The presidency has N\$80.3-m to spend on two projects, accounting for the biggest, 26.3% share of the cluster total, following a N\$5.7-m or 6.64% cutback on its initial N\$86-m ceiling at the beginning of the year.

2 FEBRUARY 2024

After the Namibian government's cutback in the development budget for its administrative cluster by over 19% midyear to less than its N\$319-m expenditure eight years ago in 2016/17, the presidency was least affected, with almost half its remaining N\$80-m being spent on security infrastructure run by the Central Intelligence Services, accounting for nearly 13% of the cluster's entire N\$305-m in 2023/24.

Last year, most of the presidency's N\$60-m allocation was spent the security project, accounting for 14% of the administrative cluster's N\$195.7-m revised expenditure.

Ranked fifth and last amongst clusters, the administrative sector has a development budget of N\$305-m after midyear 2023/24 accounting for 4.7% of the N\$6.486-b grand total - only marginally behind health and welfare - following a 19.25% or N\$72.7-m cutback on its N\$377.7-m allocation at the beginning of the year accounting for a much higher 5.8% of the total.

Its initial N\$377.7-m development budget at the beginning of this year was an enormous 93% or N\$182-m increase over its N\$195.7-m revised expenditure in 2022/23 when it accounted for a much lower 3.56% of the total.

Although it receives foreign loans for operational expenditure, all the administrative cluster's development budget is funded domestically.

The administrative cluster's N\$195.7-m revised development expenditure in 2022/23 was less than a third of the N\$670-m it was in 2017/18.

The administrative cluster's 19.25% or N\$72.7-m cutback on its development budget midyear in 2023/24 to N\$305-m was by far the deepest of all five - ahead of the health and welfare cluster's N\$12.2-m or 3.78% reduction from its original N\$322.5-m at the beginning of the year to N\$310.3-m.

It was also more than the economic cluster's 0.84% or N\$35.8-m reduction from N\$4.258-b to N\$4.222-b as well as the overall development budget's 0.31% or N\$20-m decrease from N\$6.5-m initially to N\$6.486-b.

## Comparing clusters in the 2023/24 development budget

In its traditional first place, the economic cluster has N\$4.222-b to spend on development projects after mid-year 2023/24, accounting for 65.09% of the N\$6.486-b total following a marginal N\$35.8-m or 0.84% cutback on its N\$4.258-b at the beginning of the year when it accounted for 65.44% of the N\$6.5-b total, which had been a 6.64% or N\$264.97-m increase over 2022/23's N\$3.99-b development expenditure accounting for a much higher 73.3% of the N\$5.46-b total.

The economic cluster's domestically-funded development budget in 2023/24 is augmented by N\$2.074-b in foreign loans outside the State Revenue Fund:

\* N\$10-m for Vote 15 - Urban & Rural Development (none the previous two years);

\* N\$0-m for Vote 18 - Environment, Tourism & Forestry (nil last year; N\$53.998-m in 2021/22);

\* N\$17.51-m for Vote 19 - Mines & Energy (nil last year and in 2021/22);

\* N\$945.552-m for Transport - Vote 24 (N\$1,700,060,000 last year; N\$779.939-m in 2021/22);

\* N\$88-m for Vote 37 - Agriculture & Land Reform (N\$135.974-m last year; N\$272.48-m in 2021/22); and

\* N\$1,012,946,000 for Vote 38 - Water (N\$622.98-m last year; N\$22.399-m in 2021/22).

\* In second place, the education cluster's post-midyear N\$881.67-m development budget in 2023/24 accounts for 13.6% of the N\$6.486-b total following a N\$99.67-b or 12.75% increase - the biggest of all clusters - over its N\$782-m allocation at the beginning of the year, which had been a huge 90.7% or N\$372-m increase on last year's revised N\$410-m development expenditure accounting for a much lower 7.5% of the N\$5.46-b total.

The education cluster was the only one to suffer a midyear cutback in its development budget in 2022/23.

The education cluster's N\$881.67-m domestically-funded development budget in 2023/24 is augmented by N\$291.087-m foreign loans outside the State Revenue Fund:

## Bureaucracy down,

\* N\$52.087-m for Education, Arts & Culture - Vote 10 (N\$250-m last year; N\$350-m in 2021/22)

\* N\$239-m for Higher Education, Training & Innovation - Vote 32 (N\$10-m last year; nil in 2021/22).

\* In third place, the security cluster has N\$767.57-m to spend on development projects after midyear 2023/24, accounting for 11.83% of the total following a 0.13% or N\$972,000 increase over its N\$766.6-m allocation at the beginning of the year accounting for 11.78%, which had been N\$86-m or 12.65% more than its N\$680.5-m revised expenditure last year accounting for a higher 12.46% of the total.

All the security cluster's development budget is funded internally through the SRF.

