BACKGROUND

Golfing in India has a long history, going back to 1829, when the Royal Calcutta Golf Club, the oldest golf club in the world, outside of Great Britain was formed. The Royal as it is popularly known, crowns a highly underrated landscape that offers a stimulating mix of colonial heritage, breathtaking locales and challenging modern day designs.

Golf is a growing sport in India and India has the strength to provide round the year tourism to the world. Golf Tourism is at the nascent stage and needs to be promoted with great intensity across the globe. Golf attracts affluent, high-value-adding tourists who generate significantly above-average per capita revenues for the destinations they are frequent.

With an objective to promote **Golf Tourism**, **PHD Chamber of Commerce & Industry** is **organizing the 3rd edition of PHD Golf Tourism Conclave & Tournament from 12–13 December 2019 in Jaipur**. Golf Tourism Conclave will be held on 12 December from 3:30 PM onwards followed by Networking Dinner and the Golf Tournament will be held on 13 December from 7:30 AM onwards at the **Rambagh Golf Club** followed by Prize Distribution and Lunch.

Rambagh Golf Club, an 18 Hole challenging championship course is one of the oldest and most prestigious Golf Clubs in India and playable all round the year. Moving around the Course, one is afforded with a view of the Rambagh Palace Hotel, Moti Doongri Fort, Nahargarh Fort and the Birla Planetarium. The Golf Tournament will provide an ideal opportunity to experience the game first hand on an international Golf Course.

The programme aims to bring more Golf tourists to India enabling them to experience the magnificent array of Golf from the mountains to cities. Golf travellers stay longer at a destination and spend more than the average tourist; therefore they can become an engine for growth of the tourism economy for India.
