NAMIBIA'S HEALTH AND WELFARE SECTOR SUFFERED THE SHARPEST MIDYEAR CUTBACK OF N\$63-M OR 16% IN ITS 2021/22 NATIONAL DEVELOPMENT BUDGET, NOW REDUCED TO N\$330-M WITH WHICH TO BUILD CLINICS, HOSPITALS AND AMENITIES FOR THE NEEDY - LESS THAN HALF THE SECURITY CLUSTER'S N\$735-M TO SPEND ON MILITARY BASES, POLICE STATIONS, COURTROOMS AND PRISONS. **The health and social welfare cluster's fourth ranking out of five clusters this year is an improvement on last year's fifth and last place.**

28 JANUARY 2022

Namibia's health and welfare sector suffered the biggest midyear cutback of N\$63-m or 16% to its 2021/22 development budget amongst five clusters, now reduced to N\$330-m with which to build clinics, hospitals and amenities for the needy - less than half the security cluster's N\$735-m to spend on military bases, police stations, courtrooms and prisons.

At the beginning of the year, the health and social welfare cluster's initial N\$392.8-m allocation from the central government for capital projects was over half security's N\$733.7-m, which was increased by 0.2% to N\$735.2-m - still ranked second compared to health and welfare's unchanged fourth ranking out of five clusters.

November's 2021's central government midyear budget revisions saw allocations for capital projects reduced from N\$5.5-b by N\$280-m or 5.08% to N\$5.2-b and operational expenditure increased by N\$2.2-b or 4.09% from N\$54-b to N\$56-b.

Health and welfare's development ceiling was cut by N\$63-m midyear from N\$392.8-m to N\$330-m, its share of voted development expenditure falling from over 7% at the beginning of the year to 6.3%, while the security cluster's capital projects allocation was increased by 0.2% or N\$1.5-m from N\$733.7-m to N\$735.2-m, its share of the development budget increasing from 13.33% to 14.07% after midyear.

In the process, the health and welfare cluster's cutback contributed the most - 22.5% - to the N\$280-m reduction in the development budget as a whole.

In third place, the education cluster's development budget was cut back by 1.4% or N\$6.7-m from N\$481.86-m to N\$475.2-m midyear - leaving it over one-third short (35.4%) of the security cluster's N\$735.2-m development allocation and contributing 2.4% to the overall N\$280-m reduction in voted development expenditure, compared to security's 0.54% gain.

Ranked fifth and last, the administrative cluster's development budget was reduced midyear by 9.37% or

N\$25.9-m from N\$276.3-m to N\$250.4-m, its share of all voted development expenditure falling marginally from 5.02% to 4.8% and contributing 9.26% to the N\$280-m midyear reduction in the development budget - well below health and welfare's 22.5%.

With the biggest share of the development budget, the economic cluster's N\$3.6-b development ceiling at the beginning of 2021/22 was reduced by 5% or N\$185.8-m to N\$3.4-b, accounting for 66.4% of the total N\$280-m reduction in the development budget and its share of voted development expenditure falling marginally from 65.77% of N\$5.5-b to 65.73% of N\$5.2-b after midyear 2021/22.

The security sector was the only one to walk away with a higher development budget after midyear - in addition to scoring the biggest slice of the additional N\$2.2-b allocated to the operational budget after midyear in 2021/22.

Within the security cluster, defence's development budget was trimmed marginally, however, by N\$2.5-m or 0.83% from N\$300.9-m voted at the beginning of the year to N\$298.4-m, which certainly does not offset its generous boost in operational spending.

All N\$11-m re-allocated back to the development budget midyear went to another vote in the security cluster - the Ministry of Home Affairs, Immigration, Safety & Security - to complete its N\$800-m new head office.

**The midyear operational budget**

Almost the entire N\$280-m mid-year cutback in the development budget was reallocated to operational expenditure, where the Ministry of Defence & Veterans Affairs received the biggest, N\$477-m, slice of N\$2.2-b additional reallocations within the operational budget, N\$458-m of which was

allocated "to meet the funding shortfall on personnel expenditure and N\$19.1-m for veterans expenditure".

The Defence & Veterans Affairs ministry's additional midyear N\$477-m top-up in operational expenditure accounts for 21.7% of the additional N\$2.2-b operational spending supplement and 11.5% of the higher N\$56-b operational budget, compared to a lesser 11% of overall N\$54-b operational expenditure at the beginning of the year.

The Defence & Veterans Affairs ministry's additional midyear N\$477-m boost increased its original operational budget from N\$5.98-m to N\$6.457-m - an 8% increase that is double the 4.09% increase in overall operational expenditure after midyear and almost treble the education ministry's 3% operational budget boost from N\$13.37-b to N\$13.77-b.

The N\$7.7-b original operational budget of the Ministry of Health & Social Services at the beginning of 2021/22 was also increased by N\$400-m (identical to that of Education) or 5.2% to N\$8-b.

This increased its share of operational expenditure from 14.3% of N\$54-b at the beginning of the year marginally to 14.46% of the midyear revised N\$56-b overall operational budget.

