Nationally, the industrial sub-cluster's N\$2.78-b development budget after 2021/22's midyear revisions accounts for 53% of the N\$5.2-b total.

11 FEBRUARY 2022

Namibia is spending over 40% of its N\$5.2-b development budget and 75% of its N\$2.8-b allocation to the industrial cluster on transport infrastructure this year, almost half of which is supported by foreign loans totaling at least N\$874-m - virtually all of which accrues to Chinese contractors. And these road and rail projects are essentially for the export of unprocessed minerals at the expense of domestic industrialization.

This is in line with previous years, where road and rail infrastructure projects consumed as much as 54% of all foreign funding in the development budget.

Foreign loans to the Transport Vote totaling between N\$780-m and N\$874-m in 2021/22 also make up between 26% and 29% of its N\$3-b capital projects budget (N\$2.1-b domestically financed) – depending on which parts of the development budget one looks at.

This is in line with last year when one third of Transport's similar, N\$3-b development budget was supported by foreign funding mostly in the form of loans, while all projects in the remaining industrial votes are financed solely from Namibia's own limited domestic inputs.

The Transport Vote's foreign funding component differs in the development budget's summary tables for 2021/22 where it is recorded as N\$780-m and in the detailed project listing where it reflects N\$874-m.

As we pointed out at the beginning of this review, Namibia's 2021/22 national development budget at the beginning of the year plunged to N\$5.5-b - equaling what it was five years ago and its second-lowest in nine years, augmented by external loans that drive the country's foreign debt burden to new highs (*Bulletin* 1414).

And true to form, the central government cut its development budget mid-year by N\$280-m and added N\$2.2-b to its operational expenditure for the remainder of 2021/22, after ministries blew their initial allocations.

Much of the additional funding is for

remuneration costs that were somehow 'unforeseen' at the beginning of the year, when the Ministry of Defence - already fingered by the auditor general for irregular spending on salaries - received the biggest, N\$477-m, slice of the bailout (*Bulletin* 1422).

Namibia is now spending N\$8.5-b on servicing its central government debt in 2021/22 - a new record that is 53% more than the second-lowest ever N\$5.5-b it was spending on development projects before the midyear cutback to N\$5.2-b.

This is the biggest disparity to date, after treasury's loan repayments ballooned by 9.85% and investment in capital projects contracted by 14% this year (*Bulletin* 1420).

Foreign finance (mainly loans) as a component of Namibia's development budget has jumped to an all-time 22.4% high, following the 5.3% midyear reduction of the central government's own investment in capital projects to only N\$5.2-b for the remainder of 2021/22 - almost 20% less than last year (*Bulletin* 1423).

In line with previous years, the Transport Vote's capital projects budget in 2021/22 is more than treble the development allocation to the rest of industrial sub-cluster, accounting for 75% of the cluster total, thereby largely benefiting the export of unprocessed minerals at the expense of domestic industrialization.

On top of that, while all votes in the industrial sub-cluster had their development allocations cut back in 2021/22's midyear revisions, the Transport Vote suffered the least, with a 2.86% reduction (by N\$63-m to N\$2.137-b) - almost half the cluster's 4.35% cutback, comprising reductions of:

- * 16% for Mines & Energy (by N\$13-m to N\$68.3-m);
- * 8.3% for Urban & Rural Development (by N\$48-m to N\$532-m); and
- * 5.25% for Industrialisation & Trade (by N\$2.5-m to N\$45-m).

At 2020/21's midyear revisions, all votes in the industrial sub-cluster had their development budgets reduced except the Transport Vote.

Industrialising

This is the story of Namibia's official development paradigm that seeks to render the country the Southern African sub-region's logistics hub, with little accruing domestically except in the form of services, rather than home-grown industrialization.

The economic cluster's 2021/22 development budget

Out of the five clusters, the economic cluster traditionally has the biggest share of the N\$5.2-b development budget.

Its 65.7% share after midyear in 2021/22 is ahead of the security cluster's 14%, education's 9%, health and welfare's 6.3% and the administrative cluster's 4.8% (see accompanying table).

After midyear in 2021/22, the economic cluster as a whole has a domestically-financed development budget inside the State Revenue Fund of N\$3.435-b, equating to 65.7% of the national development budget totaling N\$5.2-b.

At the beginning of the year, the economic cluster's N\$3.6-b accounted for 65.77% of the initial N\$5.5-b national development budget.

In terms of 2020/21's revised development expenditure, the economic cluster's N\$3.9-b accounted for a lower 60.7% of the N\$6.456-b national total.

It started the year with N\$3.927-b, reduced by 0.17% or N\$6.5-m midyear in October 2020, resulting in the economic cluster's share of the domestically-funded development budget declining marginally from 61.27% of N\$6.4-b at the beginning of the year to 60.23% of N\$6.5-b after midyear.

These amounts exclude N\$1.479-b in foreign financial inputs outside the State Revenue Fund, compared to N\$1.75-b in 2020/21 (see below).

Midyear revisions to the Namibian central government's 2021/22 national budget saw allocations for capital projects reduced from N\$5.5-b by N\$280-m or 5.08% to N\$5.2-b and operational expenditure increased by N\$2.2-b or

4.09% from N\$54-b to N\$56-b.

With the biggest share of the development budget, the economic cluster's N\$3.6-b development ceiling at the beginning of 2021/22 was reduced by 5% or N\$185.8-m to N\$3.4-b, accounting for 66.4% of the total N\$280-m reduction in the development budget and its share of voted development expenditure falling marginally from 65.77% of N\$5.5-b to 65.73% of N\$5.2-b after midyear 2021/22.

The economic cluster's 2020/21 development budget

With N\$3.9-b, the economic cluster accounted for 60.7% of 2020/21's N\$6.456-b revised development expenditure, before falling 7.65% or N\$300-m to N\$3.6-m at the beginning of 2021/22 - although accounting for a higher 65.77% of the lowered development total.

After 2020/21's midyear revisions, the economic cluster had N\$3.92-b for capital development projects (excluding foreign funding).

It started the year with N\$3.927-b, reduced by 0.17% or N\$6.5-m midyear, resulting in the economic cluster's share of the domestically-funded development budget declining marginally from 61.27% of N\$6.4-b at the beginning of the year to 60.23% of N\$6.5-b after midyear.

The economic cluster's 2019/20 development budget

The initial astronomical midyear N\$1-b cutback in the national development budget from N\$7.9-b to N\$6.9-b excluding foreign funding in 2019/20 turned out to be far worse in terms of actual expenditure, which amounted to only N\$5.7-b.

According to the 2021/22 budget book, 2019/20's actual development expenditure turned out at N\$5.7-b - over N\$1-b below the N\$6.9-b to which it was already reduced at the time of that year's midterm cutback.

This means 2019/20's actual devel-

STATE REVENUE FUND: All amounts are inside the State Revenue Fund. Amounts for votes marked * exclude additional foreign funding outside the State Revenue Fund in 2021/22 and last year (2020/21): Vote 10 - N\$350-m (N\$350-m); Vote 18 - N\$53.998-m (N\$53.998-m); Vote 24 - N\$779.939-m (N\$1,055,054,000); Vote 37 - N\$272.48-m (N\$244.658-m); Vote 38 - N\$22.399-m (N\$45.248-m). This additional development funding outside the SRF totals N\$1,478,816,000 in 2021/22 (N\$1,748,958,000 last year), according to the NPC. This raises the total development budget to N\$7,031,338,000 in 2021/22. In addition, the development allocation for Vote 17 is N\$5.7-m less than the N\$580.818-m listed in the NPC's development budget at the beginning of the year.

MIDYEAR REVISIONS: The development budget for 2021/22 was revised downward from N\$5.5-b to N\$5.2-b, with a realized saving of N\$290.8-m, of which N\$11-m was re-allocated back to Development Budget - all to Vote 39 - and the remaining N\$279.8-m was reallocated to the operational budget "to cater for critical needs", according to the Ministry of Finance's midyear budget document.

MIDYEAR DISCREPANCIES: There are discrepancies for four votes between their original allocations for 2021/22 as stated in the main budget and their original allocations as stated in the midyear budget: Vote 27 - N\$15.429-m in the main budget but N\$13.429-m according to the midyear budget (N\$2-m less); Vote 31 - N\$10-m in the main budget but N\$9-m in the midyear budget (N\$1-m less); Vote 37 - N\$392.426-m in the main budget, but N\$347.772-m in the midyear budget (N\$44.65-m less); Vote 38 - N\$264.603-m in the main budget, but N\$259.929-m in the midyear budget (N\$4.67-m less). The inside SRF development total of N\$5.505-b at the beginning of 2021/22 according to the midyear budget document is therefore N\$52.028-m less than the N\$5.5575-b according to the main budget book at the beginning of the year. This is either due to errors in data capture or misallocations not clarified in the midyear budget statement.

emptiness

opment expenditure of N\$5.7-b (excluding foreign inputs) was N\$2.2-b or 28% below what had initially been voted at the beginning of that year.

The economic cluster's actual N\$3.6-b development expenditure in 2019/20 was over 27% below its original N\$4.965-b allocation, contributing the biggest, 62% to the overall N\$2.2-b reduction in actual expenditure, but still accounting for 63% of the lowered total.

Midyear in 2019/20, the economic cluster suffered a 10.63% midyear reduction on its original N\$4.965-b development allocation, contributing the biggest, 52.8% share of the overall N\$1-b development cutback.

The economic cluster's revised N\$3.9-b development expenditure in 2020/21 was N\$305-m or 8.4% higher than 2019/20's actual N\$3.6-b.

The transport & industrial economic sub-cluster

The *Tender Bulletin* groups the economic cluster into two sub-clusters:

* industrial (transport, mining, energy and industrial); and

* the green economy (agriculture, environment, land reform, water, fisheries, etc).

We continue our procurement guide this week to the Namibian Government's 2021/22 national development expenditure estimates with a detailed examination of projects in the industrial sub-cluster consisting of:

* Vote 15 - Mines & Energy;

* Vote 17 - Urban & Rural Development;

* Vote 19 - Industrialisation & Trade; and

* Vote 24 - Transport.

The Urban & Rural Development Vote was covered separately last week because of its large number of projects - 136 (*Bulletin 1431*).

The industrial, mining, energy and transport sub-cluster's development expenditure traditionally accounts for the bulk of the economic cluster as a whole, translating into 81% or N\$2.78-b for 187 projects out of the economic cluster's N\$3.435-b spread across 248 projects after midyear in 2022/22.

At the beginning of the year, the industrial sub-cluster accounted for 80.34% or N\$2.9-b of the economic cluster's N\$3.6-b - significantly higher than in 2020/21 (revised), when it accounted for a more traditional 67% of the economic cluster's N\$3.9-b with its N\$2.6-b.

In 2019/20, the industrial sub-cluster's revised N\$2.5-b for 185 projects accounted for just over 70% of the economic cluster's N\$3.6-b - also for 248 projects.

Nationally, the industrial sub-cluster's N\$2.78-b development budget after 2021/22's midyear revisions accounts for 53% of the N\$5.2-b total, compared to 52.8% at the beginning of the year, when it had an allocation of N\$2.9-b out of the N\$5.5-b grand total.

According to 2020/21's revised expenditure, the industrial sub-cluster accounted for a much lesser 40.7%, with N\$2.6-b out of the N\$6.456-b overall development budget, compared to 2019/20's N\$2.5-b, which accounted for 43.5% of N\$5.8-b.

Excluding the Urban & Rural Development Vote, the industrial cluster's 51 projects in 2021/22 is in line with 50 projects last year, fewer than 2019/20's 54 - significantly less than 2018/19's 75, 42 of which were scaled back midyear, when the cluster's budget for capital development projects was reduced by N\$750.5-m or 30.2% from N\$2.5-b to N\$1.7-b midyear - above the overall national development budget's reduction of 24.5% or N\$1.8-b from N\$7.3-b to N\$5.56-b.

The industrial sub-cluster's N\$2.8-b original allocation within Namibia's

N\$7.9-b domestically-funded development budget gave it a 35.4% share at the beginning of 2019/20, reduced to 33.6% after the combined allocations of the four votes was reduced by nearly 18% to N\$2.3-b midyear, contributing the biggest share of 47.5% to the N\$1-b reduction in capital project expenditure nationally.

The industrial cluster's N\$126.5-m reduction contributed 45% in 2021/22's N\$280-m midyear cutback in the development budget.

The cluster's original N\$2.8-b allocation in 2019/20 had been a healthy 65% more than 2018/19's midyear revised N\$1.7-b (excluding foreign grants and loans), after it was cut back by 30% from its original N\$2.48-b allocation at the beginning of the year.

