## Lucky China Railway lands bonus N\$138-m road contract

THE MINISTRY OF WORKS & TRANSPORT HAS AWARDED A CONTRACT TO CHINA RAILWAY 7TH GROUP FOR THE UPGRADE OF AUAS ROAD IN WINDHOEK WHICH WILL LINK IT TO THE AIRPORT HIGHWAY CURRENTLY UNDER CONSTRUCTION. THE AWARD CAME OUT OF THE BLUE AND WITHOUT PUBLIC TENDER OR BUDGET IN THE MINISTRY'S 2024/25 PROCUREMENT PLAN, RAISING THE VALUE OF THE CHARMED CHINESE FIRM'S CURRENT ROADWORKS TO N\$1.087-B WHEN COMBINED WITH ITS EXISTING CONTRACT FOR PHASE I OF THE AIRPORT HIGHWAY - PAGE 7

The Road Fund Administration financed 22 vehicles for the Namibian Police in 2020 in addition to vehicles for the Windhoek City Police. Of the central government's N\$285.5-m budget for new vehicles in 2024/25, the biggest, 34.8% share has been allocated to the Ministry of Home Affairs, Safety & Security under which NamPol resorts (photo - <https://www.rfanam.com.na>).

## STATE BUDGET FOR NEW WHEELS GOES INTO OVERDRIVE

NAMIBIA'S CENTRAL GOVERNMENT HAS RAISED ITS BUDGET FOR NEW VEHICLES IN 2024/25 BY 7.6% TO A TEN-YEAR HIGH OF N\$285.5-M, WITH THE SECURITY CLUSTER DRIVING AWAY WITH HALF, MOST OF WHICH GOES TO HOME AFFAIRS, IMMIGRATION, SAFETY & SECURITY, FOLLOWED BY THE DEFENCE MINISTRY - NEITHER OF WHOM HAVE ISSUED ANY PUBLIC TENDERS SO FAR THIS YEAR - WHILE THE GOVERNMENT GARAGE HAS BEEN LEFT HIGH AND DRY FOR THE EIGHTH YEAR RUNNING - PAGE 2

**With its biggest share of the budget, Home Affairs, Immigration, Safety & Security did not issue a single tender for new vehicles during the whole of calendar 2023 and none until the end of August 2024.**

## State budget for new

2020/21 - a 273.5% increase on 2019/20's actual expenditure of N\$6.4-m.

And this all unfolded after then president Hage Geingob announced a five-year ban on the purchase of new vehicles in 2020.

The N\$200-m saving it was meant to achieve, was significantly eroded by 2020/21's N\$24-m actual expenditure, reversed in the following year's unprecedented nil spending, but sharply overturned by 2022/23's N\$76.6-m actual expenditure and last year's huge N\$265.3-m spending spree - far exceeding the N\$210-m budgeted for initially.

The N\$23.9-m actual expenditure in 2020/21 was 97.6% off the N\$1-b peak seven years earlier in 2014/15.

Prior to 2020/21's actual N\$23.9-m expenditure, that year's original N\$4.95-m budget was 2.44% below 2019/20's revised N\$5.074-m - less than half the N\$10-m originally voted at the beginning of that year (since reflected as N\$6.4-m actual expenditure for 2019/20).

### Punctured vehicle budgets and expenditure

After 2014/15's N\$1-b peak expenditure on new vehicles eleven years ago, 2016/17's N\$175-m actual spending had been the next highest until being overtaken 2023/24 and again this year, continuing the upward trend initiated with 2022/23's N\$54.5-m revised expenditure, which was slightly more than the N\$52-m initially budgeted in the wake of sharp declines over previous years.

The original N\$10-m budget for the purchase of vehicles in 2019/20 - since reflected as only N\$6.4-m actual expenditure - was already 16% or N\$1.9-m less than 2018/19's N\$11.9-m with a 0.09% share of the N\$11.2-b procurement budget in 2019/20, compared to 2018/19's 0.12% share of the actual N\$10.1-b procurement spending total.

