

PHD CHAMBER
OF COMMERCE AND INDUSTRY

4th

Retail Supply Chain Summit

Innovate, Integrate, Excel: SCM 4.0

24th November 2023, PHD House, New Delhi

Background

The retail industry in India is a dynamic and rapidly growing sector that plays a crucial role in the country's economy. It encompasses a wide range of businesses involved in the sale of goods and services to consumers. The Indian retail sector has witnessed significant growth over the past few decades, driven by factors like rising income levels, urbanization, and changing consumer preferences.

The supply chain in the Indian retail sector is a critical component, as efficient logistics and distribution are essential for timely and cost-effective product delivery. It encompasses various elements, including procurement, warehousing, transportation, and inventory management. Advancements in technology and data analytics have facilitated improvements in supply chain management, helping retailers optimize their operations and reduce costs.

The Indian retail industry look promising. It is expected to continue growing, driven by factors like increasing consumer spending, urbanization, and a rising middle class. E-commerce is likely to maintain its strong presence and drive innovation in the sector. Additionally, the adoption of advanced technologies like artificial intelligence (AI), machine learning, and blockchain is expected to further enhance supply chain efficiency in the retail industry.

The Indian retail sector is poised for continued evolution and expansion in the years to come.

About the Summit

The 4th edition of the **Retail Supply Chain Summit** marks a pivotal moment in the world of supply chain management within the retail industry. Under the theme of "**Innovate, Integrate, Excel: SCM 4.0,**"

The summit is poised to be an exceptional gathering of thought leaders, industry experts, and professionals. Our mission is to explore the ever-evolving landscape of retail supply chains and discover how innovation, integration, and excellence are driving transformation.

This summit will offer invaluable insights into strategies and best practices for achieving cohesive integration throughout your supply chain, fostering collaboration, and achieving end-to-end visibility that is essential for modern retail operations.

The Summit will provide you the opportunity to learn from industry leaders who have mastered the art of optimizing their supply chains, achieving sustainability goals, and delivering exceptional customer-centric solutions. Success stories and best practices will provide inspiration for driving your supply chain toward unprecedented levels of excellence.