\* The health and welfare cluster has N\$310.297-m to spend on development projects after midyear 2023/24, accounting for 4.78% of the total in fourth place, following a N\$12.2-m or 3.78% cutback on its N\$322.5-m ceiling at the beginning of the year accounting for 4.96%, which had been a generous 49.3% or N\$106.5-m increase over last year's revised N\$216-m development expenditure accounting for a much lower 3.96% of the total.

All the health and welfare cluster's development budget is funded domestically through the SRF.

\* Fifth and last amongst clusters, the administrative sector has a development budget of N\$305-m after midyear 2023/24 accounting for 4.7% of the N\$6.486-b grand total - only marginally behind health and welfare - following a 19.25% or N\$72.7-m cutback on its N\$377.7-m allocation at the beginning of the year accounting for a much higher 5.8% of the total.

Its initial N\$377.7-m development budget at the beginning of this year was an enormous 93% or N\$182-m increase over its N\$195.7-m revised expenditure in 2022/23 when it accounted for a much lower 3.56% of the total.

Although it receives foreign loans for operational expenditure, all the administrative cluster's development budget is funded domestically.

## Administrative cluster over the past two years

Also ranked fifth and last in 2022/23, the administrative cluster's N\$195.7-m revised development expenditure accounted for a

lower 3.56% of the N\$5.5-b grand total, which was a not inconsiderable 18.67% or N\$30.79-m increase over 2021/22's actual N\$164.9-m expenditure, accounting for a smaller 3.5% share of N\$4.7-m total development expenditure - less than last year's 3.56% and this year's 4.7% after midyear.

So in relative terms, things are looking up for the administrative cluster, despite its latest midyear cutback.

Still, in 2022/23, the administrative cluster's original development ceiling was increased by N\$11.5-m or 6.24% midyear from N\$184.2-m to N\$195.7-m, its share of the total falling marginally from 3.69% of N\$5-b at the beginning of 2022/23 to 3.56% of N\$5.5-b after midyear.

Although this 6.24% increase was below the 9.96% increment in the overall development budget, it was more favourable than the health and welfare unchanged allocation for capital projects and the education cluster's 7.45% mid-year reduction.

The administrative cluster's actual N\$164.9-m development expenditure in 2021/22 turned out to be considerably less than its N\$250.4-m revised expenditure on capital projects after midyear and still lower than its initial N\$276.3-m allocation before being reduced by 9.37% or N\$25.9-m.

## The security project, health & welfare

This 9.37% cutback midyear 2021/22 was the second-lowest after health and welfare's 16% reduction and contributed 9.26% to the N\$280-m midyear reduction in the overall development budget - well below health and welfare's 22.5%.

The administrative cluster's N\$276.3-m development allocation at the start of 2021/22 was 13.86% below 2020/21's actual N\$320.76-m expenditure when it enjoyed almost 5% of the N\$6.456-b total - ahead of health and welfare's 4%.

In the process, the administrative cluster contributed N\$44.54-m or 4.68% to the overall N\$950.5-m reduction in the total development budget between 2020/21 and the beginning of 2021/22 - the least of all clusters except health and welfare's 13.3% gain.

There's one caveat however: within the administrative cluster's development budget - before and after midyear 2021/22, the presidency's N\$40.866-m share

N\$48.36-m has been voted for the presidency's biggest project - construction of Chief Hosea Kutako Shrine in Aminius.

security infrastructure project run by the Namibia Central Intelligence Services.

This project, which strictly speaking belongs in the security cluster, was only one of two development projects in the Office of the President and by far its biggest, the other being N\$14-m for the construction of the Chief Hosea Kutako Shrine in Aminius (which was again prioritized in 2022/23's midyear addition to the Office of the President and again features as the presidency's other project in 2023/24, although more has been voted for it than the security project).

The security project was again the presidency's biggest project in 2022/23, with N\$27-m, compared to N\$18-m for the Chief Hosea Kutako shrine.

In 2022/23, this security project in the presidency consumed 13.8% of the administrative cluster's N\$195.7-m midyear allocation, compared to 12.3% after midyear 2023/24.

## The administrative cluster in previous years

The N\$321-m spent by the administrative cluster on development projects in 2020/21 had been a generous 28% increase on 2019/20's N\$250-m – the second-biggest increment in development expenditure amongst all five clusters – after only the education sector at the time.

The administrative cluster's N276.3-m development allocation at the start of 2021/22 was 13.86% below 2020/21's revised N\$321-m when it enjoyed almost 5% of the N\$6.456-b national total – ahead of health and welfare's 4%.

Compared to its fifth and lowest ranking over the past three years, in 2020/21 the administrative cluster had the fourth-biggest (out of five) share of the 2020/21 development budget, with N\$320.76-m of the N\$6.5-b midyear revised domestically-funded total development budget.