Counting projects in the economic cluster

The economic cluster's ten votes have 248 projects under implementation in 2021/22, the same number as in 2019/20, but less than last year's 254.

This is much the same as 2018/19's 247, 129 or 52% of which were cut back midyear - the last time that such mid-year-affected projects were identified in the midyear budget.

The industrial sub-cluster's 187 projects under implementation in 2021/22 constitute the bulk of the economic sector's 248 projects, most of which resort under Urban & Rural Development by number (136), although the Transport Vote's 30 projects account by far for most in terms of value.

The industrial cluster's count of projects has remained constant over recent years - 187 this year, the same as last year, 185 in 2019/20 and 187 in 2018/19 - always led by Urban & Rural Development by number and by Transport in terms of value.

Earlier cutbacks in the industrial cluster

The industrial cluster also suffered the biggest hit in the Namibian central government's development project suspensions for 2018/19, contributing 42% to the N\$1.8-b cutback to its N\$7.3-b initial development budget.

The 24.4% cutback to overall development expenditure from what was voted at the beginning of the year lowered project spending to a revised N\$5.6-b, reducing the cluster's share from 34% originally to 31%.

Most of the reduction in project expenditure was culled from the Transport Vote, which lost N\$691-m or 31% of its original N\$2.2-b allocation, the remaining N\$1.5-b still accounting for the highest share of all development expenditure amongst the 35 votes - as is always the case.

Coming in the midst of a protracted economic recession, the culling of fixed investment expenditure in productive areas such as mines, energy, industry and transport projects was especially lamentable considering that no spending suspensions were made in the security cluster which contributes nothing to economic growth or development.

Although the security cluster's development budget was cut back midyear in 2019/20, it was by a moderate 6.98% or N\$95.255-m to N\$1.269-b, contributing only 9.5% to the N\$1-b overall reduction in capital project spending, compared to the mining, industrial and transport cluster's 47.5%.

Previous development allocations to the industrial cluster

While the original N\$7.8-b development budget in 2018/19 was 24% higher than 2017/18's revised N\$6.3-b, the N\$413-m project

Including foreign loans, the Transport Vote has N\$3-b to spend on 30 projects after midyear in 2021/22 - almost half of the N\$6.7-b national development budget including foreign funding, two thirds of the economic cluster's N\$4.55-b and 82% of the industrial sub-cluster's N\$3.65-b - when foreign funding is included.

funding for the industrial cluster was 39.5% higher than 2017/18's revised N\$296-m, its share of the overall development budget increasing from 3.4% to 4.7% - driven mainly by increased spending on Mines & Energy (Vote 15).

However, 2018/19's original project funding for Industrialisation, Trade & SME Development (Vote 19) shrank by 34%, while Mines & Energy had 55% more to spend - compared to 2017/18's revised allocations and 2018/19's original development expenditure ceilings.

This was in line with the Namibian government's continued promotion of the extraction of raw minerals at the expense of deepened, homegrown industrialization and manufacturing (*Bulletin 1218*) and was further reinforced by 2018/19's milder midyear 0.6% cutback in project funding for Mines & Energy, compared to a 2.7% haircut for Industrialisation, Trade & SME Development.

Industrial underdevelopment

As noted over past years, official development policies in the mining sector focus on the continued and expanded exploitation of Namibia's raw minerals by foreign multinationals - aided by homegrown compradors - without beneficiation, in addition to the rampant speculation with exploration and mining concessions for the private enrichment of a handful of politically connected players.

In the quarrying and associated building materials sectors, considerable manufacturing potential lies untapped to supply government's mass public housing initiatives that are instead being pursued with inputs from imported supplies.

In the energy sector, industrialization opportunities are being overlooked in the creation of electrification networks to power rail transport, as well as alternative energy projects with potential for considerable local manufacturing inputs instead of imported components.

In the case of Industrialization, Trade & SME Development, the emphasis remains on rudimentary processing of agricultural products and gemstones and providing light manufacturing, repairs and maintenance inputs to the tertiary industrial sector.

The upshot of all this is that while large-scale industrial minerals (and fisheries)-based industrial linkages are largely overlooked, trade continues to trump manufacturing, instead of which turbo-charged SME tenderpreneurial procurement promotion erodes

established businesses through the mercantilist displacement of existing trade linkages rather than diversification of the narrow manufacturing base (*Bulletin 1218*).

This emphasis on trade within the development budget, reflects and reinforces Namibia's dependency on imports for consumer consumption as well as tertiary industrial inputs (*Bulletin 1191*).

But neither job creation nor the multiplication of SME businesses translate automatically into economic development, which is (qualitatively) different from (quantitative) GDP growth, and which is currently prioritized at the expense of the former.

In the context of the government's existing development paradigm, its manufacturing projects consist largely of secondary processing in agriculture, fishing, textiles, gemstones and jewelry, while trade projects target tourism and crafts.

The development budget for the country's two key primary economic resource sectors - mining and fishing - also reflects official ongoing support of value extraction by foreign firms in these essentially enclave sectors - at the expense of inward industrialization, manufacturing and value-addition (*Bulletin 1218*).

In 2015 fishing and mining sectors accounted for 63% of Namibia's export earnings, with mining contributing about 50% on its own.

Yet their contribution to GDP was little more than 15% (mining 11.5%) - a gap reflecting the accrual of locally extracted value in foreign hands.

On the other hand, mining generates about 25% of government revenue in its predominantly extractive form - leaving the potential of revenue from minerals beneficiation untapped (*Bulletin 1191*).

Industrial initiatives outside the development budget

Yet, the central government has launched two mega industrial initiative during the 2021/22 financial year outside the ambit of the formal development budget - the Walvis Bay Industrial Development Initiative (WIDI) and the Green Hydrogen Project in the southern desert near Lüderitz.

Neither of these projects is included in the National Planning Commission's development budget but both are driven by the newly established Namibia Investment Promotion Board - co-located in the Presidency with the NPC.

Continuing on last year, Chinese contractors are working on five of the Transport Vote's biggest seven projects in 2021/22 (they were five of the biggest six last year). These five projects total N\$924.456-m in 2021/22 (N\$2.4-b last year).

FROM PREVIOUS PAGE

Both these new projects highlight the government's shift to a neo-liberal mindset in which domestic industrial development is outsourced to foreign public private partnerships.

This policy only serves to deepen the externalisation of profits by foreign multinationals who will now drive Namibia's major industrialization initiatives – in addition to their dominance of the extractive sectors such as minerals and fisheries – with the energy sector now included.

The WIDI

As we reported in *Bulletin 1424* (26-Nov-21), the Walvis Bay Industrial Development Initiative (WIDI) tender was launched as an expression of interest for investors to partner with the government in the National Single Window, the New Container Terminal at the Port of Walvis Bay and the Special Economic Zone in Walvis Bay, closing 30 October – without having been widely publicized.

The EOI was issued by the Namibia Investment Promotion & Development Board only on its website on 04 October.

The EOI sought a WIDI partner involving Namport's New Container Terminal (NCT) at the Port of Walvis Bay, under the development of a Special Economic Zone (SEZ).

As part of Namibia's "ambition to develop into a regional logistics hub, a National Single Window (NSW) has also become a priority project and is being considered alongside the devel-

opment of a SEZ and the management of the NCT by private developers and operators respectively", according to the tender notice.

The SEZ's purpose is to "aid the conversion of Namibian raw materials and resources to finished and semi-finished products and components as part of the nation's drive to diversify Namibia's economy".

WIDI consists of three project components:

- (1) management and operation of the existing NCT at the Port of Walvis Bay by a private operator;
- (2) development and deployment of an NSW facility;
- (3) development and operation of a SEZ near Walvis Bay.

The EOI, launched on 30-Aug-21 – two months before the notice was published by the NIPDB – invited "leading global developers and operators with significant capability and well proven experience in port and container terminal management, shipping and logistics sector operations, developers and operators of special economic zones and business development experts ... to partner with government in the WIDI."

A National Coordinating Committee, led by the NIPDB, was constituted "to identify and approach global market leading operators, and to facilitate the EOI from potential operators and developers on behalf of the government" – with little public accountability.

Green hydrogen

The other mega project was reported in *Bulletin 1427* (17-Dec-21), when a German-UK

One third of Transport's development budget

firm, Hyphen Hydrogen Energy was announced as the successful bidder to implement the gargantuan N\$150-b green hydrogen project in the southern Namib desert near Lüderitz, promising N\$12.8-b in annual revenues and thousands of jobs.

The Namibian government had issued a notice of award to appoint Hyphen Hydrogen Energy as preferred bidder to develop the country's ambitious large-scale vertically integrated green hydrogen project in the Tsau /Khaeb national park (the former Sperrgebiet diamond mining territory).

The project, worth an estimated US\$9.4 billion (N\$150-b) roughly equals Namibia's entire GDP and will ultimately produce 300,000 tons of green hydrogen annually for regional and global markets, either as pure green hydrogen or in derivative form (green ammonia).

The ambitious green hydrogen programme includes a desalination plant powered by wind energy, deepening of the Lüderitz harbour and the export of vast quantities of hydrogen fuel and ammonia fertilizer with expectations of up to US\$9.4-b foreign direct investment and US\$800-m annual revenues.

The project envisages producing 300,000 tonnes of green hydrogen annually for regional and global markets either as pure green hydrogen or its green ammonia derivative.

As in the case of the WIDI initiative, the green hydrogen programme is driven and financed outside the scope of the development budget – with little public accountability.

Foreign-funded development

Within the development budget, apart from Education, Arts & Culture's N\$350-m AfDB loan tranche this year (same in 2020/21), all development finance outside the State Revenue Fund goes to the economic cluster:

Those votes receiving development funding outside the SRF in 2021/22 (compared to 2020/21) are:

- * Environment, Forestry & Tourism (Vote 18) - N\$53.998-m (N\$53.998-m last year);
- * Transport (Vote 24) - N\$779.939-m (N\$1,055,054,000);
- * Agriculture & Land Reform (Vote 37) - N\$272.48-m (N\$244.658-m); and
- * Water (Vote 38) - N\$22.399-m (N\$45.248-m).

This additional development funding outside the SRF totals N\$1,478,816,000 in 2021/22 (N\$1,748,958,000 last year), according to the National Planning Commission, raising the total development budget to N\$7,031,338,000 in 2021/22.

In addition, the development allocation for Urban & Rural Development is inexplicably N\$5.7-m less than the N\$580.818-m listed in the NPC's development budget at the beginning of the year.

The Urban & Rural Development Vote has no foreign development funding inputs.

Transport's foreign funding

The Transport Vote's N\$780-m (or N\$873.5-m) externally funded projects under implementation in 2021/22 accounts for 53% of all N\$1,478-b foreign development inputs in the development budget.

Last year, the Transport Vote's N\$1.05-b foreign development funding

STATE REVENUE FUND: All amounts are inside the State Revenue Fund. Amounts for votes marked * exclude additional foreign funding outside the State Revenue Fund in 2021/22 and last year (2020/21): Vote 10 - N\$350-m (N\$350-m); Vote 18 - N\$53.998-m (N\$53.998-m); Vote 24 - N\$779.939-m (N\$1,055,054,000); Vote 37 - N\$272.48-m (N\$244.658-m); Vote 38 - N\$22.399-m (N\$45.248-m). This additional development funding outside the SRF totals N\$1,478,816,000 in 2021/22 (N\$1,748,958,000 last year), according to the NPC. This raises the total development budget to N\$7,031,338,000 in 2021/22. In addition, the development allocation for Vote 17 is N\$5.7-m less than the N\$580.818-m listed in the NPC's development budget at the beginning of the year.

MIDYEAR REVISIONS: The development budget for 2021/22 was revised downward from N\$5.5-b to N\$5.2-b, with a realized saving of N\$290.8-m, of which N\$11-m was re-allocated back to Development Budget - all to Vote 39 - and the remaining N\$279.8-m was reallocated to the operational budget "to cater for critical needs", according to the Ministry of Finance's midyear budget document.

MIDYEAR DISCREPANCIES: There are discrepancies for four votes between their original allocations for 2021/22 as stated in the main budget and their original allocations as stated in the midyear budget: Vote 27 - N\$15.429-m in the main budget but N\$13.429-m according to the midyear budget (N\$2-m less); Vote 31 - N\$10-m in the main budget but N\$9-m in the midyear budget (N\$1-m less); Vote 37 - N\$392.426-m in the main budget, but N\$347.772-m in the midyear budget (N\$44.65-m less); Vote 38 - N\$264.603-m in the main budget, but N\$259.929-m in the midyear budget (N\$4.67-m less). The inside SRF development total of N\$5.505-b at the beginning of 2021/22 according to the midyear budget document is therefore N\$52.028-m less than the N\$5.5575-b according to the main budget book at the beginning of the year. This is either due to errors in data capture or misallocations not clarified in the midyear budget statement.