This left it better off than the education ministry, whose share fell from 24.8% of N\$54-b at the beginning of the year to 24.5% of N\$56.2-b after midyear.

As we noted in *Bulletin 1426*, the operational budget of the Ministry of Education, Arts & Culture was increased midyear by N\$400-m or 3% from N\$13.37-b to N\$13.77-b - far less than the 8% increase in the operational ceiling of the Ministry of Defence & Veterans Affairs from N\$5.98-b to N\$6.457-b.

However, the education ministry's increased midyear operational allocation lowered its relative share of the operational budget from 24.8% at the

beginning of the year to 24.5% - compared to the increase enjoyed by the Ministry of Defence & Veterans Affairs from 11% at the beginning of the year to 11.5% after midyear.

**Comparing 2020/21 and 2021/22's development budgets**

Although the ranking of the five clusters in the development budget at the beginning of 2021/22 was the same before and after midyear, the health and welfare cluster was far worse off in 2020/21, with the lowest revised development expenditure of all five clusters - even behind the administrative cluster which it overtook this year - both before and after midyear.

Its N\$266.6-m revised development expenditure in 2020/21 accounting for 4% of the N\$6.456-b total was below the administration cluster's N\$320.76-m in fourth place, accounting for 4.97%.

Health and welfare's development ceiling at the beginning of 2021/22 was raised the most of all clusters by N\$126.2-m or 47.3%, its share of the development budget as a whole climbing from 4% of N\$6.456-b to over 7% of N\$5.5-b and relegating the administrative sector to fifth and last place.

On top of health and welfare's smallest share of the 2020/21 development budget, it also suffered the biggest, 16.45% or N\$52.5-m cutback at midyear from N\$319-m voted at the beginning of the year to N\$266.6-m.

As a result, its share of the development budget fell from 4.98% of N\$6.4-b at the beginning of 2020/21 to 4.1% of the midyear revised N\$6.5-b.

Its share of the social sector (i.e., together with education) fell dramatically from 24.6% (of N\$1.3-b) to 18.3% (of N\$1.455-b) as a result of the education cluster's good fortune.

The security cluster, on the other hand, improved its ranking in the share of revised development expenditure in 2020/21 to third, from fourth the previous year.

Its N\$813-m or 12.5% share of the N\$6.5-b midyear revised development total in 2020/21 followed a 1.45% re-

STATE REVENUE FUND: All amounts are inside the State Revenue Fund. Amounts for votes marked \* exclude additional foreign funding outside the State Revenue Fund in 2021/22 and last year (2020/21): Vote 10 - N\$350-m (N\$350-m); Vote 18 - N\$53.998-m (N\$53.998-m); Vote 24 - N\$779.939-m (N\$1,055,054,000); Vote 37 - N\$272.48-m (N\$244.658-m); Vote 38 - N\$22.399-m (N\$45.248-m). This additional development funding outside the SRF totals N\$1,478,816,000 in 2021/22 (N\$1,748,958,000 last year), according to the NPC. This raises the total development budget to N\$7,031,338,000 in 2021/22. In addition, the development allocation for Vote 17 is N\$5.7-m less than the N\$580.818-m listed in the NPC's development budget at the beginning of the year.

MIDYEAR REVISIONS: The development budget for 2021/22 was revised downward from N\$5.5-b to N\$5.2-b, with a realized saving of N\$290.8-m, of which N\$11-m was re-allocated back to Development Budget - all to Vote 39 - and the remaining N\$279.8-m was reallocated to the operational budget "to cater for critical needs", according to the Ministry of Finance's midyear budget document.

MIDYEAR DISCREPANCIES: There are discrepancies for four votes between their original allocations for 2021/22 as stated in the main budget and their original allocations as stated in the midyear budget: Vote 27 - N\$15.429-m in the main budget but N\$13.429-m according to the midyear budget (N\$2-m less); Vote 31 - N\$10-m in the main budget but N\$9-m in the midyear budget (N\$1-m less); Vote 37 - N\$392.426-m in the main budget, but N\$347.772-m in the midyear budget (N\$44.65-m less); Vote 38 - N\$264.603-m in the main budget, but N\$259.929-m in the midyear budget (N\$4.67-m less). The inside SRF development total of N\$5,505-b at the beginning of 2021/22 according to the midyear budget document is therefore N\$52,028-m less than the N\$5,5575-b according to the main budget book at the beginning of the year. This is either due to errors in data capture or misallocations not clarified in the midyear budget statement.

duction from its N\$825-m voted at the beginning of the year when it enjoyed a 12.87% share of the initial N\$6.4-b overall development budget (domestically-funded).

This 1.45% or N\$12-m midyear cutback – the third lowest reduction beating only the economic cluster's 0.17% - was dwarfed by the health and welfare cluster's N\$52.5-m or 16.45% reduction – the highest.

This meant that relative to their respective allocations, the health and welfare cluster lost eleven times more of its development funding at midyear than the security cluster did in 2020/21.