The N\$6.4-m actual expenditure on vehicles in 2019/20 constituted 0.68% of N\$9.36-b actual procurement expenditure.

In its heyday in 2014/15, government's all-time record actual expenditure on vehicles topped N\$1 billion - N\$1,033,418,506 to be precise (as reported in the 2016/17 budget).

Following generous budgetary expansions since independence, replenishing government's vehicle fleet has declined sharply since the 2014/15 bonanza.

In 2004/05, N\$68-m was spent on purchasing new motor vehicles, expanding to N\$427-m by 2012/13 and N\$469-m the following year before ballooning to just over N\$1-b in 2014/15.

The following year, in 2015/16, this was halved to N\$506-m, only to be reduced by a further 14% to N\$436-m in that year's midterm spending suspensions.

The budget for government's vehicle fleet declined even further to N\$184-m in 2016/17 and was again reduced to N\$175-m expenditure, translating into a 60% reduction on fiscal 2016's N\$436-m.

Already prior to 2020/21's midyear cutbacks, vehicle purchases accounted for only 0.05% of that year's procurement budget, compared to 0.09% of 2019/20's original N\$11.2-b procurement expenditure, 0.12% in 2018/19, 0.45% in 2017/18 and 1% in 2016/17.

The N\$7-m revised expenditure on vehicles in 2021/22 constituted 0.07% of the N\$9.5-b revised procurement total but has since been reported as nil.

In 2020/21, the N\$24-m actual expenditure on vehicles accounted for only 0.2% of the N\$11.15-b procurement total.

In 2019/20, the N\$6.4-m actual expenditure on new vehicles was 0.7% of the N\$9.4-b actual procurement expenditure.

In 2014/15, new vehicle purchases enjoyed a 7% share of all procurement spending, up from 5% in 2013/14, before falling to 3% in 2015/16.

Compared to its last-placed ranking amongst procurement categories in 2020/21 and the previous three years, government vehicle purchases enjoyed

**30 AUGUST 2024**  
Namibia's central government has raised its budget for new vehicles in 2024/25 by 7.6% to a ten-year high of N\$285.5-m, with the security cluster driving away with half, most of which goes to Home Affairs, Immigration, Safety & Security and the defence ministry - neither of whom have issued any public tenders to date - leaving the health, welfare, agriculture and water ministries to share most of the remaining half, with the Government Garage high and dry for the eighth year running.

The N\$285.5-m budget for new government vehicles, accounts for a little over 2% of all N\$13.4-b voted procurement expenditure following its N\$20.17-m increase over last year's N\$265.3-m revised spending after starting out with only N\$210-m.

This year's N\$285.5-m budget for acquiring new vehicles comes at the end of a five-year moratorium announced in 2020 but is 71.45% off 2014/15's N\$1-b peak expenditure eleven years ago. This year's 7.6% increase in the budget for new wheels is a rather mild affair, however, compared to last year's massive 246% or N\$188.7-m increase over 2022/23's actual N\$76.6-m expenditure - before the five-year moratorium had quite ended.

Home Affairs, Immigration, Safety & Security accounted for almost half (47%) of last year's N\$265.3-m revised expenditure on acquiring new vehicles, spending N\$124.6-m, while in 2022/23, the MHAISS and the defence vote accounted for 63.5% of the N\$76.6-m total in actual expenditure, spending N\$48.63-m between them.

The increase in voted and revised expenditure for the acquisition of new vehicles this and last year lifted it to six out of seven procurement spending heads after languishing at the bottom of the government's procurement priorities over the previous five years, accounting for 2.13% of this year's

N\$13.4-b procurement total and 2.4% of last year's N\$11-b.

Already in 2022/23, the N\$76.6-m actual expenditure on new vehicles was more than that year's N\$54.5-m midyear revised allocation - both constituting an unprecedented 100% increase on the previous year's nil, after the N\$7-m initial allocation in 2021/22 was completely wiped out midyear.