The administrative cluster had N\$344.26-m for development projects at the beginning of that year, accounting for 5.37% of the initial N\$6.4-b overall development expenditure.

Following a N\$23.5-m or 6.8% cutback at midyear – the second-biggest reduction after health/welfare – its share of the N\$6.5-b adjusted development budget fell to 4.9% in 2020/21.

The administrative cluster's original development budget in 2019/20 was 21% below 2018/19's N\$489.345-m spread across 25 projects, which in turn, was sharply below 2017/18's original allocation of N\$670.2-m spread across 37 projects. This was subsequently reflected as N\$254.465-m expenditure – below the administrative cluster's actual development expenditure of N\$318.65-m the year before in 2016/17.

After 2019/20's midterm revisions, the cluster total was even lower than

it had been four years earlier, while its project count has declined from 37 in 2017/18 to 23 in 2023/24.

## This year's development allocations across the administration cluster

Our project-by-project procurement guide to the Namibian government's 2023/24 development budget currently underway continues this week with a detailed look at the administrative cluster, consisting of the largest number of twelve out of 37 votes, eight of which have development allocations in 2023/24, compared to seven last year, thirteen in 2021/22 and eight in 2020/21):

- \* Vote 1 – President;
- \* Vote 2 – Prime Minister;
- \* Vote 3 – National Assembly;
- \* Vote 7 – International Relations & Cooperation;
- \* Vote 9 – Finance & Public Enterprises;
- \* Vote 23 – Works;
- \* Vote 29 – Information & Communication Technology
- \* Vote 30 – Anti-Corruption Commission.

Oddly, Vote 26 – National Planning Commission – has no development allocation in 2023/24, as in 2022/23, after recording N\$98.6-m in revised project expenditure in 2020/21, subsequently recorded as nil in the 2022/23 budget book, after the national census was suspended in its entirety.

Yet the Namibia Statistics Agency (which resorts under the NPC) conducted its national census in the 2023/24 financial year, and is supposed to be completing its post-survey tasks – ostensibly without any funding.

The remaining votes in the cluster that have no development allocations in 2023/24 are:

- \* Vote 4 – Auditor General
- \* Vote 11 – National Council
- \* Vote 21 – Office of the Judiciary
- \* Vote 26 National Planning Commission
- \* Vote 28 – Electoral Commission
- \* Vote 34 – Public Enterprises
- \* Vote 35 – Attorney General.

All of them have not had development allocations over the past seven years including 2023/24, except the National Planning Commission that has not featured over the past four years.

The administrative cluster has 23 projects under implementation in 2023/24, more than last year's 21, compared to 20 in 2021/22, nineteen the year before, 21 in 2019/20 and 26 in 2018/19 (ten of which were scaled back midyear).

The number and identity of projects

**N\$50-m has been allocated to the Works Vote's biggest and only new project in 2023/24 - renovation of state hospitals, including the rehabilitation of clinics, staff accommodation and upgrading of health infrastructure and services.**

**Works has the second-biggest development budget in the administrative cluster, with N\$76-m to spend on eleven projects (the most of all votes in the cluster), accounting for almost 25% of the cluster total following a N\$14-m or 15.56% cutback on its N\$90-m ceiling at the beginning of the year.**

scaled back this and the previous four years remain undisclosed because of the finance ministry's redacted midyear budget format introduced in 2020/21.

## The Presidency

The Office of the President (Vote 1) has the biggest share of the administrative cluster's 2023/24 development budget after midyear – a promotion from the beginning of the year when it ranked second behind the Works Vote and the two previous years when it ranked second behind International Relations & Cooperation.

The presidency has N\$80.3-m to spend on the same two projects as in the past three years, accounting for 26.3% of the N\$305-m cluster total, following a N\$5.7-m or 6.64% cutback on its initial N\$86-m ceiling at the beginning of the year when it accounted for 22.77% of the N\$377.7-m cluster total in second place behind the Works Vote.

Its N\$86-m development budget at the beginning of 2023/24 had been a generous N\$26-m or 43.3% increase over last year's revised N\$60-m expenditure when it accounted for 30.66% of the N\$195.7-m cluster total in second place.

This N\$60-m revised expenditure last year followed a generous N\$15-m or 33.3% midyear increase on its N\$45-m allocation at the beginning of 2022/23 when it accounted for 24.4% of the N\$184.2-m cluster total.

Its revised expenditure in 2022/33 followed another generous N\$17-m or 39.7% increase over 2021/22's actual N\$42.95 development expenditure when it accounted for 26% of the N\$164.9-m cluster total.

This, in turn, had been marginally N\$866,000 or 1.9% less than its actual N\$45.866-m expenditure in 2021/22, accounting for 18.3% of the N\$250.8-m cluster total in third place.