## Comparing 2019/20 and 2020/21's development budgets

The initial astronomical midyear N\$1-b cutback in the national development budget from N\$7.9-b to N\$6.9-b excluding foreign funding in 2019/20 turned out to be far worse in terms of actual expenditure, which amounted to only N\$5.7-m.

According to the 2021/22 budget book, 2019/20's actual development expenditure turned out at N\$5.7-b – over N\$1-b below the N\$6.9-b to which it was already reduced at the time of that year's midterm cutback.

This means 2019/20's actual development expenditure of N\$5.7-b (excluding foreign inputs) was N\$2.2-b or 28% below what had initially been voted at the beginning of that year.

Comparing clusters in terms of midyear revised and actual 2019/20 development expenditure, this once more demonstrated the government's typically shrewd bias in downscaling more project funds in the economic, education and welfare clusters in favour of their administrative and security counterparts.

The health and welfare cluster's actual development expenditure of N\$192.4-m in 2019/20 was even lower than the N\$276-m to which it had been cut midyear, accounting for 38% of the N\$2.2-b overall reduction, leaving it with the lowest, 3.4% share of the N\$5.7-b total.

In 2019/20's N\$1-b midyear cutbacks, the health and welfare cluster's development budget was slashed by the most of all – 43.3% to N\$275.989-m, contributing 21% to the N\$1-b overall cutback.

Health and welfare's revised N\$266.6-m 2020/21 development allocation was 38.5% or N\$74-m more than its actual N\$192.4-m expenditure in 2019/20.

Although the security cluster's second-biggest share of development spending before and after 2019/20's midyear revisions was smaller than the economic cluster, the security cluster's mild midyear reduction was far more favourable than that of the former – aside from steeper reductions for the education and health/welfare sectors.

With a revised development budget of N\$1.3-b for 2019/20 in second place, the security cluster's 18.37% share of the N\$6.9-b revised total was higher than its 17.25% share of 2019/20's original N\$7.9-b total, despite a moderate 6.98% or N\$95.255-m reduction in its voted allocation midyear.

Although the security cluster's N\$1-b actual development expenditure in 2019/20 turned out to be less than N\$1.27-b revised midyear estimated, it still accounted for 18.69% of N\$5.7-b in second place.

This is despite it being the only one

of the five clusters with a reduced development expenditure ceiling of N\$813-m in 2020/21 compared to 2019/20's actual N\$1.065-b – a 23.7% or N\$252.6-m reduction.

But the security cluster's 6.98% reduction in its development allocation midyear 2019/20 from N\$1.36-b to N\$1.279-b was the second-lowest, contributing only 9.5% to the overall development budget reduction of N\$1-b.

## The health and welfare cluster's 2021/22 development budget

The health and welfare cluster has 42 projects under implementation in 2021/22 – one more than last year's 41, compared to 39 in 2019/20, below 2018/19's 42 (33 of which were scaled back midyear), 2017/18's 46 projects (none affected midyear), 55 in 2016/17 (35 scaled back midyear) and 2015/16's 64 (affected projects not disclosed).

The health and welfare cluster consists of:

- \* Gender Equality & Child Welfare (Vote 12) – discontinued last year and absorbed by the new Vote 36;
- \* Health & Social Services (Vote 13) – 30 projects;
- \* Labour, Social Welfare & Employment Creation (Vote 14) – two projects;
- \* Poverty Eradication & Social Welfare (Vote 33) – now discontinued and also incorporated into the new Vote 36;
- \* Gender Equality, Poverty Eradication & Social Welfare Vote (Vote 36 – incorporating the discontinued votes 12 and 33) – ten projects.

**Most of the health and welfare cluster's development budget are in the Ministry of Health & Social Services, which has N\$309.3-m to spend on 30 development projects in 2021/22, accounting for 93.75% of the N\$330-m cluster total after midyear.**

## Health & Social Services

As usual, most of the health and welfare cluster's development budget lies with the Ministry of Health & Social Services (Vote 13), which has N\$309.3-m to spend on 30 development projects in 2021/22, accounting for 93.75% of the N\$330-m cluster total, following a N\$51.2-m or 14.2% cutback midyear from its N\$360.5-m initial allocation for capital projects when it accounted for 91.77% of the N\$392.8-m cluster total at the beginning of the year.

Vote 13's initial N\$360.5-m ceiling for 2021/22 had been a generous 51.2% or N\$122-m increase over last year's revised N\$238.4-m expenditure accounting for 89.4% of the N\$266.6-m cluster total.

In 2020/21, Health & Social Services had its development budget for 29 projects reduced by 16.47% or N\$47-m from N\$285.43-m voted at the beginning of the year to N\$238.43-m midyear.

As result, its share of the health and welfare cluster total dropped from 92.47% of N\$319-m in the beginning of the year to 89.43% of the lowered N\$266.6-m post-midyear cluster total.

Nationally, Vote 13 enjoys 5.9% of the N\$5.2-b development budget after midyear 2021/22, significantly lower than the 6.55% of the N\$5.5-b total at the beginning of the year.

