Introduction

Since Apr-June (Q1) 2010-11, the Public Debt Management Cell (PDMC) (earlier Middle Office), Budget Division, Department of Economic Affairs, Ministry of Finance has been bringing out a quarterly report on public debt management on a regular basis. (https://dea.gov.in/public-debt-management). This report pertains to the Q3 of the fiscal year 2021-22, viz., October - December 2021.

The report gives an account of the public debt management and cash management operations during the quarter, and provides detailed information on various aspects of debt management.

While all attempts have been made to provide authentic and accurate information, it is possible that some errors might have crept in inadvertently. Readers may inform us of such errors, if any, and provide their valuable suggestions to improve the contents of this report at pdmc-dea@nic.in.

Section 1:

Macroeconomic Developments

- 1.1 As per the estimates of Gross Domestic Product (GDP) for the third quarter, (October-December) of 2021-22, released by the National Statistical Office (NSO) on 28th February, 2022, the growth rate in GDP at constant prices was estimated at 5.4 per cent during the third quarter of 2021-22 as compared to growth of 0.7 percent in Q3 2020-21. GDP at current prices in the year Q3 2021-22 is estimated at ₹ 63.03 lakh crore, as against ₹ 54.49 lakh crore in Q3 2020-21, showing a growth of 15.7 percent as compared to growth of 6.2 percent in Q3 2020-21. GVA at basic Price at current prices in Q3 2021- 22, is estimated at ₹ 56.87 lakh crore, as against ₹ 49.17 lakh crore in Q3 2020-21, showing a growth of 15.6 percent.
- 1.2 Retail inflation, as per the Headline Consumer Price Index (CPI), increased from 4.48 per cent in October 2021 to 5.66 per cent in December 2021, which further increased to 6.01 per cent in January 2022. The increase in retail inflation was mainly on account of increase in fuel and light inflation. The Consumer Food Price Index (CFPI) showed a similar downward movement, from 0.85 per cent in October 2021 to 4.05 percent in December 2021. However, in January 2022, CFPI increased to 5.43 percent. The Wholesale Price Index (WPI)-based inflation declined during the quarter from 13.83 percent in October 2021 to 13.56 percent in December 2021. The lower WPI inflation was largely due to fall in fuel and power inflation. The WPI inflation decreased to 12.96 percent in January 2022.

Chart 1.1: CPI and WPI Inflation

Source: MOSPI, Office of Economic Adviser

- 1.3 The index of industrial production (IIP) witnessed a positive growth of 4.0 per cent in October 2021 as compared to 4.4 percent registered in September 2021, largely due to low base effect. The IIP continued to show healthy growth of 1.3 percent in November and 0.4 per cent in December. The growth is observed mainly in mining and electricity generation sector. The mining sector witnessed a growth of 11.5 per cent in October against growth of 4.9 per cent in November and 2.6 percent in December. Electricity generation sector also continued to register a growth of 3.1 per cent in October 2021 against 2.1 per cent in November and 2.8 per cent in December 2021. Manufacturing sector also grew by 3.1 percent in October as against 0.8 per cent in November before declining by 0.1 percent in December 2021.
- 1.4 The cumulative value of exports stood at USD 106.83 billion in Q3 2021-22 while the imports were valued at USD 167.59 billion during the same period. Trade deficit at USD 60.76 billion in Q3 2021-22 was higher as compared to USD 35.06 billion in the corresponding quarter of 2020-21. The significantly higher deficit in Q3 of FY 22 was mainly due to higher crude prices during the period. Rising deficit reflects the pick-up in the economic activities resulting in higher imports.
- 1.5 The net foreign direct investment reduced during the current financial year due to increased outflow in comparison to FY 21. The lower FPIs investment was mainly attributed to outflow of investment of USD 737 million during Apr-Dec FY 22 in comparison to inflow of investment of USD 30,536 million in Apr-Dec FY 21.

Table 1.1: Foreign Investment Inflows

(In USD Million)

1.6 India's foreign exchange reserves stood at USD 631.5 billion as on February 25, 2022, up from USD 584.6 billion on February 26, 2021. Between October 1, 2021 and December 31, 2021, the Rupee depreciated by 0.05 per cent. The value of Rupee against dollar as on December 31, 2021 stood at 74.3025 as against 74.2644 as on October 1, 2021.