This was after a 16.4% or N\$9-m midyear cutback from its original N\$54.87-m allocation at the beginning of 2021/22, accounting for just below 20% of the N\$276-m total.

The Presidency's initial allocation in 2021/22 had been a 19.5% increase on 2020/21's actual N\$45.9-m expenditure, accounting for 14% of the N\$321-m cluster total.

## The presidency's projects

N\$48.36-m has been voted for the biggest of the presidency's two projects under implementation in 2023/24 - construction of Chief Hosea

Kutako Shrine in Aminius, reflecting N\$18-m revised expenditure last year and N\$12-m in 2021/22.

According to the NPC's development budget, however, nothing was spent on this project in its first year in 2021/22.

N\$37.64-m has been voted for the OP's second project in 2023/24 - upgrading of state security infrastructure – traditionally its biggest project.

Last year's revised expenditure on the security project reflects only N\$19-m of the N\$27-m voted at the beginning of 2022/23 (N\$34.866-m actually spent in 2021/22 was less than N\$40.866-m voted).

N\$422.6-m has been spent on this project until 2021/22 since starting in 2014/15, of which the executing agency was changed from 'Namibia Central Intelligence Services' in previous years to 'President' in 2022/23.

It provides for construction, renovation, and acquisitions of operational equipment for HQ and regional offices to provide office accommodation and security for intelligence operations.

This was the Presidency's one and only project in 2020/21 and in 2019/20.

Below is a project-by-project listing of the Office of the President's two projects currently under implementation in 2023/24. Refer to the accompanying key to abbreviations of procurement categories.

#### Works

**W**orks (Vote 23) has the second-biggest development budget in the administrative cluster in 2023/24, with N\$76-m to spend on eleven projects (the most of all votes in the cluster), accounting for almost 25% of the N\$305-m cluster total following a N\$14-m or 15.56% cutback on its N\$90-m ceiling at the beginning of the year when it accounted for 23.8% of the N\$377.7-m cluster total – also in second place, but behind Information & Communication Technology.

Its N\$13-m revised project expenditure on nine projects in 2022/23 ranked it fourth, accounting for 6.6% of the N\$195.7-m cluster total.

This N\$13-m was N\$7.277-m or 35.8% less than 2021/22's actual N\$20.277-m expenditure accounting for 12.3% of the N\$164.9-m cluster total in third place.

This was well below its revised N\$26.5-m development ceiling after midyear in 2021/22 – also for nine projects and in line with its initial N\$26.16-m allocation at the beginning that year with a 10% share of the total.

Its original 2021/22 allocation had been a hefty 131.58% increase on the previous year's N\$11.7-m in fifth place, before being trimmed by N\$1-m in those midyear revisions.

#### The Works Vote's biggest projects

**N**\$50-m has been allocated for Vote 23's biggest and only new project in 2023/24 – renovation of state hospitals, also consisting of the

rehabilitation of clinics, staff accommodation and upgrading of infrastructure and services.

\* N\$25.54-m has been voted for the Works Vote's second-biggest project in 2023/24 – ongoing renovations and minor capital renovations of government facilities on an ad-hoc basis, reflecting N\$2.5-m revised expenditure last year and a total of N\$34.335-m until 2021/22 since the project started in 1993/94.

\* Only N\$4.57-m has been voted in 2023/24 for upgrading the Ministry of Works & Transport's head office in Windhoek, on which N\$2.24-m was spent last year out of N\$5-m voted. N\$8.2-m has been spent on this project until 2021/22 since starting in 1994/95, which had a price tag totaling N\$16-m when last disclosed in 2020/21.

Between N\$500,000 and N\$5-m has been voted for each of the remaining eight projects in the Works Vote.

Below is a project-by-project listing of the Works Vote's eleven projects currently under implementation in 2023/24. Refer to the accompanying key to abbreviations of procurement categories.

#### VOTE 23 - Works

Eleven projects (one new) – N\$90-m reduced midyear to N\$76-m – all funded by the GRN.

##### 23/03/1 - Photo-voltaic and electrical installations

NPC CODE 325 - Solar/electrical generator installation at govt. facilities in places where there is no electrical grid power such as remote rural areas to reduce costly use of gas, diesel and other fuels. Electrical reticulation in existing buildings including conduits, wiring and distribution boards with standby batteries or generator sets. 2023/24 - installation of solar electrification to the MWT HQ in Windhoek [same as 2021/22 - was not on the budget in 2022/23].

**N\$82-m has been voted Information & Communication Technology's biggest project - expansion of the broadcasting network and systems upgrade, on which nothing has purportedly been spent until 2020/21 since the project started in 1992/93 – a highly doubtful claim.**

COMPOSITION: CRI = N\$50,000,000.