This ranks it fourth behind the Transport Vote's 40.89% with N\$2-b, Urban & Rural Development's 10.2%

**The health and welfare cluster has 42 projects under implementation in 2021/22 – one more than last year's 41, compared to 39 in 2019/20, 2018/19's 42 (33 of which were scaled back midyear), 2017/18's 46 projects (none affected midyear), 55 in 2016/17 (35 scaled back midyear) and 2015/16's 64 (affected projects not disclosed).**

with N\$532-m and Home Affairs, Immigration, Safety & Security's 7.2% with N\$375.2-m – after midyear.

Its share of the national budget is now only marginally ahead of Defence's 5.7% with N\$298.4-m after midyear, compared to the beginning 2021/22, when Health & Social Services' 6.55% was further ahead of Defence's 5.47% with N\$301-m.

Vote 13 accounted for 4.45% of the overall N\$6.4-b development budget at the beginning of 2020/21, dropping to 3.66% of the N\$6.5-b higher post-midyear total.

The N\$285.4-m allocated to Health & Social Services at the beginning of 2020/21 was 24.3% or N\$55.8-m more than its revised N\$229.6-m revised ceiling for 2019/20 as reflected in the 2020/21 development budget.

This N\$229.6-m was higher than the N\$198.2-m to which its development budget allocation was reduced in 2019/20's midyear revisions. Technically, this points to a 15.8% overexpenditure.

Vote 13's development ceiling was slashed by 51% or N\$206.2-m midyear in 2019/20 from N\$404.4-m to N\$198.2-m, its share of the cluster dropping from 83% to 71.8% and its share of the national total almost halving from 5.1% to 2.87%.

This 51% midyear cutback in 2019/20 was far more severe than last year's 16.47% reduction and 2021/22's 14%.

This year's 30 projects under imple-

N\$60-m has been voted for Vote 13's second-biggest project in 2021/22 – maintenance and repair of health infrastructure nationwide – the same amount as last year for the same project, then its biggest.

The midyear budget does not disclose which of the Ministry of Health & Social Services' projects were affected by the midyear cutbacks – or by how much – as was the case in past two years.

Three of the Ministry's projects in 2021/22 are N\$20-m or above:

- \* N\$22-m for Oshakati Intermediate Hospital's upgrade and renovations;
- \* N\$20-m for Onandjokwe Hospital's upgrading and renovation; and
- \* N\$20-m for Swakopmund District Hospital's upgrading and renovation.

A further seven projects have had N\$10-m and above voted for this year.

## Gender Equality, Poverty Eradication & Social Welfare

The new Vote 36 – Gender Equality, Poverty Eradication & Social Welfare – is an amalgam of two discontinued votes:

- \* Vote 12 – Gender Equality & Child Welfare; and
- \* Vote 33 – Poverty Eradication & Social Welfare.

The new Vote 36 has N\$13.75-m to spend on its 10 projects in 2021/22, accounting for a little over 4% of the N\$330-m cluster total, after its original N\$23.55-m voted at the beginning of the year when it accounted for 6% of the N\$393-m cluster total was cut by 41.6% or N\$9.8-m.

In its first year of existence the new Vote 36 started 2020/21 with a N\$25.674-m development allocation for 10 projects, unchanged after those midyear revisions – accounting for 9.6% of the N\$266.6-m post-midyear cluster total.

For some unknown reason, last year's budget recorded Vote 36 with a revised development ceiling of N\$3.017-m for 2019/20 for a project count of nil, which meant its allocation in 2020/21 was a 750.98% increase over 2019/20.

This N\$3.17-m carry-over from 2019/20 must be related to balances brought forward from the now defunct Vote 12 – Gender Equality & Child Welfare.

The reshuffling of these welfare votes comes as no surprise, given their dismal underperformance over past years.

In 2019/20, it was the third year that the inaptly named Poverty Eradication & Social Welfare (Vote 33 – now discontinued) had nothing to spend on capital projects, four years after its establishment.

**The Health & Social Services Vote's initial N\$360.5-m ceiling for 2021/22 had been a generous 51.2% or N\$122-m increase over last year's revised N\$238.4-m, before it was cut by N\$51.2-m or 14.2% midyear.**

mentation by the Ministry of Health & Social Services is one more than 2020/21's 29, compared to 31 projects in 2019/20, 34 in 2018/19, of which 29 were scaled back in that midyear – all ongoing in both years, compared to two new projects in 2020/21 but none this year.

It also had 34 projects under implementation in 2017/18, a decline on 42 projects in 2016/17, of which 29 were affected by those midyear suspensions, after its original N\$540-m development budget was reduced by over one third midyear.

In 2019/20, MHSS's original allocation was N\$95.6-m or 19% more than 2018/19's revised N\$500-m.

The N\$500-m original project funding for the MHSS in that year accounted for 96% of the health and welfare cluster's N\$522.2-m development budget and 6.38% of the overall N\$7.8-b total, compared to 2017/18's original N\$320-m accounting for 91% of the N\$351.5-m and 4.6% of the national development budget.

Vote 13's N\$500-m original allocation for capital projects in 2018/19 was reduced by N\$192.545-m or 38.5% to N\$310.3-m, with 29 or its 34 projects scaled back midyear.