^{*} Including Borrowing for providing back to back loans to States & UTs for GST compensation cess shortfall

2.5 During Q3 of FY22, 12 weekly auctions of dated securities were held aggregating to ₹ 2,88,000 crore, same as indicated in the borrowing calendar. (**Table 2.3**). The net amount raised through issuance of dated securities was ₹ 2,12,699.55 crore during this quarter as compared to ₹ 2,16,481.85 crore during Q3 of FY21. Like previous year, it was decided to continue distributing total issuance amount under securities of identified maturities in FY22. Govt. issued dated securities across the curve, keeping in view the demand from market and its own maturity preferences. The issuance under 10-year benchmark security was higher at 27.08 per cent of gross issuance in Q3 FY22 compared to 17.61 percent in Q3 FY 21.

- 2.6 The tenor of new issuances of dated securities is a function of acceptable rollover risk as well as market appetite for various maturity segments. During Q3 FY22, the weighted average yield (WAY) on new issuances hardened to 6.33 per cent while the weighted average maturity (WAM) of issuances worked out to 16.88 years.
- 2.7 The gross amount raised through Treasury Bills (91-day, 182-day and 364-day Treasury Bills) during Q3 FY22 amounted to ₹3,87,995.59 crore while total repayments were ₹4,58,708.55 crore (**Table 2.4**). Net issuances during the quarter were at (-) ₹ 70,712.96 crore as compared to (-) ₹148,778.17 crore in corresponding period of last FY. The details of issuance of Treasury Bills during Q3 FY22 are given in Table 2.4.

Section 3:

Cash Management

- 3.1 Government's cash account is maintained with the RBI. The temporary cash flow mismatches, in case of deficit in the cash account of the Central Government, are largely managed through a combination of issuance of Treasury Bills, Cash Management Bills and access to the Ways and Means Advances facility from RBI. Surplus cash balances in Government cash account are lent in market (through RBI) or may be used to buy-back of securities from the market. Further, the Reserve Bank conducts purchase / sale of G-Secs under its Open Market Operations, whenever required, based on its assessment of prevailing and evolving liquidity conditions.
- 3.2 During Q3 FY22, the cash balance of the Central Government remained in surplus obviating the need of resorting to WMA or issuance of Cash Management Bills.
- 3.3 On a review of the liquidity conditions and market situation, the Reserve Bank decided to discontinue Open Market Purchase under G SAP in Q3 which were started in first quarter of FY 2021-22.
- 3.4 Market liquidity conditions remained in surplus mode during the quarter ended December 2021. The net average liquidity absorption by the Reserve Bank under Liquidity Adjustment Facility (LAF) including Marginal Standing Facility and Special Liquidity Facility was ₹ 7,43,033 crore during Q3 FY22 (₹ 6,99,471 crore during Q2 FY22).

Chart 3.1: Outstanding Amount under LAF

- 3.5 The Monetary Policy Committee (MPC) in its policy announcement on October 08, 2021 stated that on the basis of an assessment of the current and evolving macroeconomic situation, it had decided to keep the Policy repo rate under the liquidity adjustment facility (LAF) unchanged at 4.0 per cent. Resultantly, the marginal standing facility (MSF) rate and the Bank Rate remained at 4.25 per cent each. The MPC also decided to continue with the accommodative stance as long as it is necessary to revive growth and mitigate the impact of COVID-19 on the economy, while ensuring that inflation remains within the target going forward. The MPC stated that its decisions were in consonance with the objective of achieving the medium-term target for consumer price index (CPI) inflation of 4 per cent within a band of +/- 2 per cent, while supporting growth.
- 3.6 The net amount mobilised through Treasury Bills (under competitive and non-competitive routes) stood at (-) ₹70,712.96 crore in Q3 FY22. Details of issuances and redemptions of treasury bills (tenor-wise) in Q3 FY22 are given in **Table 3.2**.

Section 4:

Trends in Outstanding Debt

4.1 Total liabilities (including liabilities under the 'Public Account') of the Government, as per provisional data, increased to ₹1,28,41,996.46 crore at end-December 2021 from ₹1,25,71,747.71 crore at end-September 2021 (**Table 4.1**). This represented a quarter-on-quarter increase of 2.15 per cent in Q3 FY22. Public debt accounted for 91.60 per cent of total outstanding liabilities at end-December 2021 from 91.15 per cent at end-September 2021.