### Government wheels turn haphazardly

Central government's annual budgets and expenditure on vehicles is a rather haphazard affair, displaying wildly erratic fluctuations between allocated ceilings and eventual spending.

Its budget for the purchase of vehicles at the beginning of 2021/22 had been a ludicrous N\$500,000 - the second-lowest ever, after 2020/21's laughable N\$450,000, which was 92% below 2019/20's N\$6.4-m, when the police accounted for virtually all expenditure - without a single public tender.

Despite 2023/24's increase in the budget for new vehicles, it is also the eighth consecutive year that the Government Garage has not been allocated any funding for new vehicles, following 2016/17's unprecedented first zero expenditure recorded since independence.

Government Garages throughout the country are littered with wrecks, with a promised shakeup to reverse endemic corruption and graft by the end of 2020/21 having been delayed and only now beginning to bear fruit.

Already at an all-time low of a laughable N\$4.95-m at the time, the central government budget for new vehicles in 2020/21 was slashed by 91% midyear to a pitiful N\$450,000 - the lowest ever.

But due to a spending spree on new wheels by a number of ministries and central government offices - all without public tender - this has now transformed into N\$23.9-m actual expenditure for

# wheels in overdrive

the fifth highest procurement spending share in 2016/17 – before being relegated to the bottom for the first time behind furniture and office equipment, where it has remained since – until 2023/24.

## The procurement budget in 2024/25

**A**lthough Namibia's central government has increased its procurement budget by 22% to a ten-year high of N\$13.5-b in 2024/25, this is the second consecutive year that the budget for construction – N\$3.2-b this year – is less than each of the allocations for materials and supplies as well as for other services and expenses, both of which are heads of current expenditure mainly in the operational budget that do not add value.

Within this year's N\$13.495-b procurement budget spread across eight heads of expenditure:

- \* N\$4.4-b has been voted for materials and supplies in 2024/25, accounting for the biggest, 32.8% of the total, following a N\$722.55-m or 19.6% increase on last year's revised N\$3.68-b expenditure when it accounted for 33.27% of N\$11-b – also the biggest and ahead of construction's N\$2.24-b with only 20%, in third place.

- \* The N\$3.8-b set aside for other services and expenses accounts for 28% of the procurement total in second place and is 17% or N\$550.6-m more than last year's revised N\$3.25-b expenditure, when it accounted for 29.5% – also in second place and ahead of construction.

- \* The N\$3.2-b voted for construction, renovations and improvements accounts for only 23.7% of the procurement budget in third place amongst eight procurement heads of expenditure and has been surpassed in eight of the past twelve years, despite a 42.45% or N\$951.7-m increase over last year's N\$2.24-b when it accounted for only 20% of the N\$11-b total – its lowest share since 2013/14 and also in third place. This is also the second consecutive year that the budget for public works is less than that for the procurement of materials and supplies as well as for other services and expenses, both of which are heads of current expenditure that do not add value.

- \* In its usual fourth place, accounting for 7.77% of the procurement total, a little over N\$1.48-b has been voted for operational equipment, machinery and plant – exceeding N\$1-b for the second consecutive year, following a 4.34% or N\$47.586-m reduction on last year's N\$1.1-b revised expenditure.

- \* A little below N\$500-m has been voted for feasibility studies, design and supervision in its usual fifth place out of eight procurement heads, accounting for 3.7% of the procurement budget – the highest FSDS budget since 2013/14, following a 34% or N\$126.6-m increase over last year's N\$373.3-m revised expenditure.

- \* The budget for acquiring new vehicles has hit a multi-year high in 2024/25 with N\$285.5-m, accounting for a little over 2% of all voted procurement expenditure in sixth place following a 7.6% or N\$20.17-m increase over last year's N\$265.3-m revised spending.

- \* Again in seventh and second-last place, N\$197.7-m has been voted for furniture and office equipment (including ICT) – the highest in the past eight years, accounting for 1.46% of the procurement total, following a N\$42.7-m or 27.5% increase over last year's revised N\$155-m expenditure.

