Annual Convention on Capital Market & Commodity Market

India as Investment Destination for \$5 Trillion Economy

14th September 2019 at Hotel Park, New Delhi

The vision of New India along with its impact on the economy is bound to re-shape our capital markets by 2022. From a market capitalization of USD 2.3tn in 2019 to an expected USD 5tn in 2022, India is well poised to stage the 3rd/4th largest capital market in the world. Along with capital markets growth, we expect a lot more focus on the commodity markets which plays an important role in development of the agricultural sector and related ecosystems. SEBI is also actively promoting a host of policies and programmes to provide a sustainable yet empowering ecosystem in order to nurture the Capital and Commodity Market.

Keeping this in context and after the success of first two Conventions, we are happy to announce that the Capital Market and Commodity Market Committee of PHDCCI is organising **3rd Annual Convention on Capital Market & Commodity Market as per the following schedule:-**

Topic : India as Investment Destination for \$5 Trillion Economy