SOURCES: Ministry of Finance Estimates of Revenue, Income and Expenditure 2021/22 - 2023/24, National Planning Commission's Development Programmes Estimates of Expenditure 2021/22 -2023/24 and Ministry of Finance's midyear budget. © Market Namibia Tender Bulletin / Collective Resources

this year - N\$923.6-m - flows to China

accounted for 58.8% of the N\$1.7-b national total in external funding deployed, the balance allocated to only three votes:

- * Education - N\$350-m;
- * Environment, Forestry & Tourism - N\$54-m;
- * Water (new Vote 37) - N\$244.658-m.

In 2019/20, five votes had foreign funding components (grants, loans and unspecified) in their development budgets in addition to Transport: Education, Arts & Culture; Gender Equality & Child Welfare; Environment & Tourism; Agriculture, Water & Forestry; Land Reform.

The bulk of these foreign financial inputs in 2020/21 and the previous year were sourced through AfDB loans, German loans and grants and Chinese loans and grants (although the budget consistently fails to mention China).

As we noted in *Bulletin 1372*, the Transport Vote is the only one within the industrial cluster with a foreign funding component in its development programme this year, as is the case traditionally.

Foreign funding is grossly under-reported in 2021/22's development budget - consistent with the budget's redacted format in which project totals and associated foreign inputs are no longer disclosed.

Foreign development funding under-reported

According to the 2021/22 development budget, only two of the Transport Vote's 30 projects with a combined expenditure of N\$1.38-b this year have foreign inputs totaling N\$873.6-m (which, although more than the N\$780-m recorded in the budget's summary table, is still not the full picture):

- * the AfDB's N\$350-m loan tranche for the Windhoek - Hosea Kutako dual carriage highway; and
 - * the AfDB's N\$523.6-m loan tranche for upgrading the Walvis Bay - Kranzberg railway.
- Both these loans are outside the State Revenue Fund.

But the development budget makes no mention of the N\$60-m KfW loan for the construction of gravel road D3622 between Omukukutu and Omboloka in the Ohangwena Region.

In 2020/21, five of the Transport Vote's projects with a combined expenditure of N\$2.16-b, had foreign funding components, of which the KfW loan-funded project was one:

- * N\$16-m for the construction of gravel road D3622 from Omukukutu to Omboloka (25km) in Ohangwena Region: of the N\$185.9-m project total, N\$60-m was supported by a KfW loan for construction and feasibility studies outside the SRF;
- * N\$29.05-m for the construction of access roads to schools and clinics: out of the N\$302.4-m project total, N\$120-m was supported by an unidentified German grant outside the State Revenue Fund;
- * N\$291-m for the rehabilitation of the Windhoek - Okahandja road (67km): of the N\$3.46-b project total, N\$151.857-m was supported by unspecified KfW funding, without an indication of whether this is inside or outside the SRF;
- * N\$587-m for upgrading the Windhoek - Hosea Kutako road to dual carriageway (44km): of the N\$4.07-b project total, N\$1.6-b was financed through an AfDB loan outside the SRF;
- * N\$1.238-b for the Walvis Bay - Kranzberg railway upgrade: of the N\$3.77-b project total, N\$1.65-b was financed through an AfDB loan outside the SRF.

All five these projects are still under implementation in 2021/22, but except of the two listed above, the

foreign inputs for the other three are not disclosed.

While it escaped any midyear budget revisions in 2020/21, the Transport Vote's domestically funded development budget (inside the State Revenue Fund) was cut back from N\$2.535-b by 13.7% or N\$347.6-m midyear in 2019/20 to N\$2.188-b, its share of the industrial cluster rising significantly from 90.7% at the beginning of the year to 94%, while its share of the total development budget fell marginally from 32% to 31.7%.

The predominance of Transport

Including its foreign loans of N\$873.6-m (which are understated in the budget's detailed project listing), the Transport Vote's N\$3-b development budget after midyear in 2021/22 is 4.6 times more than the N\$645.5-m the remaining three other votes have for capital projects.

Excluding Transport's foreign loans, its N\$2.1-b development budget after midyear is 3.3 times more than the rest of the industrial cluster.

Including foreign grants and loans of N\$653-m, the Transport Vote on its own started 2019/20 with N\$3.2-b.

Since it could be safely presumed that this foreign-funded component was not scaled back midyear in 2019/20 (because the midyear budget document excluded capital project funding outside the SRF), this left Transport (Vote 24) with an adjusted post-midyear development budget of N\$2.84, which actually exceeded the entire industrial cluster's domestically-funded midyear N\$2.3-b total.

This was repeated in 2020/21, when Transport's development expenditure totaled N\$3.03-b - N\$1.977-b domestic funding plus N\$1.055-b foreign funding - all unaffected midyear. This N\$3.03-b exceeded the entire industrial cluster's N\$2.6-b post-midyear domestically-funded total and was four times more than the N\$651.5-m combined budget of the three non-Transport votes.

In 2019/20, the foreign funding component in the Transport Vote increased from 20.5% of its development ceiling in the beginning of the year to 30% after the midyear reduction - affecting only its domestically-funded component.

The Transport Vote's N\$1.05-b or 33% foreign-funded component in its N\$3-b development ceiling in 2020/21 was higher than 2019/20's 30% and equaled that of 2018/19.

And with most of transport's major infrastructure projects awarded to Chinese contractors, this increases national debt, externalizes profits and deepens Namibia's underdevelopment even further.

Transport

Vote 24 is traditionally the biggest single recipient of development funding, whether measured in terms of domestic or foreign funding, both nationally and within the mining, industrial and transport cluster.

Including foreign loans, the Transport Vote has N\$3-b to spend on 30 projects after midyear in 2021/22 - almost half of the N\$6.7-b national development budget including foreign funding, two thirds of the economic cluster's N\$4.55-b and 82% of the industrial sub-cluster's N\$3.65-b - when foreign funding is included.

This is after its initial N\$2.2-b domestically-funded allocation at the beginning of the year - accounting for 40% of the N\$5.5-b national total,

N\$1.724-b (N\$1.479-b last year) has been voted for the five rail projects in 2021/22. How many have been awarded to Chinese contractors has not been announced.

60.76% of the N\$3.6-b economic cluster total and 76% of the N\$2.9-b industrial sub-cluster's allocation - was cut back by N\$63-m or 2.86% midyear - less than the 5% reduction in the national and economic cluster totals and 4.35% reduction in the industrial sub-cluster's development allocation.

Transport's development budget at the beginning of 2021/22 was 11.25% or N\$222.454-m more than its N\$1.977-b revised domestic allocation last year, when it accounted for a much lesser 30.6% of the N\$6.456-b national total, 50.4% of the N\$2.6-b economic cluster total and 76% of the N\$2.6-b industrial total.

At the beginning of 2020/21, Vote 24 had N\$3.03-b to spend on 29 projects (all ongoing) - N\$1.9775-b financed domestically inside the State Revenue Fund and N\$1.055-b funded outside the SRF, most of it in loans.

In terms of domestic funding alone, Transport accounted for 30.38% of the national N\$6.5-b development budget total and with external financing added, it accounted for 36.9% of the N\$8.2-b overall voted development total in 2020/21.

Its capital projects ceiling was not affected in 2020/21's midyear adjustments, causing its share of the domestically-funded total to fall marginally from 30.85% to 30.38% - largely as a result of the Education Vote's additional midyear funding boost.

Inside the SRF, Transport's allocation last year was 4.13% higher than 2019/20's N\$1.899-m spread across 30 projects (two of which were new).

Its N\$1.05-b foreign-funded allocation in 2020/21 year was 61.56% higher than 2019/20's N\$653-m.

Combining domestic and foreign funding, Transport's N\$3.03-b development budget in 2020/21 was 6.7% higher than 2019/20's N\$2.84-b.

Excluding foreign funding, Transport's N\$1.977-b share of the industrial cluster's post-midyear N\$2.629-b total in 2020/21 was 75.22% - higher than its 74.22% share of the cluster's initial N\$2.664-b, prior to the cutbacks affecting all votes except Transport.

As a share of the economic cluster's domestically funded development expenditure, Transport accounted for slightly over half the N\$3.927-b total at the beginning of 2020/21 and N\$3.9-b after midyear.

In 2019/20, Transport had a post-midyear development budget of N\$2.84-b to spend on 30 projects, which actually exceeded the entire industrial cluster's domestically-funded midyear N\$2.3-b.

Of this N\$2.84-b, N\$2.2-b was financed domestically inside the State Revenue Fund, comprising 94% of the mining, industrial and transport cluster and 31.7% of the national development budget, compared to 90.6% of the cluster's

total at the beginning of the year and 32% of the national total - higher post-midyear in both measures because of the cutbacks in the other votes within the cluster.

Unlike 2020/21 when it suffered no midyear cutbacks, the Transport Vote's 13.7% midyear reduction on its initial N\$2.5-b allocation in 2019/20 (domestically financed) allocation to N\$2.187-b midyear contributed 34.77% - the biggest contributor in absolute and relative terms - to the N\$1-b cutback in national development spending to N\$6.9-b.

Sadly, in relative terms, its reduction in project expenditure midyear in 2019/20 was ahead of only the health and welfare cluster which sacrificed 21% of its development budget midyear in 2019/20 after its original allocation was reduced by 43% to N\$276-m, compared to Transport's 17% cutback.

In 2018/19, Transport's original N\$2.2-b was cut by N\$691-m or 31% to N\$1.5-b, with over half - 27 - of its 44 projects scaled back. The number of its projects affected midyear in 2019/20 and since have not been disclosed.

In 2018/19, the midyear reductions to the Transport Vote contributed 38.6% - the most - to all N\$1.8-b midyear development suspensions for that year, with its share of development spending declining from 30.5% at the beginning of 2018/19 to 27.8%.

Chinese implement most of Transport's biggest projects

Continuing on last year, Chinese contractors are working on five of the Transport Vote's biggest seven projects in 2021/22 (they were five of the biggest six last year).

These five projects total N\$924.456-m in 2021/22 (N\$2.4-b last year):

- * N\$923.6-m for the Walvis Bay - Kranzberg rail upgrade, supported by a N\$523.6-m AfDB loan tranche (N\$1.238-b last year) - the biggest rail project this year;
- * N\$456.326-m for the Windhoek - Hosea Kutako International Airport highway, supported by a N\$350-m AfDB loan tranche (N\$587-m last year) - the biggest road project this year;
- * N\$200-m for the Swakopmund - Henties Bay - Kamanjab road (N\$116.1-m last year);
- * N\$200-m for the Windhoek - Okahandja highway upgrade (N\$291-m last year); and
- * N\$150-m for the Walvis Bay - Swakopmund road upgrade (N\$185-m last year).

This translates into 31% of the Transport Vote's N\$3-b development budget in 2021/22, compared to the 80% these same projects comprised of Transport's same, N\$3-b development budget last year.

This means N\$923.6-m of the Transport Vote's development budget is flow-

TO NEXT PAGE

Almost one third - N\$923.6-m - of the Transport Vote's development budget is flowing to Beijing in 2021/22, compared to N\$2.4-b last year - out of N\$3-b each in both years.

SPECIALIST DISTRIBUTORS OF FLEXIBLE HOSE & FITTINGS

WE OFFER A VARIETY OF INDUSTRIAL, AGRICULTURAL AND MINING HOSES & FITTINGS AND ALLIED PRODUCTS LIKE:

- WELDON FITTINGS ● GALVANISED PIPES & FITTINGS
- NOZZLES ● FLOW METERS ● SPECIAL FABRICATED PIPES & FITTINGS ● VALVES ● ZENNER & ISO WATER METERS
- CASCADE REPAIR CLAMPS & SADDLES ● HAND PUMPS
- IRRIGATION SYSTEMS ● PVC HOSES & FITTINGS
- SUBMERSIBLE & BOOSTER PUMPS ● HDPE & LDPE POLY PIPES ● RUBBER SHEETS & HOSES ● PLASTIC WATER TANKS
- AIR & FUEL QUICK COUPLINGS & FITTINGS ● PETROL & DIESEL PUMPS ● PETROLIC FITTINGS ● PETROL & DIESEL GENSETS ● ARKAR FILTERS ● REFUSE BINS AND MANY MORE

Transport's biggest road project this year is N\$456.326-m for the Windhoek – Hosea Kutako International Airport highway, supported by a N\$350-m AfDB loan tranche (N\$587-m last year).

FROM PREVIOUS PAGE

ing to Beijing in 2021/22, compared to N\$2.4-b last year – out of N\$3-b each in both years.

As was the case last year, there could be more projects awarded to Chinese contractors that have not been made public – including the Gobabis-Aminuis-Aranos and Gobabis-Grootfontein roads.