- \* N\$68.265-m has been voted for the purchase of buildings, accounting for 0.5% of the procurement total in its traditional eighth and last place, following a colossal N\$64.265-m or 1,606% increase on last year's N\$4-m expenditure – double the N\$2-m initially voted.

## Obscure public procurement for new wheels

**W**ith its lion's share of expenditure on new wheels this year and the previous two – 34.84%, 47% and 35.4% respectively, most of the

Ministry of Home Affairs, Immigration, Safety & Security's spending is probably attributed to the Namibian Police where a shortage of vehicles has become a constant complaint about its inability to fight crime.

But the MHA/ISS has a dismal track record on public procurement for new wheels – having issued not a single such tender during the whole of calendar 2023 and until this week in 2024 – out of only nine issued by all central government offices and ministries so far this year, six during the whole of 2023, compared to only two in 2022 and none whatsoever over the previous four years.

With the second-biggest allocation for new wheels this year and 2023/24, the Ministry of Defence & Veterans Affairs issued one tender for unspecified Toyota vehicles during the whole of 2023 and none to date this year.

## New vehicle tenders in 2024

**U**ntil mid-August in calendar 2024, central government ministries issued only nine tenders for the purchase of new vehicles, none of which were from Home Affairs, Immigration, Safety & Security with its 35% share or N\$99.5-m allocation and none by the defence ministry, with its 14.85% or N\$42.4-m allocation for 2024/24.

These nine public tenders for new vehicles by central government votes so far during calendar 2024 are:

- \* Central Procurement Board on behalf of the Namibia Statistics Agency – supply and deliver 47x vehicles; the National Planning Commission, under which the NSA resorts, has only N\$5-m in its budget, however.
- \* With a combined budget of N\$52-m under the Agriculture and Water votes, the Ministry of Agriculture, Water & Land Reform issued three tenders – one for an unspecified number of unspecified vehicles, another for a 4-wheel quad bike and one for 2x tractors with 3-bar rippers.

**Central government offices and ministries have issued only nine tenders for new wheels so far this year, six during the whole of 2023, compared to only two in 2022 and none whatsoever over the previous four years.**

- \* With no budget for new wheels at all, Fisheries & Marine Resources issued a tender for unspecified vehicles and accessories.
- \* With N\$3.5-m in its budget, Finance & Public Enterprises issued one tender for five unspecified vehicles.
- \* With no budget at all under the Transport Vote, the Ministry of Works & Transport issued two tenders for the Government Garage fleet – one for 30x new mid-size SUVs and another for 18x new SUVs.

## New vehicle tenders in 2023

**D**uring the whole of calendar 2023, central government ministries issued only twelve tenders for the purchase of new vehicles, none of which were from Home Affairs, Immigration, Safety & Security with its 47% share or N\$124.5-m revised expenditure and only one from the defence ministry with its 28% share or N\$28.85-m revised expenditure in 2023/24.

Of these twelve public tenders, seven were issued by the Ministry of Agriculture & Land Reform:

- \* Two tenders financed by the European Development Fund – 2x 5-ton 4x4 trucks and 2x pick-ups 4x4 single cab V6; 1x 5-ton 4x4 truck and 3x pick-up single cab 4x4 V6.
- \* The MAWLIR issued one tender financed by the AfDB – for 15x 4WD single cabs and 3x 4WD double cabs.
- \* With revised expenditure of N\$35-m exclud-

**With the second-biggest allocation for new wheels this year and 2023/24, the Ministry of Defence & Veterans Affairs issued one tender during the whole of 2023 and none to date this year.**

ing foreign loans, the MAWLIR and Water Affairs issued a further four tenders – one 1,500L water tanker diesel-driven; unspecified vehicles for Water Affairs; another unspecified vehicle; a four wheel quad bike.

