**DECEMBER 2022**

The Ministry of Health and Wellness (MOHW) aims to implement a robust and integrated eHealth System with the right tools, equipment and regulatory framework with the following objectives:

- (i) improving the services provided to all citizens at Health Centres of the MOHW through the definition of appropriate ICT (Information and Communications Technology) strategy to improve the work processes and optimize use of resources;
  - (ii) increasing effectiveness and quality of patient care, thereby increasing patient safety while reducing cost;
  - (iii) ensuring transparency of treatment performance and resource consumption;
  - (iv) generating profound data for health reporting and health system planning;
  - (v) developing new markets by means of new eHealth applications and medical services, thereby strengthening the health industry; and
  - (vi) improving involvement of the patient and increased responsibility.
2. A key partner in implementing the eHealth system is the UNDP Mauritius Country Office who has been assisting the Ministry in implementing several digital health-related projects aligned with international best practice and the eHealth vision of the Government.
  3. Request for Proposal for the Supply, Design, Installation, Testing and Commissioning of the eHealth System has been launched by the United Nations Procurement Programme (UNDP) as per the following link: [https://procurement-notices.undp.org/view\\_negotiation.cfm?nego\\_id=1210](https://procurement-notices.undp.org/view_negotiation.cfm?nego_id=1210)