The contract for trunk road 14/2: Gobabis – Grootfontein Phase 2, Section A: Otjinene – Okamatapi (127.6 km) was awarded in 2014 to a joint venture involving China Henan International Cooperation Group, completed in 2016, although this project is not on the Transport Vote's development programme currently.

The prevalence of Chinese contractors on Transport's road and rail projects is also a repeat of 2019/20 when most of Transport's biggest projects for the year had also Chinese contractors working on them – a continuation of 2018/19 when six of its biggest seven projects, totaling over N\$2.4-b had been awarded to Chinese contractors.

Of the 30 projects under implementation by the Transport Vote in 2021/22, 13 are for roads (12 last year), five for railway upgrades (unchanged) and six for aviation infrastructure (unchanged).

Transport's other big projects

N\$1.724-b (N\$1.479-b last year) has been voted for the five rail projects in 2021/22, the total cost of which was N\$14.396-b when project totals were disclosed for the last time in 2020/21.

Except for the Walvis Bay – Kranzberg upgrade, how many others have been awarded to Chinese contractors has not been announced:

- * N\$200-m for railway network upgrading (same as last year); this project totaled N\$5-b last year (total no longer disclosed) – Transport's biggest project in terms of total cost;
- * N\$36-m for the northern railway upgrading (N\$1.5-m last year; when the project totaled N\$2.8-b, but is no longer disclosed);
- * N\$42.575-m for the southern railway rehabilitation (N\$39.3-m last year, when the project totaled N\$1.4-b, but is no longer disclosed);
- * N\$101.2-m for the Aus-Lüderitz rail upgrade (only N\$700,000 last year when the project totaled N\$1.3-b, but is not longer disclosed; and
- * N\$923.6-m for the Walvis Bay – Kranzberg rail upgrade (N\$1.238-m last year, when the project totaled N\$3.77-b, but is no longer disclosed) – supported by a N\$523.6-m AfDB loan tranche (out of N\$1.6-b outside the SRF), how much of which was deployed last year was not disclosed.

This is also Transport's biggest project in terms of voted expenditure in 2021/22 as it was last year and its third-biggest in terms of project totals (no longer disclosed).

Transport's second biggest project total (as disclosed in 2020/21 for the last time) is N\$4.069-b for the Windhoek Hosea Kutako Airport highway construction, for which N\$456.326-m has been voted in 2021/22 (N\$587-m last year).

This project is supported by a N\$1.6-b AfDB loan outside the SRF, N\$350-m of which is deployed in 2021/22 but how much of which was deployed last

year was not disclosed. All phases of this project have been executed by Chinese contractors, in addition to this year's final phase that is fully funded by a N\$1.035-b grant from Beijing in addition to the AfDB loan applied to the other sections.

Transport's fourth-biggest capital development project totals N\$3.46-b for the Windhoek – Okahandja highway construction (when project totals were last disclosed), for which N\$200-m (N\$291-m last year) has been voted in 2021/22.

This project is supported by a N\$151.857-m loan from Germany's KfW, how much of which is being deployed last year is unclear, and of which no mention is made in this year's budget. This project was awarded to a Chinese contractor.

For the record, when project totals were last disclosed in 2020/21, there were five further projects totaling over N\$1-b – four of which involve road construction:

- * N\$1.299-b for general road maintenance, for which N\$15-m has been voted in 2021/22 (same as last year);
- * N\$1.24-b for the Gobabis – Aminuis – Gobabis MR40 road upgrade, for which N\$120-m has been voted in 2021/22 (N\$90-m last year) – contractor not announced;
- * N\$1.216-b for the Swakopmund – Henties Bay – Kamanjab road, for which N\$200-m has been voted in 2021/22 (N\$116-m last year) – awarded to a Chinese contractor;
- * N\$1.215-b for the Swakopmund – Walvis Bay MR44 road, for which N\$150-m has been voted in 2021/22 (N\$185-m last year) – awarded to a Chinese contractor;
- * N\$1.2-b for aviation infrastructure upgrades, for which N\$4.45-m has been voted in 2021/22 (N\$10-m last year) – contractor not announced.

N\$300-m has been voted for the Transport Vote's only new project in 2021/22. Financed by the Road Fund Administration, the project is for "major roads projects and honoring their outstanding payments" which in 2021/22 will involve "complete planned activities and settle accounts".

All in all, N\$1.568-b has been voted for thirteen road projects in 2021/22 (N\$1.44-b last year), six of which are specifically in the northern regions, costing N\$127-m compared to twelve road projects last year, seven of which were in the northern regions, costing N\$173-m, compared to three out of ten road-building projects in 2019/20.

To summarise, nine of the 30 Transport Votes under implementation in 2021/22 cost upwards of N\$100-m, with a further eight consuming above N\$10-m.

Mines & Energy

In a distant third place amongst the four votes in the industrial cluster behind Urban & Rural Development, Mines & Energy (Vote 15) has N\$68.3-m to spend on fourteen projects in 2021/22, accounting for 2% of the economic cluster's N\$2.78-b after midyear, after its N\$81.3-m allocation at the beginning of the year was cut by N\$13-m or 16% – four times the 4.35% cutback to the industrial sub-cluster's project budget and almost eight times more than Transport's 2.86% cutback.

In the process, Vote 15's share of the economic cluster fell from 2.25% at the beginning of the year, and left it with less than its revised N\$70-m allocation

Mines & Energy's biggest project this year

last year – after starting the year with more than last year.

Its N\$81.3-m projects budget at the beginning of 2021/22 had been an N\$11.3-m or 16% increase on 2020/21's revised N\$70-m – the biggest in the industrial cluster.

It had accounted for 1.8% of 2020/21's N\$2.6-b total for the economic cluster as a whole – lower than its current 2% share.

Mines & Energy's N\$70-m development budget (also for fourteen projects) in the second half of 2020/21, resulted from its initial N\$85-m being reduced by N\$15-m or 17.65% midyear in October 2020, lowering its share of the industrial cluster from 3.2% to 2.66%, its share of the economic cluster from 2.16% (of N\$3.927-b) to 1.79% (of N\$3.921-b).

Vote 15 started 2019/20 with N\$120.56-m spread across fifteen projects, accounting for 4.3% of the N\$2.8-m cluster total.

This was scaled back by 47% or N\$56.8-m midyear to N\$63.76-m, contributing 5.68% to the N\$1-b overall development budget reduction and accounting for 2.75% of the revised N\$2.3-b cluster total.

This midyear cutback was much worse than 2018/19's 12% or N\$11.35-m reduction to N\$82.5-m, with six of its sixteen projects scaled back.

Vote 15's original allocation at the beginning of 2018/19 had been a generous 55% more than 2017/18's revised N\$80-m for fifteen projects (only one of which was affected that midyear).

As has been the case for the past six years since fiscal 2015, there are no new projects in the Mines & Energy Vote in 2021/22.

Vote 15's biggest project by far in 2021/22 is N\$44-m for rural electrification in //Kharas, Oshana, Otjozondjupa, Kavango West, Khomas, Ohangwena and Omaheke regions.

This also its biggest project in 2020/21, when N\$53-m was voted for rural electrification in all regions except Khomas, with a total project cost of N\$885-m – its biggest project overall – in line with 2019/20's N\$54-m, N\$50-m in 2018/19 and 2017/18's N\$50.4-m.

Between N\$1-m and N\$3.5-m has been voted for Mines & Energy's remaining thirteen projects this year.

Industrialization & Trade

Ranked in its usual fourth and last place in the sub-cluster, Industrialisation & Trade (Vote 19) has N\$45-m to spend on seven ongoing projects after midyear 2021/22, after its initial N\$47.6-m was cut back by N\$2.5-m or 5.25%, its share of the economic cluster remaining a constant 1.3% and its share of the industrial sub-cluster a constant 1.6%.

Vote 19's initial N\$47.6-m development allocation at the beginning of 2021/22 was N\$5.6-m or 13.3% more than last year's revised N\$42-m when it accounted for 1% of the economic cluster and 1.6% of the industrial sub-cluster.

The Industrialization & Trade Vote has seen its development budget reduced significantly over recent years and its project count fall from nineteen five years ago to only seven in 2020/21 and this year.

Its N\$42-m revised projects budget in 2020/21 resulted from a N\$10-m or 19% cutback midyear from its initial N\$52-m.

As a result, its share of the industrial cluster dropped from 1.95% of N\$2.664-b to 1.6% of N\$2.63-b and from 1.3% of N\$3.927-b to 1.07% of N\$3.921-b within the economic cluster as a whole.

Vote 19 was left with N\$64.4-m spread across the same number of seven projects – all ongoing – for 2019/20, after its original N\$130.4-m voted at the beginning of the year was cut back by N\$66-m or 50.6% midyear.

Its 4.6% share of the initial N\$2.8-b

cluster total was reduced midyear to 2.8% of the N\$2.3-b midyear adjusted cluster total contributing 6.6% to the overall N\$1-b cutback in development spending.

Its initial N\$130.4-m development budget at the beginning of the year was already 15.9% below 2018/19's revised N\$155-m, after which it had over 31% or N\$48.3-m of its 2018/19 allocation cut midyear to N\$106.7-m, affecting nine of its thirteen projects, contributing 2.7% to the overall N\$1.8-b reduction in development spending.

Its share of the 2018/19 development budget dropped from 2.12% at the beginning of the year to 1.92% midyear.

Vote 19 originally had N\$155-m to spend on thirteen projects in 2018/19, accounting for 1.98% of the N\$7.8-b development budget total.

This was 34% less than 2017/18's latest revised N\$235.95-m for nineteen projects when it had a 3.7% share of the revised N\$6.3-b grand total.

It started 2017/18 with N\$333-m to spend on nineteen projects, accounting for 4.83% of the original N\$6.9-b grand total.

However, its original allocation for 2017/18 was slashed by almost 21% midyear, affecting nine of its nineteen projects under implementation at the time.

In 2017/18's midterm development budget cuts, Vote 19 was also by far the hardest hit within the mining and industrial cluster – replicated over the following three years.

Its original funding in 2017/18 had been a healthy 85% increase on 2016/17's revised N\$179.6-m, accounting for 2.83% of all development spending.

But this was short-lived, since Vote 19's development budget for fiscal 2017 was reduced 54% to N\$179.6-m after those midyear suspensions, however, affecting all but one of its nineteen projects, with a 2.83% share of all development spending, marginally lower than fiscal 2016's 2.99%.

This means Industrialization & Trade's N\$45-m development budget in 2021/22 is less than a quarter of its N\$180-m six years ago in 2016/17 – reflecting the government's waning commitment in building domestic industrialization capacity.

For the past three years, all Vote 19's projects since 2018/19 were ongoing, compared to two new projects the year before.

Industrialisation & Trade's biggest project in 2021/22 is N\$16.5-m for the construction of industrial estates in //Kharas, Omusati, Oshikoto, Otjozondjupa, Zambezi, Erongo, Hardap and Kavango West.

This displaces last year's biggest project, when N\$20-m was voted for the ongoing construction of the Testing & Inspection Centre for Namibia Standards Institute in Walvis Bay, totaling N\$51-m – from N\$1.1-b in 2019/20, so it must have been scaled back considerably. Project totals are no longer disclosed in the development budget.

Measured last year, Vote 19's biggest project totals N\$11.1-b for the construction of industrial estates for which only N\$9-m was voted, compared to this year's N\$16.5-m.

N\$12-m has been voted in 2021/22 for the construction of garment factories in various regions – about which we know hardly anything and which seems to be somewhat superfluous.

This is because of the Defence Force's August 26 Textiles Company's monopolization of garment supplies to the government currently and the NDF's importation of uniforms from China – all without public tender.

Below is a project-by-project listing of the transport and industrial cluster's 2021/22 development budget currently under implementation. Refer to the accompanying key to abbreviations of

The central government has launched two mega industrial initiative during the 2021/22 financial year outside the ambit of the formal development budget - the Walvis Bay Industrial Development Initiative (WIDI) and the Green Hydrogen Project near Lüderitz – both with limited public knowledge or accountability.

is N\$44-m for rural electrification

procurement categories.

VOTE 15 - Mines & Energy

PROJECT 15/04/4 - Regional geochemical sampling survey in //Kharas

NPC CODE 1461: Survey planning, acquisition of sampling equipment, collection of samples, hiring personnel, preparation and analysis of samples, establish sample storage facility, data analysis and interpretation, map generation and establishment of geochemical database, capacity building and acquisition of field vehicles. 2021/22 - complete stream sediment and soil samples collection Warmbad & Oranjemund map sheets. Geochemical analysis of Okahandja map sheet using ICP and WD-XRF.

