4TH INTERNATIONAL CLIMATE SUMMIT

**Bioenergy for Energy Security and Agricultural Growth
Accelerating Green Transition of MSMEs**

19th JULY 2024 | HOTEL TAJ PALACE, NEW DELHI

Global Biofuels Alliance – Synopsis

Global energy sector has witnessed a historic moment with the announcement of the Global Biofuels Alliance (GBA).

GBA is an India-led Initiative to develop an alliance of Governments, International organizations and Industry to facilitate adoption of biofuels. Bringing together the biggest consumers and producers of biofuels to drive biofuels development and deployment, the initiative aims to position biofuels as a key to energy transition and contribute to jobs and economic growth.

GBA will support worldwide development and deployment of sustainable biofuels by offering capacity building exercises across the value chain, technical support for national programs and promoting policy lessons will facilitate mobilizing a virtual marketplace to assist industries, countries, ecosystem players and key stakeholders in mapping demand and supply, as well as connecting technology providers to end users. It will also facilitate development, adoption and implementation of internationally recognized standards, codes, sustainability principles and regulations to incentivize biofuels adoption and trade.

It will help accelerate India's existing biofuels programs such as PM-JIVANYojna, SATAT, and GOBARdhan scheme, thereby contributing to increased farmers' income, creating jobs and overall development of the Indian ecosystem.