Yield on Primary Issuances of G-Secs and Maturity of Outstanding Stock of Market Loans

4.2 The weighted average yield on primary issuances of dated securities showed an increase to 6.33 per cent in Q3 of FY22 from 6.26 per cent in Q2 of FY22 (**Table 4.2**). The weighted average maturity of issuances of dated securities was also higher at 16.88 years in Q3 of FY22 (16.51 years in Q2 of FY22). The weighted average maturity of outstanding stock of dated securities was higher at 11.69 years at the end of Q3 of FY22 as compared to 11.33 years at the end of Q3 of FY21.

| * As at end of pe | eriod | | | | | |

4.3 The proportion of debt (dated securities) maturing in less than one year was lower at 5.44 per cent at end- December 2021 (4.59 per cent at end- September 2021). The proportion of debt maturing within 1-5 years at 24.50 per cent at end- December 2021 also was lower than its level of 24.97 per cent at end- September 2021. Debt maturing in the next five years worked out to 29.94 per cent of total outstanding debt at end- December 2021 *i.e.*, 5.99 per cent of outstanding stock, on an average, needs to be repaid every year over the next five years. Thus, the roll-over risk in dated securities portfolio remains low (**Table 4.3**).

Ownership Pattern

The ownership pattern of Central Government securities indicates that the share of commercial banks stood at 35.40 per cent at end-December 2021, lower than 37.82 per cent at end-September 2021. Share of insurance companies and provident funds at end-December 2021 stood at 25.74 per cent and 4.33 per cent, respectively. Share of mutual funds was 3.08 per cent at the end of quarter December 2021 as against 2.91 per cent at the end of quarter September 2021. Share of RBI went downward at 16.92 per cent at end December 2021 from 16.98 per cent at end-September 2021 (Table 4.4).

Section 5:

Secondary Market

A. Government security yields

5.1 During October – December 2021 quarter, yields on government securities hardened across the curve but were relatively lower between 28-38 year points. On domestic front, market was largely disappointed by discontinuation of Govt. Securities Acquisition Plan by the RBI in 3rd quarter. Spread of new Corona variant, Omicron, to the most parts of the country also led to apprehension of additional borrowings as well as higher retail inflation also affected the sentiments. On global front, higher crude prices in international market after OPEC countries decision to increase oil production by meagre 0.4 mb/d from November 2021 against higher expectation dampened the sentiments. Federal Reserve chairman of USA, Jerome Powell indication about the possibility of tapering the current bond purchase programme in November 2021 also affected the yields in domestic market.

The yields on the 10-year benchmark security increased from 6.22%, at the end of quarter on 30th September 2021 to 6.45% at the end of quarter on 31st December 2021, thus hardening by 23 bps during the quarter.

- 5.2 The other factors which affected secondary market during the quarter were as under:
 - a) Growth in Gross Domestic Product (GDP) Q2 of 2021-22: As per the Press Note released by the National Statistical Office (MoSPI) on 30st November, 2021, the growth rate in GDP at constant prices was estimated at 8.4 percent during the second quarter of 2021-22 as compared to contraction of 7.4 percent in Q2 2020-21.
 - b) Inflation: The headline retail (CPI) inflation for the month of October, November and December was registered at 4.48%, 4.91% and 5.66% respectively, which indicates gradual increase of retail inflation during the quarter. Inflation is one of the major factor affecting yields as higher inflation generally leads to higher interest rates in economy.
 - c) Wholesale Price Index (WPI) inflation stood at 13.83% in October, 14.87% in November and 13.56% in December 2021, reflecting elevated level of WPI, which was due to inflationary pressure in crude, primary articles and manufacturing products.
- 5.3 The spread in yields between 10-1 year was at 205 bps as on December 31, 2021 against 233 bps as on September 30th, 2021, however spread in 30-10 year segment reduced

to 58 bps as on 31st December, 2021 against 73 bps as on 30th September 2021, reflecting more hardening of yield in 10 year security in compare to 30 year security. The spread between 10-5 year yields remains almost at the same level as on December 21 against September 2021. (**Table 5.1 and Chart 5.2**).