PURPORTED EXPENDITURE TO 2020/21 = N\$7,254,000

2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) = N\$2,000,000. EXPENDITURE COMPOSITION: OSP = N\$2,000,000.

PROJECT 15/04/6 - Geo-laboratories upgrading and staff training in Windhoek, Khomas Region

NPC CODE 4065: Replace old and unserviceable equipment, upgrade labs with modern equipment, hard-and software, arrange service contract for major instruments, acquire certified reference materials and standards for instrument calibration, up-to-date software and lab manuals, capacity building of lab staff, field vehicle for mobile analytical systems. 2021/22 - laboratory staff training on statistical method validation for geochemistry analytical techniques, to operate ASS and WD-XRF, refurbish XRF sample storage facilities and lab fume hoods.

PURPORTED EXPENDITURE TO 2020/21 = N\$11,710,000

2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) = N\$1,900,000. EXPENDITURE COMPOSITION: OSP = N\$400,000. OEMP = N\$300,000. CRI = N\$1,200,000.

PROJECT 15/04/3 - Seismology and ground geophysics (SGG), Khomas Region

NPC CODE 1460: Project aims to establish a national seismology observatory by expanding the current 7-station network to 33 stations. The Seismology Observatory will record and provide critical baseline seismological data to do research on the Namibian crust for seismic hazard profiling, earthquake monitoring, micro-seismic activity, induced seismicity and geoscientific research on the geodynamics of Namibia. 2021/22 - renovation of the Seismology Operations Centre at MME. Appoint temporary technical assistants to support clearing of dark room and renovation into an operational centre, support geotechnicians in establishing and building new stations and fine-tuning the new stations, building of seismic equipment control boxes, analyses of seismological data from the new stations and development of seismology data products. Presentation of first results of the Observatory at ASEG2021 CTBTO Science and Technology 2021 conferences.

PURPORTED EXPENDITURE TO 2020/21 = N\$11,564,000

2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) = N\$3,000,000. EXPENDITURE COMPOSITION: M&S = N\$300,000. OSP = N\$2,500,000. OEMP = N\$200,000.

PROJECT 15/03/1 - Small scale mining

NPC CODE 5273: Set up processing facilities for semi-precious stones and dimension stones in Khorixas. 2021/22 - finish construction in Khorixas, install equipment, transport equipment, train workers, purchase office furniture and stationery, design & printing of signs and brochures.

PURPORTED EXPENDITURE TO 2020/21 = N\$20,482,000

2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) = N\$3,500,000. EXPENDITURE COM-

POSITION: M&S = N\$100,000. OSP = N\$850,000. OEMP = N\$50,000. CRI = N\$1,500,000. FSDS = N\$1,000,000.

PROJECT 15/05/2 - Rural electrification in //Kharas, Oshana, Otjozondjupa, Kavango West, Khomas, Ohangwena, Omaheke

NPC CODE 749: MV and LV reticulation overhead lines, transformers, service connections and pre-payment metering systems to extend electricity grid to un-electrified rural settlements. Internal wiring of govt buildings, design and installation of SWER (Single Wire Earth Return). 2021/22 - implement above.

PURPORTED EXPENDITURE TO 2020/21 = N\$479,973,000

2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) = N\$44,000,000. EXPENDITURE COMPOSITION: CRI = N\$40,480,000. FSDS = N\$3,520,000.

PROJECT 15/05/1 - Off-grid electrification and Solar Revolving Fund, nationwide

NPC CODE 745: Introduction of Off-grid Energization Master Plan Solar Revolving Fund to provide energy access to off-grid areas, households supplies with loans and electrification of public institutions. 2021/22 - financing 150 households with solar systems annually countrywide. Conduct maintenance visits and upgrade off-grid public buildings with solar PV systems.

PURPORTED EXPENDITURE TO 2020/21 = N\$51,755,000

2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) = N\$2,500,000. EXPENDITURE COMPOSITION: M&S = N\$2,500,000.

PROJECT 15/05/4 - Namibia Energy Institute, Khomas Region

NPC CODE 1365: Facilitate achievement of MME goals as well as to alleviate limited capacity within the government to promote energy. NEI is a research and development unit aimed at elimination of scientific, technical, micro economic and information barriers that the energy sector faces in Namibia.

2021/22 - continuation of most projects as delays were experienced due to Covid-19.

PURPORTED EXPENDITURE TO 2020/21 = N\$9,770,000

2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) = N\$3,000,000. EXPENDITURE COMPOSITION: GRN internal (no tenders) = N\$3,000,000.

PROJECT 15/02/3 -

Upgrade and expand IT infrastructure in //Kharas, Oshikoto, Erongo, Khomas

NPC CODE 20040: Upgrade of the current ICT infrastructure to prepare for the implementation of e-governance services as well the e-online services. Main components are storage and backup services, network infrastructure and e-governance applications. 2021/22 - procurement and installation of storage, backup hardware and software.

PURPORTED EXPENDITURE TO 2020/21 = N\$4,800,000

2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) = N\$6,000,000. EXPENDITURE COMPOSITION: M&S = N\$4,200,000. OSP = N\$1,800,000.

PROJECT 15/02/1 -

Renovation and upgrading of MME buildings, //Kharas & Khomas regions

NPC CODE 8022: Project components minor renovations, painting of buildings, minor repairs of local area network, and rain water drainage. 2021/22 - renovation of offices and accommodation in Oranjemund, Lüderitz and Tsumeb, renovation of office building in Windhoek, plumbing system, central AC units.

PURPORTED EXPENDITURE TO 2020/21 = N\$14,373,000

2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) = N\$4,415,000. EXPENDITURE COMPOSITION: CRI = N\$4,415,000.

N\$1.568-b has been voted for thirteen road projects in 2021/22 (N\$1.44-b last year), six of which are specifically in the northern regions, costing N\$127-m.

PROJECT 15/04/12 - Regional geological mapping in //Kharas, Erongo, Khomas, Kunene regions

NPC CODE 18745: Geological mapping, capacity building, revision mapping of high priority areas combined with geological research studies involving radiometric age dating, upgrade regional geosciences database into a GIS-enterprise database. 2021/22 - desktop research work and preparation for fieldwork in the Opuwo rural areas for various 1:50,000 scale geological mapping and research. Detailed geological field mapping of the priority area within Kunene, Oshikoto, Erongo and //Kharas regions. Set of 1:50,000 scale maps. Geological research studies of the geology of the identified key areas. Field, structure, geochronology, isotope and geochemistry databases. Extended progress report, geological explanation and advanced training of the GSN geologists.

PURPORTED EXPENDITURE TO 2020/21 = N\$8,574,000

2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) = N\$3,000,000. EXPENDITURE COMPOSITION: OSP = N\$2,750,000. OEMP = N\$250,000.

PROJECT 15/04/2 -

Geological samples storage and database in Windhoek and Tsumeb

NPC CODE 1014: Collect diamond drill core and percussion drill chips samples, construct and expand core samples storage and equip core shed facilities, establish Earth Data Namibia database, manage the EDN system by adding new modules and upgrading the database, purchase vehicles for fieldwork and hardware and software for data management and management of the geoscience information system. 2020/21 - service and maintain all current equipment in sample storage facilities, procure equipment required for Tsumeb and Windhoek sample storage facilities, collect diamond drill core and percussion drilled water borehole rock chip samples from exploration and mining sites, management of geoscience information systems, Earth Data Namibia (EDN) database maintenance and staff training.

PURPORTED EXPENDITURE TO 2020/21 = N\$12,215,000

2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) = N\$2,000,000. EXPENDITURE COMPOSITION: OSP = N\$2,000,000.

PROJECT 15/04/10 -

Engineering and environmental geology assessments, Khomas region

NPC CODE 18333: Engineering and environmental geology analytical equipment, servicing analytical equipment, purchase of standards for testing and analysis, train staff on specialised topics, field and lab assessments, conducting geo-engineering and geo-environmental assessments. 2021/22 - completion of the geodatabase, maintenance of air quality monitoring stations, procurement of analytical equipment, and geoenvironmental lab assessment.

PURPORTED EXPENDITURE TO 2020/21 = N\$1,751,000

2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) = N\$1,000,000. EXPENDITURE COMPOSITION: OSP = N\$1,000,000.

PROJECT 15/04/11 - Regional Integrated Interpretation Geophysics (RIIG) in

Oshikoto, Otjozondjupa, Zambezi, Kavango East, Kavango West, Khomas, Ohangwena

NPC CODE 1013: Specialised processing, imaging, mapping, data acquisition, computing and 3D modelling interpretation software and high-performance computing hardware, imaging systems and displays to improve information on existing geo-scientific maps, identify and test geo-scientific research and economically potential drill targets, produce printed and digital maps, reports, publications for international conferences and trade exhibitions. 2021/22 - set up interpretation laboratory (geological and geo-physical), drilling and geological logging and geo-physical down-hole logging.

PURPORTED EXPENDITURE TO 2020/21 = N\$64,805,000

2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) = N\$3,000,000. EXPENDITURE COMPOSITION: OSP = N\$3,000,000.

PROJECT 15/04/5 -

National airborne geophysical surveys in Zambezi, Khomas, Kunene

NPC CODE 2150: The project has been modified to include all airborne (fixed wing, helicopter, micro light and drone) geophysical surveys using a variety of geophysical data acquisition systems such as electromagnetic, magnetic, squid, radiometric, gravity, hyper spectral, seismic and magnetotellurics and ground geophysical data acquisition equipment. The data will be quality controlled, processed and analyzed using specialist geophysical high-end computing hardware and display systems and using advanced imaging and 2D - 3D CAD and drafting software. The geophysical data sets will be made available to the mineral exploration sector. 2021/22 - tender specifications for new surveys, supervision of contractors on airborne surveying, data quality control and data processing.

PURPORTED EXPENDITURE TO 2020/21 = N\$25,059,000

2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) = N\$2,000,000. EXPENDITURE COMPOSITION: OSP = N\$2,000,000.

VOTE 19 - Industrialisation & Trade

PROJECT 19/04/24 -

Product development and group purchasing project, Khomas Region

NPC CODE 18884: Executing agency NIDA. Strategies to enable local MSMEs to remain competitive in the current economic environment, enable entrepreneurs to partake in the biomass/charcoal value chain by immersing them in the supply chain of the sector, enable micro, small and medium-sized enterprises to procure goods and services in a more effective manner, enable micro, small and medium-sized enterprises to meet product quality standards required by the formal market, create linkages between SMEs and buyers, as well as SMEs and production input and technology suppliers. 2021/22 - support for installation & construction of biomass at Otjiwarongo, acquisition of harvest material from MSMEs.

PURPORTED EXPENDITURE TO 2020/21 = N\$1,000,000

2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) = N\$2,000,000. EXPENDITURE COMPOSITION: M&S = N\$2,000,000.

PROJECT 19/04/9 - Construction of garment factories in various regions

NPC CODE 18344: Executing agency NIDA. To diversify manufacturing and processing with incremental value addition in the garment industry. Main components includes acquisition of plant, equipment, machinery, commissioning of plants, documentation and construction. 2021/22 - acquisition and installation of plant, equipment and machinery in Keetmanshoop [EXPENDITURE COMPOSITION: of expenditure to 2019/20 is N\$ 0 (zero)].

PURPORTED EXPENDITURE TO 2020/21 = N\$37,247,000

2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) =

Mines & Energy (Vote 15) has N\$68.3-m to spend on fourteen projects in 2021/22, after its N\$81.3-m allocation was cut by N\$13-m or 16%.

FROM PREVIOUS PAGE

N\$12,000,000. EXPENDITURE COMPOSITION: CRI = N\$12,000,000.

PROJECT 19/04/25 - Gemstone and jewelry development programme, Erongo Region
NPC CODE 18885: Executing agency NIDA. To expand training activities of the Karibib Gemstone Training Centre to include jewelry making, setting up a jewelry production unit to sustain the Centre's operation in the long run, creating forward and backward linkages among small miners, gemstone cutters, polishers and jewelry makers. 2021/22 - training 26 entrepreneurs in gemstone cutting and jewelry manufacturing, conduct feasibility study on the center.

PURPORTED EXPENDITURE TO 2020/21 = N\$2,000,000

2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) = N\$1,000,000. EXPENDITURE COMPOSITION: OSP = N\$1,000,000.

PROJECT 19/04/10 -

Agro Processing Development, //Kharas, Oshana and Kavango East

NPC CODE 18345: Executing agency NIDA. Development of additional production components such as 630ha under date palm, table grapes, pomegranates, cactus pear and pecan nut production at Naute. Develop cold storage and processing facilities, upgrade social and other support infrastructure, game fencing, production of biomass feed and related products. 2021/22 - "procurement".