Two of Vote 13's projects in 2021/22 are above N\$50-m, compared to one last year, two in 2019/20 and three the previous year.

Its biggest project in 2021/22 is N\$74.7-m for nationwide primary health care clinics construction and upgrading.

This was Vote 13's second-biggest project in 2020/21, when N\$40-m was voted and it also ranked as the project with the biggest total of N\$740-m – the last time such information was disclosed in the national budget.

Nationally, Health & Social Services enjoys 5.9% of the N\$5.2-b development budget after midyear 2021/22, significantly lower than the 6.55% of the N\$5.5-b total at the beginning of the year.

FROM PREVIOUS PAGE

In 2018/19, the PESW vote still had no development budget for the second consecutive year, after 99% of its funding was wiped in 2016/17's midyear spending cuts – leaving the construction of food banks dead in the water.

Only one year after it was created in fiscal 2017, the new Poverty Eradication & Social Welfare vote – under which the much-heralded food banks resort – also had a zero capital projects budget.

In its first year in 2016/17, its original N\$40-m budget was slashed midyear by 99% to N\$520,000, affecting the construction of its only project – the Katutura Food Bank.

Of the new Vote 36's ten projects in 2021/22 (same number as last year), the biggest is N\$8.2-m voted at the beginning of the year for the construction of the Keetmanshoop community empowerment centre, which has probably now been scaled back after midyear.

This was also its biggest project last year, when the same N\$8.22-m was allocated – probably also canned midyear.

The Keetmanshoop community centre project totaled N\$86.8-m – the last time project totals were disclosed.

Its biggest project total in 2021-22 – the last time project totals were disclosed – was a whopping N\$651.747-m for the renovation of an after-school centre in Khomasdal, for which only N\$1.5-m was voted – down to a mere N\$353,000 this year.

Its second-biggest project total was N\$138.77-m last year for the construction and renovation of regional and constituency offices, for which N\$4.227-m was voted. Only N\$2.5-m was voted at the beginning of 2021/22.

One of Vote 36's ten projects is new in 2021/22 – N\$1-m for the construction of the Khomas Community Empowerment Centre.

Last year Vote 36 also had one new project – N\$12.9-m for the renovation and upgrading of Farm Kaukurus No. 79, Unit B, for which N\$2.66-m was voted.

This year's 30 projects under implementation by the Ministry of Health & Social Services is one more than 2020/21's 29, compared to 31 projects in 2019/20, 34 in 2018/19, of which 29 were scaled back in that midyear.

The farm was "donated" to the new vote by the Ministry of Land Reform to provide "accommodation, agricultural and vocational skills development for street children".

No more Gender Equality & Child Welfare

GECW (Vote 12) was discontinued and merged with the new Vote 36 - Gender Equality, Poverty Eradication & Social Welfare.

But something perplexingly mysterious occurred in this vote's final year in 2019/20 for which the 2020/21 midyear budget reflected a mere N\$9.672-m revised expenditure in its last year of existence, compared to N\$77.8-m at the time of that year's midterm revisions – a N\$68.128-m discrepancy for which 2020/21's budget offered no explanation.

Vote 12 had started 2019/20 with N\$77.8-m to spend on eight development projects – two of which were new – after its original allocation of N\$82-m was reduced by N\$4.2-m or 5.12% mid-year, its 16.87% share of the N\$486.4-m cluster total at the beginning of the year ballooning to 28% of the lowered N\$276-m cluster total – due to the drastic reduction in the health & social services vote at the time.

Its original N\$82-m allocation in 2020/21 was a massive N\$74.5-m or 993% more than 2019/20's N\$7.5-m, when Gender Equality & Child Welfare had only N\$7.5-m to spend on five projects – all ongoing.

This was reduced midyear by N\$2.15-m or 28.7% to N\$5.35-m, with two projects scaled back.

GECW's biggest project in 2019/20 was N\$57.4-m voted at the beginning of the year for the construction of early childhood development centres – one of its two new projects. These ECD projects obviously did not materialize, given the disappearance of N\$68-m from its budget, leaving only N\$9.67-m.

Children versus veterans

Social welfare ministry's N\$23.55-m budget

This is the fourth consecutive year that the Veterans Affairs Vote in the security cluster has a smaller development budget than the relevant votes in the health and welfare cluster.

As we noted when covering the security cluster's development budget for 2021/22 in *Bulletin 1428*, while the VA vote's N\$7-m post-midyear allocation in 2021/22 is still higher than last year's N\$5-m, the Social Welfare Vote's N\$13.75-m is almost half 2020/21's revised N\$25.67-m.

This is after the VA Vote's N9-m allocation at the beginning of this year was cut midyear by N\$2-m or 22.22% to N\$7-m, while the Social Welfare Vote's initial N\$23.55-m allocation was cut mid-year by almost twice as much – 41.6% or N\$9.8-m – to N\$13.75-m.

As a result, the VA Vote's N\$7-m post-midyear development allocation in 2021/22 is over half Gender Equality, Poverty Eradication & Social Welfare's N\$13.75-m – a sharp reversal on the previous year's one-fifth disparity in favour of the Social Welfare Vote.