- \* The Ministry of Defence & Veterans Affairs issued one tender – for an undisclosed number of 'Toyota vehicles'.
- \* With no allocation or revised expenditure, Fisheries & Marine Resources called for a custom designed flat deck trailer for the aquarium in Swakopmund.
- \* With N\$24-m revised spending, Health & Social Services issued one tender – supply, repair and service 3x stackers for Central Medical Stores.
- \* With no initial budget but N\$2.5-m revised expenditure, the Ministry of Justice issued a tender for leasing an undisclosed number of vehicles over three years.
- \* The Ministry of Mines & Energy also had no budget for new vehicles – only N\$300,000 revised spending – but issued a tender for the supply of 2x new 4x4 "double cabs off-road" vehicles nevertheless.
- \* The National Council, which had no budget for the purchase of vehicles, issued three tenders for hiring vehicles – without resorting to the Government Garage. The vehicles hired are for thirteen 4x4s for its Standing Committees on oversight tours and two luxury Toyota Fortuners for an overseas delegation.
- \* With no budget or revised spending for new vehicles, the Ministry of Education, Arts & Culture issued a tender for the supply and delivery of an unspecified number of vehicles.

## No vehicle tenders in 2021/22

**W**ith 2021/22's N\$7-m revised expenditure on new vehicles (all for Health & Social Services) turning into nil actual expenditure, five other votes issued tenders for the purchase of new vehicles – none of which had any budget.

Three of the tenders involved foreign

funding, ostensibly outside the State Revenue Fund, therefore not restricted by the budget:

- \* The Office of the President, together with the National Planning Commission and the Ministry of Agriculture & Land Reform issued a tender financed by the European Development Fund for the supply, delivery, maintenance and after-sales services of off-road passenger and livestock transport vehicles under the 11th EDF Support to the Livestock Sector in the Northern Communal Areas of Namibia Programme with an estimated total value of €1,335,000. This tender consisted of 11x 4x4 double cab off-road vehicles; 5x 30-ton trucks with trailers; 2x 5-ton 4x4 trucks / lorries and 4x 4x4 single-cab off-road vehicles.
- \* Assisted by Germany's KfW and the EU, the Ministry of Agriculture, Water & Land Reform issued a tender for unspecified vehicles.
- \* Although it had no budget for new vehicles in 2021/22, the Ministry of Fisheries & Marine Resources issued a tender for the supply and delivery of an undisclosed number of vehicles and accessories.

## Vehicle tenders go off-road

**A**ctual expenditure on the purchase of new vehicles in 2019/20 was N\$6.4-m – slightly over half the N\$10-m originally voted at the beginning of the year.

Almost all of the N\$6.4-m actual expenditure on new vehicles in 2019/20 –

N\$5.7-m – was spent by Safety & Security (Vote 6) – all without public tender.

In 2020/21, the procurement of vehicles was still offroad, when two votes with allocations for new vehicles did not issue any public tenders and four votes with no allocations, merely issued tenders for new vehicles:

- \* Central Procurement Board – an undisclosed number of motor vehicles, although the Finance Vote, under which the CPB resorts, had no allocation for vehicles at the time.
- \* Ministry of Fisheries & Marine Resources – an undisclosed number of vehicles and accessories.
- \* Namibia Fish Consumption Promotion Trust – one 16-ton truck with a fitted freezer. The fisheries vote, under which the NFCPT resorts, had no funding for vehicles that year.
- \* Ministry of Health & Social Services – the procurement of vehicles and conversion into ambulances including medical equipment for a period of two years.

## Vehicle procurement in the recent past

**A**s we noted in 2019/20 (*Bulletin 1347*), all state vehicle purchase tenders over the previous two years were also issued below the public radar.