### 23/06/1 - Upgrading of network infrastructure and expansion of IT services to regional offices

NPC CODE 18335 - ICT infrastructure upgrade at the MWT head office [regional govt garage and govt stores around the country no longer mentioned]. 2023/24 - continue with upgrading of MWT ICT infrastructure at regional offices. 2022/23 - revised to installation and configuration of WIFI at head office from personnel training, payment of yearly subscription fees, upgrading of ICT equipment.

STARTING YEAR: 2014/15; PURPORTED PAST EXPENDITURE (TO 2021/22) = N\$4,697,000  
VOTED LAST YEAR (2022/23) = N\$255,000  
VOTED 2023/24 (excl. midyear revisions not disclosed) = N\$765,000  
COMPOSITION: CRI = N\$765,000.

### 23/07/1 - Renovation of Government Stores

NPC CODE 18635 - Upgrade regional office in Windhoek, Ondangwa and Rundu Kavango East.

**The Office of the Prime Minister has N\$5.7-m to spend on two projects, accounting for 1.88% of the cluster total in fifth place, following a sharp N\$4.28-m or 42.8% cutback on its initial N\$10-m development allocation at the start of the year.**

2023/24 - finalise renovation of Ondangwa Govt Stores and renovate Windhoek Govt Stores [same as two previous years]; renovate Otjiwarongo Govt Stores [same as 2022/23].

STARTING YEAR: 2015/16; PURPORTED PAST EXPENDITURE (TO 2021/22) = N\$0  
VOTED LAST YEAR (2022/23) = N\$100,000  
VOTED 2023/24 (excl. midyear revisions not disclosed) = N\$784,000  
COMPOSITION: CRI = N\$784,000.

## Information & Communication Technology

Information & Communication Technology (Vote 29) is again ranked third in the administrative cluster, with N\$72-m to spend on two projects in 2023/24, accounting for 23.6% of the cluster total following a N\$28-m or 28% cutback on its N\$100-m budget the beginning of the year when it accounted for 26.48% of the total.

Vote 29's N\$100-m development budget at the beginning of 2023/24 – the year leading up to general elections – had been almost treble its N\$35-m revised expenditure in 2022/23, when it accounted for 17.88% of the cluster total.

Its projects budget last year was unaffected midyear and had been over N\$25-m or 25.4% more than its actual N\$9.876-m expenditure in 2021/22 – very far from its N\$81-m voted ceiling for capital projects that year.

This N481-m had been a whopping 200% increase on 2020/21's N\$27-m actual expenditure after that year's midterm revisions, following a N\$3-m or 10% cutback from its initial N\$30-m.

**N\$54-m has been voted for International Relations & Cooperation's biggest project - purchasing, construction and renovating of diplomatic premises abroad.**

It original N\$30-m voted at the beginning of 2020/21 was 40% higher than 2019/20's N\$21.4-m – less than the N\$18.45-m it was allocated at the beginning of 2019/20.

## Information & Communication's projects

N\$82-m has been voted Information & Communication Technology's biggest of two development projects in 2023/24 - expansion of the broadcasting network and systems upgrade, reflecting N\$27-m revised expenditure last year.

The NPC's development budget would have us believe that not one cent has been spent on this project until 2020/21 since commencing in 1992/93 (according to the NPC's budget document). No expenditure over so many years is highly suspect.

**In fourth place, International Relations & Cooperation has N\$68-m to spend on two projects, accounting for 22.3% of the cluster total following a N\$6-m or 8% cutback on its N\$74-m development ceiling at the beginning of the year.**

No expenditure is recorded for 2020/21 when the project did not appear at all; although a lot was reportedly done during that year with an unknown allocation.

This consisted of DTT Network design completed; satellite uplink system, installation and commissioning have been completed; 14 satellite downlink site installations completed and commissioned; standby generator installations at Oshakati and Kamanjab transmitter stations completed; DTT pilot project at Klein Windhoek Stations completed; airconditioning installations at Katima Mulilo transmitter station and studio completed.

In addition, initial site investigations and EIA surveys were completed in 2020/21, together with preliminary designs of generic masts.

Achievements in 2021/22 are reported as "some computers, laptops and related acquisitions due to limited allocations."

The N\$27-m revised expenditure for 2022/23 is less than half 2021/22's N\$58-m.

Below is a project-by-project listing of the Information & Communication Technology Vote's two projects currently under implementation in 2023/24. Refer to the accompanying key to abbreviations of procurement categories.

### VOTE 29 - Information & Communication Technology

Two projects – N\$100-m reduced midyear to N\$72-m.

### 29/02/4 - MICT office construction (regional offices)

NPC CODE 18725 - 2023/24 - start construction phase of Hardap Regional office. Purchase of land for Kunene and //Karas regional offices. Start with Feasibility and documentation of Kunene and //Karas regional office [same as previous two years with 2022/23 now revised to Kavango West and Zambezi regional office practical completion done and retention paid].