PURPORTED EXPENDITURE TO 2020/21 = N\$6,177,000
2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) = N\$3,220,000. EXPENDITURE COMPOSITION: CRI = N\$3,220,000.

PROJECT 19/04/22 - Special Industrialization Programme

NPC CODE 18806: Executing agency NIDA. Project aims at product diversification and production capacity expansion for the Namibian products focusing on Agro-processing, steel manufacturing and metal fabrication, transportation equipment and manufacturing, building material manufacturing, furniture manufacturing and ISP Programme, pharmaceuticals and cosmetics manufacturing, automotive sector development, bush biomass value addition and chemical industry. Furthermore, the project will provide integrated support to the industries to increase manufacturing of high value products for regional and international export markets. This includes technical assistance in product development, marketing, as well as technology upgrading and acquisition and capacity building. Supporting measures would also include the compilation of an inventory of processors and products and facilitation of imports of essential inputs for the processing industry, product diversification and production capacity expansion for the Namibian products. Focus is on the setting up of the beef cold storage (inclusive of the electrification of the 31 hectares) in Walvis Bay. The establishment of technology centres in Okondjatu (Otjozondjupa) and Ruacana (Otjara) with the assistance of GIZ. 2021/22 - site clearance, bulk earth

works, substation, finalization of initial beef cold storage works, establishment of technology centres.

PURPORTED EXPENDITURE TO 2020/21 = N\$5,000,000
2021/22 FUNDING SOURCE: GIZ support and format not disclosed. ALLOCATION (excl. midyear revisions) = N\$5,000,000. EXPENDITURE COMPOSITION: CRI = N\$5,000,000.

PROJECT 19/04/3 - Construction of industrial estates in //Kharas, Otjara, Oshikoto, Otjozondjupa, Zambezi, Erongo, Hardap, Kavango West

NPC CODE 633: Executing agency NIDA. Promote and facilitate industrialisation, manufacturing and value addition through the construction of industrial parks and common facility centres. 2020/21 - Opuwo Industrial Park and Omaruru Trade & Industry Fuel & Home Industries.

PURPORTED EXPENDITURE TO 2020/21 = N\$217,659,000

2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) = N\$16,527,000. EXPENDITURE COMPOSITION: CRI = N\$16,527,000.

PROJECT 19/06/1 - Construction of Testing & Inspection Centre for Namibia Standards Institute in Walvis Bay

NPC CODE 18132: Executing agency NSI. Construction of phase 2. 2021/22 - completion.

PURPORTED EXPENDITURE TO 2020/21 = N\$99,327,000

2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) = N\$7,847,000. EXPENDITURE COMPOSITION: CRI = N\$7,847,000.

VOTE 24 - Transport

PROJECT 24/02/157 -

[NEW] Roads Construction (RFA)

NPC CODE 20268: Major roads projects and honoring their outstanding payments. 2021/22 - complete planned activities and settle accounts.

PURPORTED EXPENDITURE TO 2020/21 = N\$0

2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) = N\$300,000,000. EXPENDITURE COMPOSITION: GRN internal (no tenders) = N\$300,000,000.

PROJECT 24/03/9 -

Railway network upgrading

NPC CODE 2834: Rehabilitation of earthworks embankment, strengthening of bridges, increase to 18.5 ton/axle load through using 48 kg/m rail. upgrade and rehabilitate the railway line between Kranzberg-Tsumeb, and other sections. 2021/22 - Upgrading / construction of railway line, production & transportation of sleepers, supply of ballast, heavy maintenance work, supply of rails, ultrasonic test on rails, project management and supervision.

PURPORTED EXPENDITURE TO 2020/21 = N\$461,793,000

2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) = N\$200,000,000. EXPENDITURE COM-

Industrialisation & Trade's biggest project is

POSITION: M&S = N\$4,000,000. CRI = N\$182,000,000. FSDS = N\$14,000,000.

PROJECT 24/02/95 - Construction of access roads to schools and clinics

NPC CODE 18779: Roads Authority. 2021/22 - continue construction of roads in Otjara and Otjozondjupa.

PURPORTED EXPENDITURE TO 2020/21 = N\$29,052,000

2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) = N\$20,000,000. EXPENDITURE COMPOSITION: GRN internal (no tenders) = N\$20,000,000.

PROJECT 24/02/72 - Construction of gravel road: Isize - Sifuba - Malindi - Schuckmannsburg (50km). Zambezi Region

NPC CODE 18226: Roads Authority. The road will connect to TR8/7 to Katima Mulilo. Design, documentation and construction. 2021/22 - DR3508 Section 2. from km 21. km 52: 60%, DR3572 Bukalo Sifuba Haul Road KM 0 KM 18: 87.5%.

PURPORTED EXPENDITURE TO 2020/21 = N\$92,298,000

2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) = N\$50,000,000. EXPENDITURE COMPOSITION: CRI = N\$42,000,000. FSDS = N\$8,000,000.

PROJECT 24/02/123 - Completion of MR120: Okatana - Endola - Onunho Road: (36km)

NPC CODE 20067: Roads Authority. 2021/22 - retention.

PURPORTED EXPENDITURE TO 2020/21 = N\$2,000,000

2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) = N\$2,000,000. EXPENDITURE COMPOSITION: CRI = N\$2,000,000.

PROJECT 24/02/89 - Construction of Swakopmund - Henties Bay - Kamanjab Link (412km), Erongo and Kunene Regions

NPC CODE 18647: Roads Authority. To shorten the route from Angola through Oshikango to Walvis Bay by upgrading the road from Swakopmund through Henties Bay to Kamanjab. 2021/22 - construction and supervision to continue. Started in 2016.

PURPORTED EXPENDITURE TO 2020/21 = N\$119,510,000

2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) = N\$200,000,000. EXPENDITURE COMPOSITION: CRI = N\$192,000,000. FSDS = N\$8,000,000.

PROJECT 24/02/98 - Construction of gravel road D3622: Omukukutu - Omboloka (25km), Ohangwena Region

NPC CODE 18782: Roads Authority. The objective of the project is to construct gravel road that would serve Omboloka and Oluwaya clinics and schools via Ohameva and Hainyeko and Okalimbanombwa schools in Ohangwena Region. Components: detailed design and supervision, demining, consulting services, compensation (purchase of land) and construction works. 2021/22 - none.

PURPORTED EXPENDITURE TO 2020/21 = N\$16,000,000

2021/22 FUNDING SOURCE: KfW loan not mentioned. ALLOCATION (excl. midyear revisions) = N\$1,000,000. EXPENDITURE COMPOSITION: GRN internal (no tenders) = N\$1,000,000.

PROJECT 24/02/77 - Construction of Gravel Road: TR10/2 Oupili - Onkumbula (40km), Ohangwena Region

NPC CODE 18253: Roads Authority. From junction with TR10/2 (Eenhana - Okongo) near Oupili to join DR3603 at Onkumbula. Through DR3630 and DR3654 will create a shorter link between Okongo area and Omuthiya (TR1/11) once completed. 2021/22 - engineering design and project supervision.

PURPORTED EXPENDITURE TO 2020/21 = N\$1,000,000

2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) = N\$1,000,000. EXPENDITURE COMPOSITION: GRN internal (no tenders) = N\$1,000,000.

PROJECT 24/02/34 - Labour-Based

Construction (DR 3610:TR1/11) Mangetti West Quarantine Camp Phase 2, Oshikoto

NPC CODE 5065: Design, documentation and construction. 2021/22 - phase 2.

PURPORTED EXPENDITURE TO 2020/21 = N\$47,529,000

2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) = N\$53,000,000. EXPENDITURE COMPOSITION: CRI = N\$45,000,000. FSDS = N\$8,000,000.

PROJECT 24/02/104 - Upgrading of MR44: Swakopmund - Walvis Bay road upgrading (44km), Erongo Region

NPC CODE 18788: Roads Authority. Deviation of heavy cargo from the current busy tourist road TR2/1. Feasibility and preliminary design completed in Nov-12 by VKE CE. 2021/2022 - construction of phase II.

PURPORTED EXPENDITURE TO 2020/21 = N\$185,000,000

2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) = N\$150,000,000. EXPENDITURE COMPOSITION: CRI = N\$138,000,000. FSDS = N\$12,000,000.

PROJECT 24/02/90 - Upgrading of MR91: Gobabis - Aminuis and MR40 Aminuis - Aranos (245km) to bitumen standards, Omaheke & Hardap Regions

NPC CODE 18648: Roads Authority. 2020/21 - commencement of construction Section B: Aminuis - Aranos (135 km).

PURPORTED EXPENDITURE TO 2020/21 = N\$95,814,000

2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) = N\$120,000,000. EXPENDITURE COMPOSITION: CRI = N\$112,000,000. FSDS = N\$8,000,000.

PROJECT 24/02/102 - Rehabilitation of TR1/16: Windhoek - Okahandja road rehabilitation (67km)

NPC CODE 18786: Roads Authority. 2021/22 - detailed design.

PURPORTED EXPENDITURE TO 2020/21 = N\$291,000,000

2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) = N\$200,000,000. EXPENDITURE COMPOSITION: CRI = N\$188,000,000. FSDS = N\$12,000,000.

PROJECT 24/02/141 - Maintenance of paved and unpaved roads in all regions

NPC CODE 20186: Roads Authority. Backlog of N\$871. 3-m since 2006/7 to 2011/12 in road infrastructure maintenance. The backlog increased as well as new maintenance needs amounting to N\$165. 6-m for 2013/14. 2021/22 - maintenance of roads.

PURPORTED EXPENDITURE TO 2020/21 = N\$15,000,000

2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) = N\$15,225,000. EXPENDITURE COMPOSITION: CRI = N\$15,225,000.

PROJECT 24/02/101 -

Upgrading TR9/1: Windhoek - Hosea Kutako road to dual carriage (44km)

NPC CODE 18785: Roads Authority. The road to be constructed over three financial years will facilitate more efficient transport on this section of the Trans Kalahari highway to and from Windhoek. 2021/22 - detailed design, supervision and construction continues, with AfDB loan for N\$256. 326-m outside SRF and GRN contributing N\$185-m.

PURPORTED EXPENDITURE TO 2020/21 = N\$387,000,000

2021/22 FUNDING SOURCE: N\$350-m AfDB loan outside SRF. ALLOCATION (excl. midyear revisions) = N\$456,326,000. EXPENDITURE COMPOSITION: CRI = N\$441,326,000. FSDS = N\$15,000,000.

PROJECT 24/03/7 - Northern railway line extension, Oshana Region

NPC CODE 1072: Dept Transport. To connect to the Angola railway system for exporting and creating a Trans Kunene Corridor. Procurement of equipment and materials and construction of railway line. 2021/22 - construction of railway station in Oshakati, "platforms halts" and more civil works, proj-

The Bank of Namibia, as agent for the Government for the issue and management of Government Debt Securities announces the results for the 273-day and 364-day Treasury Bills auction held 03 February 2022 (settlement date 04-Feb-22):

Auction Summary - NAMITB	0 11/04/22	0 02/03/23
Total Amount Allocated (N\$)	550,000,000	500,000,000
Total Number of Bids Received	29	31
Total Amount of All Bids Received (N\$)	557,950,000	632,550,000
Total Number of Successful Bids	29	23
Number of Bids Allocated in Full	27	22
Weighted Average (Price/Yield)	95.77965/5.89122	94.36297/5.99019
Weighted Average Bid (Price/Yield)	95.77859/5.89277	94.34373/6.01186
Percentage Partial Allocation (Approximate)	27.73%	59.69%
Bid to Cover / Amount Bid to Offered Ratio	1.01	1.27
Amount Offered (N\$)	550,000,000	500,000,000

N\$16.5-m for building industrial estates

ect management and supervision.
PURPORTED EXPENDITURE TO 2020/21 = N\$927,600,000

2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) = N\$36,000,000. EXPENDITURE COMPOSITION: M&S = N\$13,000,000. CRI = N\$21,400,000. FSIDS = N\$1,600,000.

PROJECT 24/03/12 - Rehabilitation of the southern railway line section Sandverhaal - Buchholzbrunn, //Kharas Region

NPC CODE 18791: Dept Transport. Upgrading of the 40km railway line stretch will bring it to the same condition as the rest of track up to Lüderitz. The line will be upgraded to 18.6 ton axle load and speed up to 60km/h for freight trains. 2021/22 - construction of earthworks embankments and culverts, repair of the flood damaged infrastructure, project management and supervision of works.

PURPORTED EXPENDITURE TO 2020/21 = N\$39,300,000

2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) = N\$42,575,000. EXPENDITURE COMPOSITION: CRI = N\$38,575,000. FSIDS = N\$4,000,000.