In 2019/20, central government entities issued hardly any public tenders for the purchase of vehicles – including the Ministry of Health & Social Services which had the entire N\$10-m to itself at the time (subsequently completely wiped out and to be rescued by the USA's benevolence. Five tenders were issued in 2018/19 for the purchase of vehicles by ministries who had no budget allocations whatsoever:

- \* The Ministry of Mines & Energy issued a tender for the "procurement of four vehicles for Diamond Affairs".
  - \* The Ministry of Urban & Rural Development issued a tender for the "commissioning, supply and delivery of rapid intervention fire fighting vehicles".
  - \* The Central Procurement Board (in the Ministry of Finance) issued a tender for the "supply and delivery of two 4x4 double cab bakkies and one sedan".
  - \* The Ministry Agriculture, Water & Forestry issued two vehicle acquisition tenders under an AfDB loan (in addition to various tenders for tractors and agricultural plant under the same loan).
- Yet, none of the three votes that had budget allocations in 2018/19 issued any public tenders for the purchase of vehicles:
- \* The Auditor General with N\$1.4-m;
  - \* Health & Social Services with N\$10-m (same as the following year);
  - \* Justice, with N\$500,000.

## Vehicles in the development budget

Two of eleven votes have portions of their vehicle budgets channeled through the development budget in 2024/25, compared to two of eleven votes in 2023/24 and two out of five votes in 2022/23.

The two votes in 2024/25 are:

- \* Agriculture & Land Reform with N\$20.5-m or 64% of its N\$31.9-m, compared to N\$10-m of its N\$15-m revised expenditure last year and all N\$19.656-m of its actual expenditure in 2022/23;
  - \* the Water Vote with its entire N\$20-m allocation channeled through the development budget, the same amounts as last year's revised spending and all N\$3.5-m of its actual expenditure on new vehicles in 2022/23.
- Neither vote reflected any vehicle expenditure in 2021/22.

## Distribution of the budget for vehicles in 2024/25

**F**ourteen of 33 votes have budgets for the purchase of new vehicles in 2024/25, compared to eleven

TO NEXT PAGE

**Defence has N\$42.4-m to spend on acquiring new vehicles in 2024/25 accounting for 14.85% of the total in second place, following a generous 47% or N\$13.55-m increase over last year's N\$28.85-m revised expenditure with a 10.87% share.**

#### FROM PREVIOUS PAGE

votes reflecting revised expenditures last year, only seven with actual spending in 2022/23 and none in 2021/22.

As recently as 2015/16, seventeen of central government's 35 votes received funding for the acquisition of vehicles, while at the peak in 2014/15, 22 votes had a slice of the vehicle procurement pie.

Three votes bought vehicles in 2017/18, compared to five in 2016/17, three in 2018/19 and the following year and only one in 2020/21.

### Home Affairs, Immigration, Safety & Security

**D**espite a 20% or N\$25-m reduction on last year's N\$124.6-m revised expenditure when it accounted for almost 47% of the N\$265.3-m total, Vote 39 has retained its first place with N\$99.476-m to spend on new wheels in 2024/25, accounting for the biggest, 34.8% of the N\$285.5-m total.

Its revised expenditure last year was more than its N\$105.265-m allocation at the beginning of 2023/24 and was almost 360% or N\$97.485-m more than its actual N\$27.1-m expenditure in 2022/23 accounting for 35.4% of the N\$76.6-m total – also in first place.

Its actual expenditure in 2022/23 was almost twenty times more than its N\$1.4-m revised spending after midyear – following an initial nil allocation.

At the previous count, its predecessor – Safety & Security (Vote 6) – actually spent N\$5.7-m on new vehicles in 2019/20 – more than its N\$4.374-m midyear revised allocation, also after having started the year with a zero allocation.

In the process, Vote 6 (mainly police) accounted for 89% of the N\$6.4-m actual expenditure on new vehicles in 2019/20 – one of only two votes with

the privilege (the other being Mines & Energy).

Safety & Security's convenient midyear revival from zero to hero in 2019/20 was a repeat of the previous two years, when it was also saddled with a – hardly believable – zero budget for new wheels with which to help stem the rising crime tide.