STARTING YEAR: 2015/16; PURPORTED PAST EXPENDITURE (TO 2021/22) = N\$0  
VOTED LAST YEAR (2022/23) = N\$8,000,000  
VOTED 2023/24 (excl. midyear revisions not disclosed) = N\$18,000,000

COMPOSITION: M&S = N\$0; OSP = N\$0; FOE = N\$1,000,000; CRI = N\$14,000,000; FSDS = N\$3,000,000.

FUNDING SOURCE: GRN.

### 29/04/2 - Expansion of Broadcasting Network and Systems Upgrade

NPC CODE 5018 - Upgrade ICT infrastructure across the country, expansion of modern broadcasting services. 2023/24 - nothing specific [same as 2022/23].

STARTING YEAR: 1992/93; PURPORTED PAST EXPENDITURE (TO 2021/22) = N\$0  
VOTED LAST YEAR (2022/23) = N\$27,000,000  
VOTED 2023/24 (excl. midyear revisions not disclosed) = N\$82,000,000

COMPOSITION: OEMP = N\$82,000,000.  
FUNDING SOURCE: GRN.

## International Relations & Cooperation

After enjoying first place within the administrative cluster over the past three years, International Relations & Cooperation (Vote 7) has been relegated to fourth, with N\$68-m to spend on two projects in 2023/24, accounting for 22.3% of the cluster total following a N\$6-m or 8% cutback on its N\$74-m development ceiling at the beginning of the year when it accounted for 19.6% - also in fourth place.

Its N\$74-m development budget at the beginning of this year had been N\$2.68-m or 3.76% more than 2022/23's revised N\$71.32-m expenditure – also on two projects, after its initial N\$73.3-m allocation was reduced midyear.

Its N\$71.32-m revised expenditure last year was a little over N\$10-m or 12.4% less than its actual N\$81.4-m expenditure in 2021/22 when it accounted for 49.35% of the cluster total.

This, in turn, was N\$27.9-m or 25.5% less than 2020/21's actual N\$109.3-m development expenditure when it accounted for 34% of the cluster total, which had been 9.7% below 2019/20's actual N\$121-m.

Its actual N\$109.3-m expenditure in 2020/21 was less than its N\$344.26-m allocation at the beginning of that year.

## International Relations & Cooperation's projects

N\$54-m has been voted for Vote 7's biggest of two projects in 2023/24 - purchasing, construction and renovating of diplomatic premises abroad, reflecting N\$53.32 revised expenditure in 2022/23 (out of N\$55.5-m voted), with N\$685.4-m spent until 2021/22 since the project began in 2019/20.

N\$55-m was spent on this project in 2021/22 - half of 2020/21's N\$109-m.

Prior to 2023/24, when Information & Broadcasting was allocated N\$82-m for its network expansion project, Vote 7's diplomatic premises project had been the single biggest project in the administrative cluster over the past four years.

#### Prime Minister

The Office of the Prime Minister (Vote 2) has N\$5.7-m to spend on two projects in 2023/24, accounting for 1.88% of the cluster total in fifth place, following a sharp N\$4.28-m or 42.8% cutback on its initial N\$10-m development allocation at the beginning of the year when it accounted for a higher 2.65% of the cluster total but in sixth place out of seven active votes.

Its N\$10-m development budget at the start of 2023/24 had been a significant N\$6-m or 37.5% reduction on last year's revised N\$16-m expenditure – the same amount with which it started 2022/23 when it accounted for a much higher 8.18% of the cluster total but in fifth place.

The OPM's N\$16-m revised expenditure last year had been a massive N\$13.126-m or 456.7% increase over its N\$2.874-m actual development expenditure in 2021/22, when it accounted for only 1.74% of the cluster total in sixth and second-last place.

Vote 2's actual expenditure in 2021/22, in turn, was a fraction of the N\$8.5-m to which its allocation had been cut midyear by N\$14.4-m or 63%

## How the national census was conducted

from N\$23-m at the start of the year, when it accounted for over 8% of the cluster total.

The OPM's N\$2.576-m actual development expenditure in 2020/21 came after its allocation at the beginning of the year was reduced by N\$1-m, its share of the administrative cluster falling from 1.04% to only 0.8% at the time.

Its development ceiling at the start of 2020/21 was already 54% less than 2019/20's N\$7.8-m, to which its N\$18.8-m allocation at the start of 2019/20 was cut by 58.5% or N\$11-m, its share of the administrative cluster more than halving from 4.9% at the beginning of 2019/20 to 2.2% post-midyear.

As in the case of previous years, both the OPM's projects in 2023/24 have to do with head office renovations, the biggest being N\$9-m for renovations to United House, reflecting N\$13.2-m revised expenditure last year (out of N\$20-m).

