COOPERATIVE SUMMIT

Cooperatives have played a vital role in India, making significant contributions to important areas like food security, poverty reduction, and the responsible management of our natural resources and environment. These cooperative efforts are also pivotal in advancing sustainable development and ensuring that no one is left behind.

Under the able leadership of our Prime Minister, for bringing the shared vision of 'Sahkar se Samridhi' (Prosperity through Cooperation), Government of India has established the Ministry of Co-operation. This ministry has the power to bring about transformation in the cooperative movement across the nation. By promoting digital inclusion and embracing social, livelihood, and financial inclusion, we can drive fundamental changes in our economy and commit to a progressive future. However, we must remember that these goals can only be achieved when our cooperative movement in India is strong and flourishing.

This Summit aims to provide a platform for cooperative leaders, members, and stakeholders to gain insights into best practices, innovation, and strategies that contribute to the success of cooperative enterprises. Cooperatives in India have made profound contributions in food security, poverty alleviation, management of natural resources and the environment. They are also significantly contributing to sustainable development and social inclusion. Digital Inclusion, accompanied by the Social, Livelihood and Financial Inclusion can foster structural reforms and open up the economy with progressive commitments.