PROJECT 24/03/8 - Upgrading and rehabilitation of Aus - Lüderitz railway line from 11T to 185T axle load, //Kharas Region

NPC CODE 2078: Upgrading the railway line from Aus to Lüderitz to accommodate 18.5t axle loads and increasing the operation speed. The current condition of this line is such that safe operations can no longer be guaranteed. This line would link the rest of the country and South Africa to the Lüderitz harbour. 2021/22 - installation of culverts, appointment of contractor for the construction of sand shelter (tunnel), sand removal, project management and supervision of works.

PURPORTED EXPENDITURE TO 2020/21 = N\$784,995,000

2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) = N\$101,200,000. EXPENDITURE COMPOSITION: M&S = N\$1,000,000. CRI = N\$62,200,000. FSIDS = N\$38,000,000.

PROJECT 24/03/18 - Upgrading of Walvis Bay - Kranzberg railway

NPC CODE 20234: Dept Transport. Upgrade 210km of railway line to 18.5 tons axle load to achieve higher transport capacity and train speeds. Also included are studies aimed to develop the rail sub-sector (incl. market analysis for rail operations, institutional setup review support, feasibility of commuter rail services in Windhoek and to Rehoboth, design update of Grootfontein - Rundu railway and feasibility of Rundu - Katima railway extension towards Zambia). 2021/22 - consultancy services (market analysis, skill development promotion and training, technical audit, project financial audit, feasibility study for the Grootfontein-Katima Mulilo railway line, railway sector institutional setup review support, feasibility study for commuter rail Rehoboth-Windhoek-Katutura, sensitization on HIV/AIDS), supply and transportation of ballast, supply and transportation of fasteners, supply and transportation of sleepers, installation of culverts and bridges, permanent way construction, project management and supervision of works. 2021/22 expenditure: N\$523.613-m by AfDB outside SRF (OSE, FSIDS, CRI). PURPORTED EXPENDITURE TO 2020/21 = N\$1,148,636,000

2021/22 FUNDING SOURCE: N\$523.6-m AfDB loan outside SRF. ALLOCATION (excl. midyear revisions) = N\$923,613,000. EXPENDITURE COMPOSITION: M&S = N\$52,000,000. OSP = N\$32,143,000. CRI = N\$667,122,000. FSIDS = N\$172,348,000.

PROJECT 24/05/15 - Construction of new facilities for DAAIL, Khomas Region

NPC CODE 20193: Dept Works. Construction of an Aircraft Accident Investigation Facility at Eros Airport. Construct hangar facility for storage of aircraft accident wrecks for in-depth investigation and use of components for on-the-job training. 2021/22 - construction and supervision.

PURPORTED EXPENDITURE TO 2020/21 = N\$100,000

2021/22 FUNDING SOURCE: GRN. ALLOCA-

TION (excl. midyear revisions) = N\$71,000. EXPENDITURE COMPOSITION: FSIDS = N\$71,000.

PROJECT 24/05/11 -

Construction of Opuwo Aerodrome, Kunene Region

NPC CODE 18739: Dept Transport. Construction of Class C aerodrome. 2021/22 - tender process to commence.

PURPORTED EXPENDITURE TO 2020/21 = N\$2,000,000

2021/22 FUNDING SOURCE: GRN. ALLOCATION (excl. midyear revisions) = N\$350,000. EXPENDITURE COMPOSITION: FSIDS = N\$350,000.

PROJECT 24/05/17 - Upgrading of Mpacha Airport at Katima Mulilo, Zambezi Region

NPC CODE 20195: Dept Transport. Feasibility and upgrading of airport facilities 2021/22 - reconstruction of the runway.

PURPORTED EXPENDITURE TO 2020/21 = N\$15,000,000

2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) = N\$41,258,000. EXPENDITURE COMPOSITION: CRI = N\$38,963,000. FSIDS = N\$2,295,000.

PROJECT 24/05/10 - Fencing of state owned aerodromes, //Kharas Region

NPC CODE 18553: Dept Transport. 2021/22 - maintenance and fencing.

PURPORTED EXPENDITURE TO 2020/21 = N\$11,545,000

2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) = N\$3,715,000. EXPENDITURE COMPOSITION: CRI = N\$3,715,000.

PROJECT 24/05/12 -

EMPIC - Regulatory Management Tools

NPC CODE 20071: Dept Transport. Digitally capture and manage the regulatory civil aviation processes to enhance "safety security" in the scope of civil aviation. 2020/21 - implementation.

PURPORTED EXPENDITURE TO 2020/21 = N\$5,000,000

2021/22 FUNDING SOURCE: GRN. ALLOCATION (excl. midyear revisions) = N\$6,000. EXPENDITURE COMPOSITION: GRN internal (no tenders) = N\$6,000.

PROJECT 24/05/3 - Upgrade Civil Aviation infrastructure, Khomas Region

NPC CODE 4145: Dept Transport. Civil aviation safety to be improved, especially at HKIA, Eros & Walvis Bay and as required by CIAO, this includes the security system upgrade at Eros Airport for the ANSP. 2021/22 - continue with the construction of ANS Infrastructure.

PURPORTED EXPENDITURE TO 2020/21 = N\$72,477,000

2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) = N\$4,450,000. EXPENDITURE COMPOSITION: GRN internal (no tenders) = N\$4,450,000.

PROJECT 24/05/4 - Construction of Air Traffic Control Towers, Khomas Region

NPC CODE 4301: Dept Transport. Construct new ATCs. 2021/22 - implementation.

PURPORTED EXPENDITURE TO 2020/21 = N\$15,991,000

2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) = N\$4,210,000. EXPENDITURE COMPOSITION: GRN internal (no tenders) = N\$4,210,000.

PROJECT 24/05/1 - Construction of new area control tower for Windhoek FIR

NPC CODE 1411: Dept Transport. The old Fixed Aeronautical Telecommunication Network (AFTN) and the VOR/DME at Keetmanshoop have to be replaced with a VOR at Lüderitz and the RADAR, WAM and NAID needs a midlife upgrade. 2020/21 - continuous Implementation.

PURPORTED EXPENDITURE TO 2020/21 = N\$292,296,000

2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) = N\$4,516,000. EXPENDITURE COMPOSITION: GRN internal (no tenders) = N\$4,516,000.

PROJECT 24/01/1 -

Ranked last in the cluster, Industrialisation & Trade (Vote 19) has N\$45-m to spend on seven projects after midyear 2021/22, after its initial N\$47.6-m was cut back by N\$2.5-m or 5.25% to less than a quarter of its N\$180-m six years ago in 2016/17.

Construction, rehabilitation and upgrading of Government Garages nationwide

NPC CODE 18551: Dept Works. Construction, upgrading and renovation of workshops, offices, wash bays and parking facilities. 2021/22 - start Rundu and Katima government garages with the same plan as Swakopmund. replace Windhoek Government Garage lift. fit Swakopmund workshop with equipment. close parking for Swakopmund garage, adjust wall.

PURPORTED EXPENDITURE TO 2020/21 = N\$7,681,000

2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) = N\$5,000,000. EXPENDITURE COMPOSITION: CRI = N\$4,200,000. FSIDS = N\$200,000. GRN internal (no tenders) = N\$600,000.

PROJECT 24/04/1 -

Upgrading of vehicle and driver testing stations in several regions

NPC CODE 2836: Dept Transport. Currently 11 VTS/DTCS do not meet the required standards and need to be upgraded. 2021/22 - construction of Walvis Bay Vehicle and Driver Testing Station, purchase of land in Oranjemund for testing station, maintenance at existing vehicle and driver testing station infrastructure, purchase land in Nkurenkuru for new testing station.

PURPORTED EXPENDITURE TO 2020/21 = N\$96,974,000

2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) = N\$5,000,000. EXPENDITURE COMPOSITION: CRI = N\$5,000,000.

PROJECT 24/07/1 -

Extension and upgrading of Meteorological Service facilities, nationwide

NPC CODE 4197: Dept Transport. Infrastructure rehabilitation and upgrading. strengthening climate advisory services and meteorological station network development. establishing upper air observatories at Grootfontein, Katima Mulilo, Ondangwa and Rundu. establish new MET offices in all regions. installing 50 automatic weather stations. establishing specialised regional offices at Katima Mulilo, Swakopmund and Keetmanshoop. 2021/22 - acquisition and installation of airport weather observing systems, installation of climate data bank, feasibility studies for instrument calibration building.

PURPORTED EXPENDITURE TO 2020/21 = N\$45,149,000

2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) = N\$35,000,000. EXPENDITURE COMPOSITION: GRN internal (no tenders) = N\$35,000,000.

PROJECT 24/04/2 - Non-motorized transport, Katutura, Khomas Region

NPC CODE 20190: Dept Transport. To construct sidewalks/roads for pedestrians and cyclists to separate from vehicular traffic. 2021/22 - construction & supervision.

PURPORTED EXPENDITURE TO 2020/21 = N\$0

2021/22 FUNDING SOURCE: GRN. AL-LOCATION (excl. midyear revisions) = N\$4,424,000. EXPENDITURE COMPOSITION: FSIDS = N\$4,424,000.

See accompanying tables and key to abbreviations for procurement categories in our detailed project-by-project listing in 2021/22.

To be continued.

NOTES TO THE STATE PROCUREMENT BUDGET

This scoping of what we call government's 'procurement budget' as part of the overall budget is unique to the Tender Bulletin, has been undertaken for most financial years since 1993 and is unprecedented in Namibia. Its purpose is to alert tenderers to forthcoming procurement opportunities.

Procurement spending relates to heads of expenditure normally directed through public procurement channels (with abbreviations):
* Materials and Supplies (M&S): Expenditure relating to the acquisition of store items of consumable nature to be utilized in the process of government services/operations, such as provisions, spares, stationery and other materials.

* Other goods, services and expenses (OSE): Generally relating to recurrent spending on items sourced in the real economy, i.e. excluding remuneration, other conditions service relating to the public service, transport provided by the government garage, utilities, property rental etc. OSE consists of consultancy services unrelated to construction as well as non-consultancy services such as advertising, catering, cleaning, entertainment, event management, gifts, legal, printing, security, travel, training services etc.

These two spending heads are form part of government's current expenditure in the operational budget as well as in the development budget.

Other procurement spending components occurring both as capital expenditure in the operational budget (i.e. not current expenditure) and also in the development budget are:

- * furniture and office equipment (FOE)
 - * operational equipment, machinery and plant (OEMP);
 - * vehicles (V).
- Procurement components occurring only within the development budget are:
- * construction, renovations and improvement (CRI);
 - * feasibility studies, design and supervision (FSIDS).

Maintenance expenses consists of expenditure relating to maintaining capital assets, including office and operational equipment, buildings, roads and bridges, and other capital assets.

Although annual and multi-year tenders are issued in this area (e.g. minor capital works, water infrastructure, vehicle, plant, electrical and electronic maintenance), we deliberately exclude it from our analysis to err on the safe side, since some of this maintenance is sourced internally within certain government ministries (e.g. the departments of works and of water affairs).

Although our coverage of the development budget overlaps with some of the operational budget, a project-by-project presentation of the development budget concretizes tendering opportunities more specifically with reference to actual project implementation and is presented separately from the estimates of operational expenditure.

ADVERTISING & MARKETING**REFERENCE:** NCS/ONB/NTA-02/2022; **CLOSING:** 16-Mar-22 11:00**DESCRIPTION:** Invitation for Bids (Open National Bidding): Provision of full advertising agency services to the NTA for a period of 24 months. 20MW PV POWER PLANT AT KHAN SUBSTATION

11 FEBRUARY 2022

NamPower announced the award of its contract for the development of a 20MW solar photovoltaic power plant at Khan Substation on a Build-Own-Operate (BOO) basis, according to its website.

The power utility's procurement management unit posted the award of five other 'Open International Bidding' tenders at the same time, some of which date back to 2019, but it is not clear when the awards were processed.

The value of the six OIB tender awards and one works tender award is N\$82-m - excluding the 20MW solar photovoltaic power plant at Khan Substation.

Details of the other tender awards are reported separately. The value of some of these tenders confirms that NamPower is currently handling procurement above its threshold without having to go through the Central Procurement Board - as dis-

Contract awarded to Access Aussenkjer Namibia IPP Consortium on BOO basis

closed by the CPB at its latest media briefing in November. NamPower's special exemption from going through the CPB was first announced by finance minister Iipumu Shiimi when tabling the midyear budget at the beginning of November.

Tender G/OIB/NPWR-05/2019 for an independent power producer for the development of a 20MW solar photovoltaic power plant at Khan Substation on a Build-Own-Operate (BOO) basis closed 28-Feb-20 after being extended from 17-Jan-20.

