 22. She said that the Government is also taking steps to carefully monitor the fiscal deficit. Ms. Sitharaman asserted that the Government has managed to make the Union Budget transparent and whatever the government is borrowing or spending is open for everyone to see.

Mr. Sanjay Aggarwal, President, PHD Chamber said that the Budget is highly encouraging and will go a long way in making of Atma Nirbhar Bharat. He also appreciated the calibrated fiscal policy adopted by the Government to rejuvenate the economic growth in the country with an increased fiscal deficit for the year 2021-22 at 6.8 percent.

MEETING WITH HON'BLE UNION MINISTER OF ROAD TRANSPORT AND HIGHWAYS

PHD Chamber delegation led by Mr. Sanjay Aggarwal President, Dr JP Gupta, Chair Environment Committee and Mr. Saurabh Sanyal, Secretary General met Mr. Nitin Gadkari, Hon'ble Minister of Road Transport and Highways on July 19, 2021. The objective of the meeting was to invite the Hon Minister to be the Chief Guest for the 116th Annual Session of the Chamber.

MEETING WITH UNION MINISTER OF COMMERCE AND INDUSTRY, RAILWAYS, CONSUMER AFFAIRS AND FOOD & PUBLIC DISTRIBUTION

A PHDCCI delegation led by Mr. Sanjay Agarwal, President and comprising of Mr. Saket Dalmia, Vice President, Prof Bejon Misra, Chairman, Consumer Affairs Committee and Mr. Saurabh Sanyal, Secretary General met Mr. Piyush Goyal, Union Minister of Commerce and Industry, Railways, Consumer Affairs and Food & Public Distribution on February 25, 2021.

VIRTUAL INTERACTION WITH UNION MINISTER OF COMMERCE & INDUSTRY

A high level PHD Chamber team comprising of Mr. Sanjay Aggarwal, President, Mr. Saket Dalmia Vice President, Mr. Saurabh Sanyal, Secretary General and Dr S P Sharma, Chief Economist participated in a video conference with Mr. Piyush Goyal, Union Minister of Commerce & Industry on June 1, 2021 on the agenda of "Review with Industry

Associations regarding their preparedness to combat the COVID-19 pandemic".

Mr. Sanjay Aggarwal, President, PHD Chamber raised the concerns of trade and industry issues such as MSME functioning capability during the current wave vis-a-vis diminishing demand and skyrocketing commodity prices of key industrial inputs. The

CIVIL AVIATION

PHD GLOBAL AVIATION & AIR CARGO SUMMIT- 7TH EDITION

PHD Chamber of Commerce and Industry's Civil Aviation Committee organized a two day summit- The PHD GLOBAL AVIATION & AIR CARGO SUMMIT- 7th EDITION- "Aviation -Air Cargo Industry's New Growth Blueprint & Business Resurgence Parameters," March 12-13, 2021.

Mr. Pradeep Singh Kharola, IAS, Hon'ble Secretary, Ministry of Civil Aviation emphasized that aviation is an international activity and is economically important for all the nations. We have to work together, open new airports, bring in efficiency, reduce costs, and build equitable and strong partnerships between the nations and airlines. An aviation system can function when all the parts of the system function efficiently and in sync with each other, he shared.

Ms. Vandana Aggarwal, Sr. Economic Advisor, Ministry of Civil Aviation emphasized that air cargo has provided valuable revenues to the airlines to sustain themselves during the pandemic. Air cargo has also been the humanitarian belly of this pandemic by transporting kits, essential goods, and vaccines to various parts of the world.

Mr. Sanjay Aggarwal, President, PHD Chamber emphasized

that the civil aviation market is expected to see some surge with the availability of vaccines, people's willingness to travel, and recovery in the macroeconomic growth of domestic air traffic.

The webinar was graced by H.E. Dr. Ahmed A.R. Albanna,

Hon'ble Ambassador of United Arab Emirates to India ; H.E. Extraordinary and Plenipotentiary- Mr Asein Isaev, Hon'ble Ambassador of the Kyrgyz Republic to India and Mr. Glyn Hughes, Director General, TIACA.

Mr. Sanjay Aggarwal, President, PHD Chamber suggested that

industries and plants should adopt renewable sources of energy like wind, solar, hydro,

etc. and reduce the usage of non-renewable sources of energy.

FOREIGN TRADE & INVESTMENT

MEETING WITH UNION COMMERCE AND INDUSTRY MINISTER

PHD Chamber participated in a meeting chaired by Mr. Piyush Goyal, Union Minister for Commerce and Industry on August 23, 2021 at Hotel Ashoka, New Delhi to discuss the measures to enhance and increase exports. Ms. Anupriya Patel, Union Minister of State for Health and Mr. SomPrakash, Union Minister of State for Commerce

and Industry also participated in the meeting.

PHD Chamber was represented by Mr. Sanjay Aggarwal, President; Mr. Saket Dalmia, Vice President, and Mr. Saurabh Sanyal, Secretary General. Mr. Sanjay Aggarwal highlighted the vital points for the enhancement of exports. He mentioned that the RoSCTL, PLI scheme, and RoDTEP schemes are

effective government initiatives to encourage exports. President Aggarwal stated that a one-size-fits-all policy will not be effective for boosting India's exports. He suggested that to sustain a long-term export growth, a sector-specific strategy will be more effective. The NTBs, Quality control, and safeguard measures should be sector-specific as the need of every industry is different.

RECENT POLICY INITIATIVES OF DGFT

The Foreign Trade & Investment Committee of PHD Chamber organized a virtual interaction on Recent Policy Initiatives by DGFT on May 14, 2021.

Mr. Amit Yadav, IAS, Director General, Directorate General of Foreign Trade (DGFT) informed that the government has set up

a dedicated COVID- 19 helpline to resolve the issues faced by the exporters pertaining to international trade such as custom clearance delays and banking issues.

Mr. Sanjay Aggarwal, President, PHD Chamber, suggested the simplification of Advance

Authorization Scheme to help exporters who struggle to get the issuance and redemption. He also requested for a ZERO Period from March 2020-September 2021 for Export Obligation purposes for both Duty Exemption and EPCG Schemes because this period has been practically a washout for the MSMEs.
