NATIONAL APEX CHAMBER

Sessions in Detail

Technical Session - I : Unlocking the Potential of Allied Aerospace Industries

The Aerospace and Defence (A&D) market in India is estimated to reach around \$70 billion by 2030 as the momentum is expected to further pick up with improving infrastructure and government thrust. Many private companies have made rapid strides in developing India as a preferred destination for aero structures, components, sub-assemblies and complex system assemblies. There is a need to develop more facilities that provide end-to-end aerospace solutions. This opens a huge potential for the allied industries in the aerospace sector.

Technical Session - II : 5th Generation Aviation: Challenges and Opportunities

India needs the 5th Generation fighters to secure its international borders and also the latest aircrafts for the growing civil and commercial aviation sector. Choosing and developing the right technology is a challenge but at the same time an opportunity to acquire the best.

Technical Session - III : Unmanned Flying: Future of Surveillance, Logistics and Agriculture

DGCA has issued guidelines for drones, which opens up a huge business opportunity for Civil and Military Drones. This will influence the growth of many sectors both in B2B and B2C vertical.

ABOUT PHD CHAMBER OF COMMERCE AND INDUSTRY

PHD Chamber of Commerce & Industry, a leading Industry Chamber of India, ever since its inception in 1905, has been an active participant in the India Growth Story through its Advocacy Role for the Policy Makers and Regulators of the Country. Regular interactions, Seminars, Conference and Conclaves allow healthy and constructive discussions between the Government, Industry and International Agencies bringing out the Vitals for Growth. As a true representative of the Industry with a large membership base of 1,30,000 direct and indirect members, PHD Chamber has forged ahead leveraging its legacy with the Industry knowledge across sectors (58 Industry verticals being covered through Expert Committees), a deep understanding of the Economy at large and the populace at the micro level.

At the National level, the PHD Chamber is well represented in 16 States with its own offices and MOUs with 11 Partner Chambers in different States. At the Global level we have been working with the Concerned Ministries, Embassies and High Commissions to bring in the International Best Practices and Business Opportunities.

PHD Chamber has special focus on following thrust areas:

- Agriculture
- Banking, Financial Services & Insurance
- Defence & Homeland Security
- Digital India
- Education & Skill Development
- Healthcare
- Housing & Urban Infrastructure
- Industrial Development
- Infrastructure
- Luxury & Lifestyle
- Logistics Industry
- Telecom