As things stand, comparing the VA's N\$7-m post-midyear development budget for 24,000 war vets in 2021/22

2014/15's N\$19-m for the war vets (*Bulletin 1190*).

Already two year before, the *Tender Bulletin* had pointed out that "the development budget shows a distinct bias favouring the gracefully retired members of the Peoples Liberation Army of Namibia, with the construction of housing and recreational facilities for veterans supplementing their generous financial grants under the operational budget."

"On the other hand, vulnerable civil society groups such as old age pensioners and children living in poverty are biting the bullet when it comes to development funding."

2017/18

In 2017/18, Veterans Affairs had N\$14.9-m to spend on capital projects, up 55% from the previous year's revised allocation.

In contrast, Gender Equality & Child Welfare had N\$8.2-m – not quite double 2016/17's revised N\$4.2-m, when N\$9.6-m development project funding for war veterans was more than double the N\$4.2-m allocated for social welfare, while in the same year (2016/17) the much-heralded new Ministry of Poverty

The Health & Social Services ministry's biggest project in 2021/22 is N\$74.7-m for nationwide primary health care clinics construction and upgrading.

to the Gender Equality, Poverty Eradication & Social Welfare Vote's N13.753-m for 360,000 impoverished children, it works out to N\$291.66 for each war vet, compared to N\$38.20 for each impoverished child.

This disparity was far greater in previous years, however.

2015/16

As we pointed out in our assessment of development spending in 2015/16, there were an estimated 360,000 children living in poverty in Namibia in 2010, according to a UNICEF report at the time.

Yet, the Ministry of Gender Equality & Child Welfare's development spending in 2015/16 specifically targeting vulnerable children totaled only N\$1.8-m, compared to N\$4.5-m in 2014/15 – a 60% reduction.

In contrast, for about 24,000 Swapo war vets, 2015/16's development budget for the Ministry of Veterans Affairs amounted to N\$44.5-m – exceeding the N\$1.8-m benefiting vulnerable children 25-fold and more than double

Eradication & Social Welfare had its development budget slashed 99% in its first year, affecting the construction of the new food bank in Katutura, where N\$39.1-m was suspended midyear from an initial N\$39.7-m voted.

2018/19

After these years of favouring the Veterans Affairs Vote over the relevant social welfare vote at the time, some balance was restored in the government's development priorities for the first time only in 2018/19 when, in a reversal of the previous two years, Gender Equality & Child Welfare had – marginally – more project funding than Veterans Affairs, with a development budget of N\$7.5-m compared to N\$6-m for the war vets.

At the time of 2018/19's midyear revisions, however, the vote's N\$6-m was not reduced – unlike all votes in the health and welfare cluster.

Its development budget in 2018/19 was 51.5% below 2017/18's revised N\$12.38-m, which commenced with just below N\$15-m.

STATE REVENUE FUND: All amounts are inside the State Revenue Fund. Amounts for votes marked \* exclude additional foreign funding outside the State Revenue Fund in 2021/22 and last year (2020/21): Vote 10 - N\$350-m (N\$350-m); Vote 18 - N\$53,998-m (N\$53,998-m); Vote 24 - N\$779,939-m (N\$1,055,054,000); Vote 37 - N\$272,48-m (N\$244,658-m); Vote 38 - N\$22,399-m (N\$45,248-m). This additional development funding outside the SRF totals N\$1,478,816,000 in 2021/22 (N\$1,748,958,000 last year), according to the NPC. This raises the total development budget to N\$7,031,338,000 in 2021/22. In addition, the development allocation for Vote 17 is N\$5.7-m less than the N\$580,818-m listed in the NPC's development budget at the beginning of the year.

MIDYEAR REVISIONS: The development budget for 2021/22 was revised downward from N\$5.5-b to N\$5.2-b, with a realized saving of N\$290.8-m, of which N\$11-m was re-allocated back to Development Budget - all to Vote 39 - and the remaining N\$279.8-m was re-allocated to the operational budget "to cater for critical needs", according to the Ministry of Finance's midyear budget document.

MIDYEAR DISCREPANCIES: There are discrepancies for four votes between their original allocations for 2021/22 as stated in the main budget and their original allocations as stated in the midyear budget: Vote 27 - N\$15,429-m in the main budget but N\$13,429-m according to the midyear budget (N\$2-m less); Vote 31 - N\$10-m in the main budget but N\$9-m in the midyear budget (N\$1-m less); Vote 37 - N\$392,426-m in the main budget, but N\$347,772-m in the midyear budget (N\$44.65-m less); Vote 38 - N\$264,603-m in the main budget, but N\$259,929-m in the midyear budget (N\$4.67-m less). The inside SRF development total of N\$5,505.5-b at the beginning of 2021/22 according to the midyear budget document is therefore N\$52,028-m less than the N\$5,557.5-b according to the main budget book at the beginning of the year. This is either due to errors in data capture or misallocations not clarified in the midyear budget statement.

