Total FDI inflow of US\$ 60.33 billion received during April to December, 2021

Foreign Direct Investment (FDI) is a major driver of economic growth and an important source of non-debt finance for the economic development of India. It has been the endeavour of the Government to put in place an enabling and investor friendly FDI policy. The intent all this while has been to make the FDI policy more investor friendly and remove the policy bottlenecks that have been hindering the investment inflows into the country. The steps taken in this direction have borne fruit, as is evident from the ever-increasing volumes of FDI inflows being received into the country.

Measures taken by the Government on the fronts of FDI policy reforms, investment facilitation and ease of doing business have resulted in increased FDI inflows into the country. The following trends in India's Foreign Direct Investment are an endorsement of its status as a preferred investment destination amongst global investors:

During April to December, 2021, total FDI inflow of US\$ 60.3 billion has been received. It is 10.6% lower compared to the same period of 2020-21 (US\$ 67.5 billion). Whereas, FDI equity inflow received during F.Y. 2021-22 (April to December, 2021) is US\$ 43.1 billion which is 16% lesser than the FY 2020-21 (US\$ 51.4 billion).

The detailed document is attached for your kind perusal.