Before being amalgamated with the new Vote 39 in 2021/22, Safety & Security (Vote 6) started each of its previous six years without a budget for new vehicles – not always borne out by actual expenditure and never involving any public tenders.

### Defence

**D**efence (Vote 8) has N\$42.4-m to spend on acquiring new vehicles in 2024/25 accounting for 14.85% of the total in second place, following a generous 47% or N\$13.55-m increase over last year's N\$28.85-m revised expenditure with a 10.87% share.

This was unchanged from its allocation at the beginning of 2023/24 and was 34% or N\$7.3-m more than its N\$21.5-m actual spending in 2022/23 accounting for 28% of the total – all in second place.

Defence's N\$21.5-m actual expenditure in 2022/23 was marginally below its N\$21.74-m ceiling at the beginning of 2022/23 after five consecutive years of no expenditure on new vehicles – as we were led to believe according to official budget documents.

This was half of what it last spent in 2016/17, which was the second-biggest share of just over N\$44-m, comprising 25% of the total at the time.

**Agriculture & Land Reform has almost N\$32-m to spend on new vehicles in 2024/25 accounting for a little more than 11% of the total ranked third – more than double its N\$15-m revised spending last year with a 5.65% share in fifth place.**

## With half the budget, Nampol & Defence have

### Agriculture & Land Reform

**N**ewly created in 2020/21, Vote 37 has almost N\$32-m to spend on new vehicles in 2024/25 accounting for a little more than 11% of the total ranked third – more than double its N\$15-m revised spending last year with a 5.65% share in fifth place.

This is the same as its initial allocation in 2023/24 and was 23.7% or N\$4.65-m less than its N\$19.656-m actual expenditure in 2022/23 accounting for a much bigger 25.6% share of the total in third place.

Its actual expenditure in 202/23 slightly below its N\$21.3-m allocation – all channelled through the development budget, compared last year when N\$10-m of its N\$15-m expenditure was defined as development expenditure, while two thirds of its budget in 2024/25 is also channelled through the development budget (see above).

Its now-discontinued predecessor, Agriculture, Water & Forestry (Vote 20), which also had no funding for vehicles over the previous two years before it was discontinued, had the second-biggest share of 2017/18's budget, its N\$4.362-m accounting for 9.7% of the total – all development funding.

Vote 37's other associated Vote 25 – Land Reform (now also merged with Vote 37) – also had no funding for vehicles in 2019/20 and the previous year.

### Health & Social Services

**H**ealth & Social Services (Vote 13) – where 100 vehicles in its 1,950 fleet went missing seven years ago according to the auditor general's report at the time – has dropped two

places, with the fourth-biggest budget for new vehicles in 2024/25.

It has N\$30-m to spend on new wheels, accounting for 10.5% of the total, following a N\$6-m or 25% increase over last year's N\$24-m revised spending when it accounted for a lower 9% share, however.

This is unchanged from its initial allocation in 2023/24 and was a colossal 945.5% of N\$421.7-m more than its N\$2.3-m actual spending in 2022/23 accounting for only 3% of the total in sixth place – almost half the N\$4.4-m with which it started that year.

Vote 13's N\$2.3-m actual expenditure in 2022/23 was N\$4.7-m or over two thirds below 2021/22's N\$7-m actual expenditure.

Its 100% share of 2019/20's N\$10-m original vehicles budget disappeared in 2020/21's budget book as nil expenditure.

Its N\$10-m to spend on purchasing new vehicles in 2018/19, also accounting for the entire N\$10-m total and was N\$14.561-m or 59.3% less than 2017/18's N\$24.561-m, when it accounted for 83.5% of the N\$29.423-m total.

Over these years, all of this vote's vehicle budget has been operational, with no development component.