# for projects cut by 42% midyear to N\$13.75-m

2019/20

In 2019/20 the N\$8.5-m Veterans Affairs had to spend on development projects (unaffected by the midyear revisions), was a generous 240% increase over 2018/19's revised N\$2.5-m, which had been a 42% reduction on its original N\$6-m voted at the beginning of that year.

Gender Equality, Poverty Eradication & Social Welfare (Vote 36), on the other hand, had a revised N\$3-m plus N\$9.67-m for the Gender Equality & Child Welfare (Vote 12), totaling N\$12.7-m.

However, Gender Equality & Child Welfare's revised N\$9.67-m for 2019/20 came after N\$82-m had originally been voted, reduced to N\$77.8-m midyear – a disappearance of N\$65-m that remains unexplained to this day.

2020/21

Last year was the third consecutive year that the GECW vote's budget for capital projects had been higher than Veterans Affairs.

VA's initial N\$5-m turned was unaffected midyear, while Gender Equality, Poverty Eradication & Social Welfare's initial N\$25.67-m was also unaffected midyear – leaving the latter with five times more than the veterans.

VA's initial N\$5-m allocation in 2020/21 was 41% less than 2019/20's revised N\$8.5-m, while the social welfare vote's initial N\$25.67-m was a massive 751% increase on 2019/20's N\$3-m.

**While the Veterans Affairs Vote's N\$7-m post-midyear allocation in 2021/22 is still higher than last year's N\$5-m, the Social Welfare Vote's N\$13.75-m is almost half 2020/21's revised N\$25.67-m.**

## Labour, Industrial Relations & Employment Creation

Vote 14 now has N\$6.857-m to spend on two projects in 2021/22, accounting for the remaining 2% of the N\$330-m cluster total after its initial N\$8.757-m project funding at the beginning of the year was cut by N\$1.9-m or 21.7% midyear.

Its initial N\$8.757-m in 2021/22 had been a whopping 250% or N\$6.257-m increase over 2020/21's revised N\$2.5-m, accounting for 0.9% of the N\$266.6-m cluster total.

Vote 14 was temporarily renamed Labour & Social Welfare last year, but has retained its former title.

Its N\$8-m voted at the beginning of 2020/21 for the same two projects the previous year, was slashed by N\$5.5-m or 68.75% midyear last October to N\$2.5-m, its share of the health and welfare cluster plunging from 2.5% of the original N\$319-m cluster total.

Labour, Industrial Relations & Employment Creation had N\$10-m to spend on two projects – both ongoing – at the beginning of 2019/20, accounting for 0.36% of the N\$2.8-b cluster total, before it was reduced by N\$4-m or 40% to N\$6-m midyear, accounting for 0.26% of the lowered N\$2.3-b cluster total.

In 2018/19, Vote 14 also had two (ongoing) development projects for which N\$8.715-m was voted at the beginning of the year, which was reduced by half – N\$4.356-m – midyear, with both projects scaled back.

Vote 14's two projects in 2020/21 are the same as last year (see detailed listing below).

For the record, project totals were disclosed in 2020/21 of:

\* N\$31.6-m for extensions to its labour office in Otjiwarongo; and

\* N\$19.245-m for renovation and upgrading of its regional offices in Omusati, Oshana,

Zambezi, Erongo, Khomas and Oshana regions.

Such project totals are now no longer reported in the Development Budget's redacted format, leaving analysts clueless about the scope of development programmes.

Below is a project-by-project listing of the health and welfare cluster's 2021/22 development budget currently under implementation. Refer to the accompanying key to abbreviations of procurement categories.

**'NO PROBLEM' WITH ALL THOSE CHINESE ROADWORKS CONTRACTS**

28 JANUARY 2022

The Roads Authority has labeled allegations by Landless Peoples Movement leader Bernardus Swartboo that it favours Chinese contractors in the award of roadworks tenders as unpatriotic, "defamatory, false and unfounded".

According to a statement from the office of Road Authority CEO Conrad Lutombi dated 23-Nov-21, all RA procurement was conducted in line the Public Procurement Act 15 of 2015.

To illustrate the RA's commitment to promote Namibian contractors and SMMEs, Lutombi listed some statistics from the last five years:

\* 84 Namibian contractors and 442 local SMMEs conducted road maintenance work;

\* new gravel roads were built by 11 emerging contractors with the participation of 45 SMMEs;

\* six Namibian contractors were in-

involved in 23 roads that were upgraded to bitumen standards, while nine other Namibian companies participated as JV partners with foreign companies;

\* the remaining eight bitumen road contracts were done by foreign companies;

\* 339 Namibian entities participated as SMME sub-contractors in these road contracts;

\* on all RA construction and maintenance projects, 13,607 employment opportunities were created for Namibians.

As far as Phase 2B of the Windhoek - Hosea Kutako International Airport highway is concerned, Lutombi confirmed that this stretch was fully funded through a Chinese grant to the tune of N\$1.035-b.

"This is money is coming into Namibia for the development of our road network and not money going out of our country, as alluded to by Hon. Swartboo", he emphasised.