Sixteen offers were received with their base tariffs at Commercial Operation Date (COD) in N\$/kWh and Fixed Annual Escalation Rate (FAER) percentage:

- * El-Zonnah Investment cc = N\$0.9900 (3.0%)
- * Nam-Eco 1 Consortium = N\$0.6750

- (5.275%)
- * Alten / NIDIF = N\$1.24 (-4.5%)
- * Anisol Solar Power (Pty) Ltd = N\$0.645 (2.75%)
- * Access Aussenkjer Namibia IPP Consortium = N\$0.4905 (3.0%)
- * Globeleq Consortium = N\$0.9645 (0%)
- * Old Mutual / ACED / Frans Indongo Consortium = N\$0.7502 (5.0%)
- * Akuo - Suneq = N\$0.6590 (0%)
- * OLC Highstar Consortium = N\$0.49 (5.5%)
- * Innosun/IJG-Im Consortium = N\$0.8075 (-1.5%)
- * Scatec Solar Joint Venture = N\$0.9133 (0%)
- * Greenyellow / Soventix / OKA = N\$1.0340 (0%)
- * CMB (JV) = N\$0.6945 (6.0%)
- * Green Enterprise Solution (Pty) Ltd = N\$0.82 (5.0%)
- * Afrikuumba / Bigen Kuumba JV = N\$0.88 (0%)
- * Shining Energy / Knight Piesold / Global

Business Development JV = N\$0.78 (3.0%).

After the mandatory document and eligibility evaluation, six bidders were pre-qualified and scored from 1 to 6 in terms of the commercial evaluation with financial scores plus economic responsiveness and final scores:

- * Access Aussenkjer Namibia IPP Consortium scored 80% + 15% = 95% - selected for the award;
- * Innosun/IJG-Im Consortium scored 66.92% + 20% = 86.92%;
- * Anisol Solar Power (Proprietary) Limited scored 56.99% + 10% = 66.99%;
- * Alten-NIDIF scored 42.51% + 20% = 62.51%;
- * Scatec Solar Joint Venture scored 42.68% + 6.75% = 49.43%;
- * Old Mutual / ACED / Frans Indongo Consortium scored 14.03% + 14% = 28.03%.

TENDER AWARDS
THESE UPDATES ARE COMPILED FROM MEDIA REPORTS AND MARKET NAMIBIA & TENDER BULLETIN'S OWN SOURCES.

Only one offer was received for the compilation, supply of print-ready directory, procurement of advertising space as well as the development, maintenance of the on-line directory and sale of "the advertising space", when open international bidding tender NCS/OIB/TN-195/2021 closed at Telecom Namibia's Bid Secretariat office in Windhoek at 14:30, Tuesday 18 January 2022.

The telephone directory contract will run over three years, commencing with the 2022/23 directory book up to and including 2024/25.

According to Telecom's website, only one offer was received from, with no pricing disclosed:

* Braby's Publishing Namibia.

Two CPB tenders were cancelled

This tender was Telecom Namibia's own re-issue of Central Procurement Board tender NCS/ONB/CPBN-05/2020 that closed 22-Feb-21 and was cancelled seven months later in Sep-21, because 'all bids were non-responsive'. This contract was supposed to run for five years.

An earlier CPB tender worth about N\$175-m, NCS/ONB/CPB-01/2018 - for the same services over three years - had closed on 31-Aug-18 was seemingly never awarded (details were published in *Bulletin* 1418).

Secretive one-year contract in 2019

In July 2019, a notice headed 'Caution against Directory Advertising Fraud' was published in the local media by Telecom's Corporate Communications & Public Relations head, Nomvula Kondombola-Kambinda, informing the public that PLP Namibia and SEN Corporate Communications were the only authorised partners to

sell advertising space in the 2019/20 print directory.

"TDS Namibia is not authorized to sell advertising space on behalf of Telecom Namibia in the 2019/20 print telephone directory," the notice added.

Previously, TDS Namibia had held the telephone directory compilation and advertising contract for many years until 2019.

Novas printed 2019/20 directory

Novas Print in Cape Town printed 83,380 copies of Telecom Namibia's 2019/20 telephone directory, which should have been ready by October 2019, but came out much later.

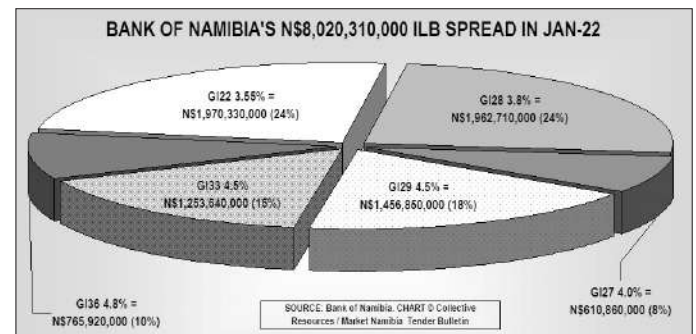

A copy obtained by the *Tender Bulletin* is stamped on the front page 'Namibia 05/06/2020 02:06 17948'.

CLOSING AT TELECOM 18-JAN-22:

New telephone directory might soon be coming to a post office near you

That directory states the closing date for the compilation of the 2020/21 directory and for directory entries as 30-Jun-20.

As far as could be established, no new telephone directory has been issued since the 2019/2020 edition.

GRN DOMESTIC DEBT EXPANDS 24.3% TO N\$92.5-B

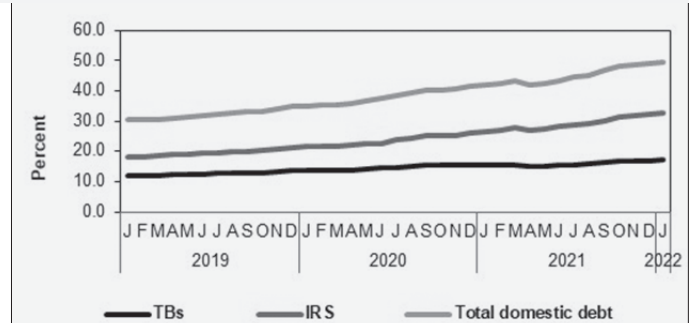

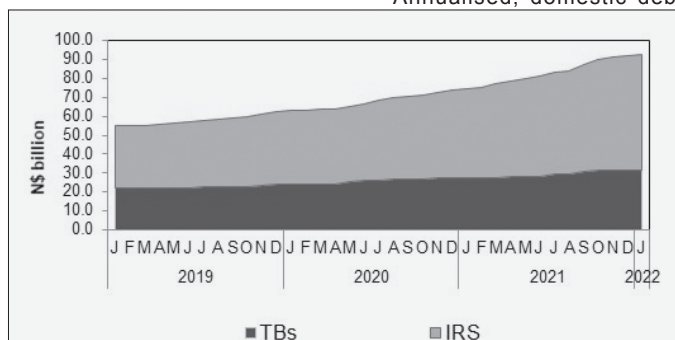

11 FEBRUARY 2022

Namibia's domestic government debt grew to N\$92.5 billion in January, according to the Bank of Namibia's latest monthly report.

The 0.8% increase is the

result of a rise in the sale of Treasury Bills and Internal Registered Stock, which rose by 0.3% and 1.0% respectively to N\$31.9-b and N\$60.7-b.

Annualised, domestic debt

increased by 24.3% owing to an increase in the issuance of both IRS and TBs, which rose by 29.2% and 15.7%, respectively.

As percentage of GDP, domestic debt rose by 0.4 percent-

age point month-on-month and 7.5 percentage points to 49.6%, reflecting increased ratios of both IRSs and TBs to GDP of 6.0 percentage points and 1.5 percentage points.

N\$16.8-M OHANGWENA 2 WELLFIELD CONSULTANCY

11 FEBRUARY 2022

Namibian engineering firm, Element Consulting Engineers, has been awarded the tender for engineering consultancy services for the Ohangwena 2 Wellfield.

The African Development Bank announced the award of the consultancy contract to Element for N\$16,773,941.60 after the company scored 77% on the technical evaluation and was ranked first.

The bid evaluation was approved by the AfDB on 01-Dec-21, triggering the 29-month contract period.

The only other pre-qualified bidder was Nicholas O'Dwyer Ltd from Ireland in joint venture with GCS Water & Environmental Consultants (Pty) Ltd, who scored 73% on the technical evaluation, ranked second with an offer of €1,185,890 plus N\$2,150,000.

Two other companies did not meet the minimum technical score of 70%:

- * Knight Piesold Consulting / GOPA Infra GmbH JV
- * Water Resources Consultants (Botswana) / Shah Technical Consultants Pvt Ltd with sub-consultant Zambezi Consulting Engineers.

The scope of the project includes the development of the Ohangwena 2 aquifer system to improve sufficiency of bulk water supply capacity for the Omafó-Eenhana and Omakango-Onambutu-Eenhana pipeline schemes to meet the

Last of three consultancy contracts awarded under the N\$3.3-b Namibia Water Sector Support Program initiated in 2020 with a N\$1.893-b loan plus N\$54-m grant from the AfDB

2037 water demand. The new scheme will have a capacity of 10,076m³/day (Confidante 17-Dec-21).

Project outline

NamWater supplies bulk potable water from the Oshakati Purification Plant to several schemes, including the Omafó-Eenhana and Omakango-Onambutu pipeline schemes. Due to the inadequate capacity and ageing infrastructure of the schemes, there is a need for the upgrading of the systems to ensure a secure and sustainable water supply to Eenhana as well as the rural communities along these pipelines.

The consultancy services include:

- * design (inception, preliminary and final designs) of the required water supply infrastructure;
- * identifying sites, drilling and pump testing of boreholes;
- * environmental and social related services;
- * contractor procurement and contract administration;
- * project management and construction supervision for 12 months.

Forty-five EOIs were received on 22-Jan-21 for the provision of engi-

neering consultancy services for the Ohangwena 2 Wellfield. Of these, four bidders submitted technical and financial proposals on 18-May-21.

Three bulk water supply projects in northern Namibia

The Ohangwena 2 Wellfield development is one of three projects co-funded by the African Development Bank under the Namibia Water Sector Support Program (NWSSP) through a loan and grant package under the five-year Namibia Water Sector Support Program that started in 2020 at a cost of N\$3.3-b.

The programme is co-financed through a N\$1.893-b loan plus a N\$54-m grant from the AfDB.

The Ohangwena 2 Wellfield consultancy is the last of three contracts to be awarded under NWSSP programme in northern Namibia.

The award of the consultancy contract for the Rundu water treatment plant to Irish company Nicholas O'Dwyer Ltd in JV with GCS Water & Environmental

Consultants was published in *Bulletin* 1426, while the award of the consultancy for the Oshakati Purification Plant Extension to SHAH Technical Consultants Pvt Ltd from India in joint venture with Water Resources Consultants was published in *Bulletin* 1429.

All three consultancy tenders had closed at NamWater on 22-Jan-21 with 138 offers. In May last year 16 pre-qualified consultants then submitted technical and financial offers to NamWater.

The three EOIs were issued in December 2020 by NamWater as Project Implementation Unit for the AfDB-funded projects resorting under the Ministry of Agriculture, Water & Land Reform.

The Project ID Number for all three projects is P-NA-E00-005 under Financing Agreement Reference 2000200004682.

Details on the three projects and the EOIs received were published in *Bulletin* 1385 and the 16 pre-qualified bidders in *Bulletin* 1404.

- * Rare Construction & Engineering = N\$2,848,079.75.

11 FEBRUARY 2022

Paratus Telecommunications has been awarded a contract to provide VPN lines to the Ministry of Agriculture, Water & Land Reform, although its offer was higher than three other.

Four offers were received for the provision of VPN lines to the ministry, when tender NCS/ONB/37-03/2021 closed at the MAWRD in Windhoek at 11:00, Monday 08 November 2021.

But only Paratus was found to be responsive and selected for the award, according to a summary of bid evaluation report notice posted on the MAWRD

N\$4.15-M VPN LINES TO MAWRD

Paratus to provide VPN lines to agriculture ministry after three competitors with lower offers were disqualified

website dated 18-Jan-22.

Bids were invited through Open National Bidding and the invitation was only open to all Namibian bidders. All bids had to be accompanied by a bid securing declaration.

The tender notice was advertised only in *New Era* on 08-Oct-21.

Paratus scored 98% on minimum criteria, offering N\$4,154,738.86 incl. VAT.

The other three offers including VAT, with reasons for disqualification, were from:

- * Virtua Technologies ICT Innovation = N\$3,048,611.64 (scored 49% on the mini-

mum criteria - requirement was 80%)

* MTN Telecommunications = N\$261,667 / month plus N\$20,412.50 once-off (bidder did not initial all pages)

* Mobile Telecommunications Ltd (MTC) = N\$2,909,620.80 (did not stamp bid submission form and Bid Securing Declaration).