Yet, according to the NPC's development budget, nothing has been spent on this project until 2021/22 since starting in 2019/20.

Below is a project-by-project listing of the OPM's two projects currently under implementation in 2023/24. Refer to the accompanying key to abbreviations of procurement categories.

#### Finance & Public Enterprises

Vote 9 is the only one in the administrative cluster with an increased development budget after midyear 2023/24, with N\$2-m to spend on two projects accounting for 0.66% of the cluster total after its N\$1.7-m ceiling at the beginning of the year, accounting for 0.45% of the cluster total was increased by N\$300,000 or 17.65%, ranking it sixth and second-last with a 0.66% share.

Vote 9 started 2022/23 with N\$1.5-m with a 0.8% share, but this was all wiped out midyear.

It was ranked seventh and last in 2021/22 with N\$3-m expenditure on two projects – unaffected midyear and accounting for 1.2%, but its actual expenditure is now reflected as a significantly higher N\$3.963-m accounting for 2.4% in fifth place.

Vote 9 spent N\$4.2-m on two projects (four in 2019/20) in 2020/21, after its

N\$1-m has been voted for the construction of staff housing at Trans-Kalahari Border Post in the Omaheke Region under the Finance Vote, with nothing purportedly spent on this project until 2021/22 since starting in 2010/11 - which is hardly credible.

In sixth place, Finance & Public Enterprises is the only vote in the administrative cluster with an increased development budget after midyear 2023/24, with N\$2-m to spend on two projects accounting for 0.66% of the cluster total after its N\$1.7-m ceiling at the beginning of the year was increased by N\$300,000.

## without a project budget remains a mystery

initial N\$5.7-m allocation was reduced by N\$1.5-m or 26% midyear.

Its initial allocation in 2020/21 was 28.75% less than 2019/20's N\$8-m, after being allocated N\$10-m initially.

After having had all three its projects suspended midyear in 2022/23, Vote 9 has two projects in 2023/24.

N\$1-m has been voted for the construction of staff housing at Trans-Kalahari Border Post in the Omaheke Region, reflecting nil expenditure last after its N\$1.5-m allocation was wholly suspended midyear.

Nothing has purportedly been spent on this project until 2021/22 since starting in 2010/11, according to the NPC's development budget - which is hardly credible.

Below is a project-by-project listing of the Finance & Public Enterprises Vote's two projects currently under implementation in 2023/24. Refer to the accompanying key to abbreviations of procurement categories.

### VOTE 09 - Finance & Public Enterprises

Two projects - N\$1.7-m increased to N\$2-m midyear.

#### 09/06/9 - Construction of an Administration Block at Wenela Border Post, Zambezi

NPC CODE 4120 - 2023/24 - feasibility study, design, documentation and supervision [2022/23 - feasibility study, now reported as 'none'].

### Anti Corruption Commission

**V**ote 30 boasts its first development in 2023/24 - N\$1-m for the construction of a regional office in Oshakati, accounting for 0.33% of the cluster total in seventh and last place.

This project allocation was unaffected midyear.

### VOTE 30 - ACC

One project - N\$1-m unchanged midyear.

#### 30/02/3 - Construction of Regional Office in Oshakati, Oshana Region [NEW]

NPC CODE 20272 - 35 offices, kitchen, 2 storerooms, conference room, strongroom, parking slots and boardroom. 2023/24 - feasibility study.

STARTING YEAR: 2023/24; PURPORTED PAST EXPENDITURE (TO 2021/22) = N\$0

VOTED LAST YEAR (2022/23) = N\$0

VOTED 2023/24 (excl. midyear revisions not disclosed) = N\$1,000,000

COMPOSITION: FSDS = N\$1,000,000.

FUNDING SOURCE: GRN.

### National Assembly

**T**he National Assembly (Vote 3) had its entire N\$15-m development budget for one project wiped out midyear in 2023/24, after enjoying a 3.97% share of the cluster total at the beginning of the year ranked seventh out of eight active votes.

Its initial N\$15-m ceiling at the beginning of this year had been a huge N\$14.6-m or 3,688% increase over 2022/23's revised N\$396,000 expenditure, accounting for 0.2% of the cluster and unchanged from its initial allocation.

### The National Assembly had its entire N\$15-m development budget for one project wiped out midyear in 2023/24 - the construction of guard houses at all entrances to parliament.

tion, which had been 89% or N\$3.2-m less than 2021/22's actual N\$3.587-m expenditure the same project, after N\$1-m was cut from its original allocation that year, when it accounted for 1.66%.

This had been a 34.5% reduction on 2020/21's N\$7-m development expenditure for the same project - unaffected in those midyear revisions, its share of the administrative cluster at 2.18% - also in sixth place.