Chinese and Namibian procure-

ment processes were involved in a "fair and transparent manner". To ensure that Namibians would benefit from this project, construction materials will be 'solely sourced from Namibian suppliers' and there will be opportunities for local subcontractors and SMMEs.

About 270 jobs should be created for Namibians during the construction period, he said.

As CEO, Lutombi was not involved in appointing contractors for any construction work, the statement added (*New Era* 24-Nov-21).

The statement did not specify what was "defamatory, false and unfounded" about Swartboo's claims.

It did not provide a breakdown of 'foreign companies', nor a breakdown of the values of roadworks completed by local and foreign contractors. It is well known that by far most of these 'foreign' contractors on major road-building projects are Chinese.

Nor did the statement acknowledge the obvious fact that most of the N\$1.035-b Chinese grant for the last phase of the airport highway would flow back to the country of origin via the Chinese contractor who was awarded the tender.

**Namibian subcontractors used by Chinese firms to get tenders**

According to an SMS to *The Namibian* on 02-Nov-21, "Namibian architects associations and its engineering council must be aware that Chinese contactors are using mechanical and electrical subcontractors to tender, and once they get a tender, they either want a discount from 20% to 30% or they use their own contractors. We are the ones tendering, while they are using our documents, such as founding statements, certificates of good standing and profiles, to get the tender. Can the authorities please look into this?"

**NOTES TO THE STATE PROCUREMENT BUDGET**

This scoping of what we call government's 'procurement budget' as part of the overall budget is unique to the Tender Bulletin, has been undertaken for most financial years since 1993 and is unreplicated in Namibia. Its purpose is to alert tenderers to forthcoming procurement opportunities.

Procurement spending relates to heads of expenditure normally directed through public procurement channels (with abbreviations):

\* Materials and Supplies (M&S): Expenditure relating to the acquisition of store items of consumable nature to be utilized in the process of government services/operations, such as provisions, spares, stationery and other materials.

\* Other goods, services and expenses (OSE): Generally relating to recurrent spending on items sourced in the real economy, i.e. excluding remuneration, other conditions service relating to the public service, transport provided by the government garage, utilities, property rental etc. OSE consists of consultancy services unrelated to construction as well as non-consultancy services such as advertising, catering, cleaning, entertainment, event management, gifts, legal, printing, security, travel, training services etc.

These two spending heads are form part of government's current expenditure in the operational budget as well as in the development budget.

Other procurement spending components occurring both as capital expenditure in the operational budget (i.e. not current expenditure) and also in the development budget are:

- \* furniture and office equipment (FOE)
- \* operational equipment, machinery and plant (OEMP);
- \* vehicles (V).

Procurement components occurring only within the development budget are:

- \* construction, renovations and improvement (CRI);
- \* feasibility studies, design and supervision (FSDS).

Maintenance expenses consists of expenditure relating to maintaining capital assets, including office and operational equipment, buildings, roads and bridges, and other capital assets.

Although annual and multi-year tenders are issued in this area (e.g. minor capital works, water infrastructure, vehicle, plant, electrical and electronic maintenance), we deliberately exclude it from our analysis to err on the safe side, since some of this maintenance is sourced internally within certain government ministries (e.g. the departments of works and of water affairs).

Although our coverage of the development budget overlaps with some of the operational budget, a project-by-project presentation of the development budget concretizes tendering opportunities more specifically with reference to actual project implementation and is presented separately from the estimates of operational expenditure.

# OVER N\$51-M RESTRICTED WORKS CONTRACTS AWARDED

28 JANUARY 2022

NamPower announced the awards of five works tenders worth over N\$51, according to its website on 13 December 2021.

These are part of 14 'restricted bidding' tenders worth over N\$120-m in which selected bidders were invited to tender without advertisements in the public domain.

Of the 14 restricted bidding tenders, four were for 'non-consulting services', five for works and five for various supplies, award details of which are reported separately.

The value of some of these tenders confirms that NamPower is currently handling procurement above its threshold without having to go through the Central Procurement Board – as disclosed by the CPB at its latest media briefing in November. NamPower's special exemption from going through the CPB was first announced by finance minister lipumu Shiimi when tabling the midyear budget at the beginning of November.

Some of these 'restricted bidding' tenders awarded as at 13-Dec-21 date back to 2020 but from the awards posted on the NamPower website it is not clear when the awards were processed.

CLOSING AT NAMWATER 16-NOV-21:

# Quenching Windhoek's long-term thirst probed

Six expressions of interest were received for the consolidation and comparison of the three long-term water sources to supply Windhoek and related areas, when consultancy tender SC/EOL/NW-002/2022 closed at the NamWater head office in Windhoek at 11:00, Tuesday 16 November 2021.

The NamWater Procurement Management Unit had invited qualified independent engineering consultants to submit pre-selection documents for these consulting services.

The purpose of this assignment is to propose from among the three most likely long-term sources:

- (a) Okavango River;
- (b) desalinated water from the Atlantic Ocean and
- (c) southern dams.

The purpose of the consultancy is to identify the most technically and financially feasible option that NamWater should implement next to secure the long-term (up to year 2050) bulk water supply to the consumers in