Chart 5.1: Movement in 10-Year Benchmark Yield in G-Sec Market

Table 5.1: Yield Spreads (bps)

| Viold carood between | December 31st, | September 30 th , | December 31st, |
|----------------------|----------------|------------------------------|----------------|
| Yield spread between | 2021 | 2021 | 2020 |
| 10-1 year | 205 | 233 | 234 |
| 30-10 year | 58 | 73 | 65 |
| 30-1 year | 263 | 306 | 299 |
| 10-5 year | 44 | 43 | 68 |

Yields were higher at the close of December 2021 as compared to close of September 2021. However, hardening of yields was observed more in shorter segment as well as in 10 year benchmark security mostly due to heavy supply of benchmark security in weekly auctions as well as liquidity tightening measure taken by RBI in its 5th bi monthly monitory policy review meeting on 8th December, 2021.

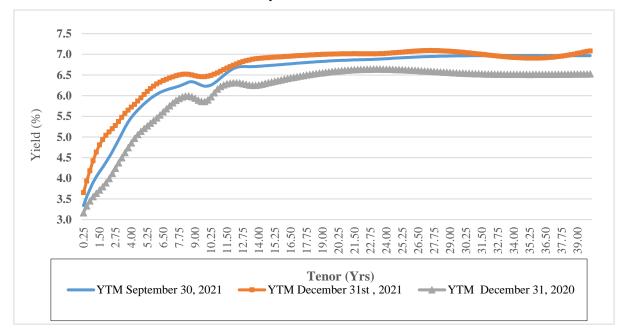

Chart 5.2: Comparative G-Sec Yield Curves

5.5 The hardening of yields was also observed at the short end of curve as RBI stepped up variable Reverse Repo rate auction to suck out surplus liquidity from the banking system.in its fifth bi monthly monitory policy review on 8th December, 2021. The yields of 3 months T-Bills was as 3.59 as on 31st December,2021 against 3.44 as on 30th September, 2021, this hardened by 15 bps. The yields on 6-month and 12-month points were at 3.92 per cent and 4.21 per cent on December 31, 2021, higher by 39 bps and 46 bps, respectively, as compared to their closing levels on September 30th, 2021. In the similar manner, the yields on 3-month, 6-month and 12 month points on December 31, 2021 were higher by 58 bps, 64 bps and 78 bps, respectively over their corresponding levels as on December 31, 2020 (**Chart 5.3**).

| 31 st - December-20 | 3.01 | 3.28 | 3.36 | 3.43 |

5.6 US 10 year yield hardened initially during the quarter and touched a high of 1.68 on 21st October, however some softening were observed afterwards before closing at almost same level of 1.51 at the end of quarter on 31st December, 2021. Crude oil prices also remains at elevated level during the quarter, touched a high of 86.40 before moderating slightly and closed at 77.78 at the end of the quarter. The elevated level of crude prices contributed in hardening of 10 year G- Sec yield in domestic market.

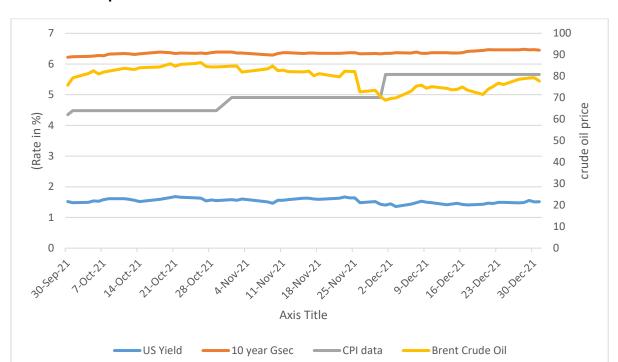

Chart 5.4: Comparative Chart of US 10 Yr Yield, GOI 10 Yr G -Sec, CPI data and Crude Oil price