The National Assembly's development allocation had been an impressive 166% more than 2019/20's N\$2.6-m, expenditure which was far lower than its N\$10-m according to 2019/20's budget, however, which it retained after those midyear revisions.

Vote 3's suspended project in 2023/24 was its first new one in several years - the construction of guard houses at all entrances to parliament. This reflects the government's continued paranoia over its security - after all public access to the Parliament Gardens were closed with palisade fencing and untidy barrier tape a few years ago.

Its single project for the past five years has been the ongoing upgrade of the parliament buildings.

Although this project has been suspended, its details are as follows:

### VOTE 03 - National Assembly

**The National Planning Commission has not featured in the development budget over the past three years including 2023/24, after enjoying the second-biggest allocation in 2020/21, with N\$98.6-m for the 2021 national population census, which was subsequently canned and has mysteriously not reappeared despite the census having been conducted late in 2023.**

**The Anti Corruption Commission boasts its first development in 2023/24 - N\$1-m for the construction of a regional office in Oshakati, accounting for 0.33% of the cluster total in seventh and last place.**

One project - N\$15-m reduced to N\$0 midyear.

#### 03/02/7 - Construction of guard houses [NEW]

NPC CODE 20279 - At all entrances to parliament building. 2023/24 - contracting, groundwork, brick-laying, roofing and plastering.

STARTING YEAR: 2023/24; PURPORTED PAST EXPENDITURE (TO 2021/22) = N\$0

VOTED LAST YEAR (2022/23) = N\$0

VOTED 2023/24 (excl. midyear revisions not disclosed) = N\$15,000,000

COMPOSITION: CRI = N\$15,000,000.

### The NPC's non-census

**T**he National Planning Commission (Vote 26) has not featured in the administrative cluster's development programme over the past three years including 2023/24, after enjoying the second-biggest allocation in 2020/21, with N\$98.6-m for one project after midyear - the 2021 national population census, which was subsequently canned and has mysteriously not reappeared despite the census having been

### NOTES TO THE STATE PROCUREMENT BUDGET

This scoping of what we call government's 'procurement budget' as part of the overall budget is unique to the Tender Bulletin, has been undertaken for most financial years since 1993 and is unreplicated in Namibia. Its purpose is to alert tenderers to forthcoming procurement opportunities.

Procurement spending relates to heads of expenditure normally directed through public procurement channels (with abbreviations):

\* Materials and Supplies (M&S): Expenditure relating to the acquisition of store items of consumable nature to be utilized in the process of government services/operations, such as provisions, spares, stationery and other materials.

\* Other goods, services and expenses (OSE): Generally relating to recurrent spending on items sourced in the real economy, i.e. excluding remuneration, other conditions service relating to the public service, transport provided by the government garage, utilities, property rental etc. OSE consists of consultancy services unrelated to construction as well as non-consultancy services such as advertising, catering, cleaning, entertainment, event management, gifts, legal, printing, security, travel, training services etc.

These two spending heads are form part of government's current expenditure in the operational budget as well as in the development budget.

Other procurement spending components occurring both as capital expenditure in the operational budget (i.e. not current expenditure) and also in the development budget are:

\* furniture and office equipment (FOE)

\* operational equipment, machinery and plant (OEMP);

\* vehicles (V).

Procurement components occurring only within the development budget are:

\* construction, renovations and improvement (CRI);

\* feasibility studies, design and supervision (FSDS).

Maintenance expenses consists of expenditure relating to maintaining capital assets, including office and operational equipment, buildings, roads and bridges, and other capital assets. Although annual and multi-year tenders are issued in this area (e.g. minor capital works, water infrastructure, vehicle, plant, electrical and electronic maintenance), we deliberately exclude it from our analysis to err on the safe side, since some of this maintenance is sourced internally within certain government ministries (e.g. the departments of works and of water affairs).

Although our coverage of the development budget overlaps with some of the operational budget, a project-by-project presentation of the development budget concretizes tendering opportunities more specifically with reference to actual project implementation and is presented separately from the estimates of operational expenditure.

# GRN DOMESTIC DEBT GROWS 8.7% TO N\$113.4-B

2 FEBRUARY 2024

Namibia's domestic government debt rose to N\$113.4-b during January, increasing by 1.7% from the previous month and 8.7% and year-on-year, according to the Bank of Namibia's latest

monthly report.

The increase was reflected in both Treasury Bills and Internal Registered Stock issues, which rose by 1.9% and 1.6% to N\$38.2-b and N\$75.2-b respectively.

The annualized increase is the result of 9.1% additional sales of TBs and 8.5% of IRS during January.

Domestic debt also increased by 0.8 percentage point as a percentage

of GDP during the month under review and 1.3 percentage points to 49.4% of GDP, reflecting increased ratios of both IRS and TBs to GDP of 0.5 and 0.8 percentage point, respectively.