B. Trading Pattern of Government Securities

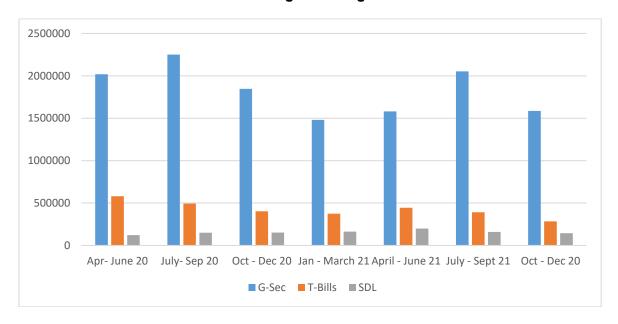

- 5.7 The total outright volume of trading in G-Secs (including T-Bills and SDLs) at ₹ 20.15 lakh crore during Q3 FY 22, showed a y-o-y decline of 16.06 per cent compared to ₹ 24.00 lakh crore during Q3 of FY21 (Table 5.4). This is also lower than ₹ 26.03 lakh crore registered during previous quarter. The lower trading volume in Q3 of FY 22 in compare to previous quarter is mainly due to lower appetite of market, rising crude prices, anticipation of reversal of interest rate cycle as well as Federal Reserve of USA decision on bond tapering.
- 5.8 The share of Central Government dated securities in the total outright volume of transactions remains at the same level of 79 per cent during Q3 FY22 in compare to Q2 FY 22. However, share increased from 77 percent registered in corresponding period of FY 21. The share of Central Government securities in repo transactions also remains at the same level of 76 per cent during Q3 FY 22 in compare to Q2 FY 22. However it is higher than the level of 69 per cent registered in the corresponding period of FY 21.
- 5.9 The annualised outright turnover ratio for G-Secs (including T-Bills and SDLs) for Q3 of FY22 was lower at 2.48 (2.79 during Q3 FY20-21). The annualised total turnover ratio

(outright plus repo transactions) also declined to 10.59 during Q3 of FY22 from 16.03 during Q3 of FY21.

Chart 5.5: Outright Trading Volume in ₹ crore

5.10 The top-10 traded Central Government securities accounted for 79.56 per cent of the total outright trading volume in secondary market during Q3 FY22 (79.61 per cent during Q2 FY22). The share of top-3 traded securities also remains almost at the same level of 67.9 per cent of the total outright trading volume in the secondary market during Q3 FY22, reflecting the concentration of trading pattern in benchmark securities. (67.8 per cent during Q2 FY22) (Table 5.5).

5.11 The trend in outright trading volumes in central G-Secs under different maturity buckets is given in **Table 5.6**.

Table 5.6: Maturity Buckets-Wise Outright Trading Volume in G-Secs (in ₹ crore)

| Maturity | Oct – Dec 2021 | % share | July – Sept 2021 | % share | Oct -Dec 2020 | % share |
|-------------------|-------------------|------------|------------------------|------------|------------------|---------|
| Less than 3 years | 1,10,099 | 6.94 | 1,04,762 | 5.10 | 90,764 | 4.92 |
| 3-7 years | 4,31,811 | 27.23 | 7,51,858 | 36.62 | 4,79,077 | 25.95 |
| 7-10 years | 6,81,537 | 42.98 | 4,48,702 | 21.86 | 8,61, 682 | 46.66 |
| Above 10 years | 3,62,344 | 22.85 | 7,47,719 | 36.42 | 4,14,929 | 22.47 |
| Total | 15,85,791 | 100.00 | 20,53,041 | 100.00 | 18,46,452 | 100.00 |

- 5.12 The maturity distribution of secondary market transactions in Central G-Secs, as presented above, shows that the trading activity was concentrated in 7-10 year maturity bucket during Q3 FY22, mainly because of more trading in 10 year benchmark security.
- 5.13 Private sector banks emerged as dominant trading segment in secondary market during quarter under review with a share of 23.22 per cent in "Buy" deals and 22.88 per cent in "Sell" deals in the total outright trading activity (**Table 5.7**), followed by foreign banks and public sector banks. On a net basis, foreign banks and primary dealers were net sellers while co-operative banks, Fls, insurance companies, mutual funds, public sector banks, private sector banks and 'Others' were net buyers in the secondary market.

Table 5.7: Category-wise Share (%) of Total Outright Trading Activity in G-Secs*

| Category | Oct- December 2021 | | _ | eptember 21 | Oct – December 2020 | |
|------------------------|-----------------------|-------|-------|----------------|------------------------|-------|
| cutoge.y | Buy | Sell | Buy | Sell | Buy | Sell |