### US vehicle donations to the MHSS

**H**ealth & Social Services has been living on handouts from the USA for vehicle donations of late.

In 2020, the US Embassy in Windhoek donated vehicles and related goods to the MHSS, consisting of:

- \* six new 4x4s in February for use by clinical and nurse mentors, adding to the existing fleet of twelve vehicles donated by the USA to the ministry in 2016;
- \* three ambulances and medical equipment in March to assist with its response to the Covid-19 pandemic;
- \* a further four Hilux LDVs valued at N\$2.4-m to a local NGO (DAPP) that partners with the PEPFAR program (US President's Emer-

## not issued any tenders for new vehicles this year

NAMIBIA CENTRAL GOVT N\$13.426-B PROCUREMENT BUDGET 2024/25

agency Plan For AIDS Relief) and the MHSS to fight HIV;

\* three Toyota Hilux double cabs worth N\$1.7-m in December to the Namibia Institute of Pathology (NIP) for HIV testing at regional laboratories.

This was followed in October 2023 with the donation by the US Embassy of sixteen vehicles to the MHSS by the US Centers for Disease Control and Prevention (CDC), with funding from PEPFAR to improve the visitation by clinical mentors to visit clinics in all regions of Namibia.

At that stage, the USA had provided over US\$1.5-b over the previous 18 years towards Namibia's HIV and TB response (not all in vehicles).

And last month (Jul-24), the US Embassy donated a five-bed mobile ICU worth N\$20-m stocked with N\$600,000 medicines to the Walvis Bay State Hospital.

These donations relate only to vehicles (<https://na.usembassy.gov>).

### Water

Water (Vote 38) has N\$20-m to spend on buying new vehicles in 2024/25, accounting for 7% of the total in fifth place, the same amount as last year's revised expenditure which accounted for 7.5% when it was ranked fourth.

This is the same as its initial budget in 2023/24 and was over 471% more than its actual N\$3.5-m spending the previous year – also in fourth place.

This was the same as its N\$3.5-m budget at the beginning of 2022/23.

All its expenditure on vehicles over these three years is classified as 'development'.

Vote 38 recorded no actual expenditure in 2021/22, after starting the year with a N\$500,000 allocation for new vehicles – comprising the entire budget at the time – all of which was also supposed to be channeled through the development budget.

Prior to that Water was part of the now discontinued Agriculture, Water & Forestry Vote.

### The rest

That leaves ten votes with budgets for new vehicles in 2024/25:

\* Environment, Forestry & Tourism (Vote 18) has N\$13-m to spend on vehicle purchases in 2024/25, accounting for 4.55% of the total, following no expenditure over the previous two years.

\* Gender Equality, Poverty Eradication & Social Welfare (Vote 36) has N\$10-m accounting for 3.5%, following a N\$1-m or 11% increase over its N\$9-m revised expenditure in 2023/24 – the same as its initial allocation – the first since its creation as a new vote in 2020/21.

\* National Assembly (Vote 3) has N\$8.5-m accounting for 2.98%, following no expenditure the previous two years.

\* Urban & Rural Development (Vote 17) has N\$8-m (2.8% of the total) following no expenditure over the previous two years.

\* Information & Communication Technology (Vote 29)'s budget of N\$7-m accounts for 2.45% of the total following a N\$1-m or 16.67% increase over last year's revised 6-m spending – well above its N\$1-m allocation, with no expenditure in 2022/23. It was allocated N\$1.4-m last in 2016/17 but

**Water (Vote 38) has N\$20-m to spend on buying new vehicles in 2024/25, accounting for 7% of the total in fifth place, the same amount as last year's revised expenditure.**

**Health & Social Services has dropped two places, with the fourth-biggest budget of N\$30-m for new wheels this year, accounting for 10.5% of the total, following a N\$6-m or 25% increase over last year's N\$24-m revised spending.**

recorded no actual expenditure.

\* The National Planning Commission (Vote 26) has N\$5-m for new vehicles accounting for 1.75%, following a N\$3.8-m or over 316% increase over last year's N\$1.2-m revised spending – the same as its initial allocation. Nothing was spent of its N\$1.362-m midyear revised allocation from N\$1.062-m at the beginning 2022/23.

\* Finance & Public Enterprises (Vote 9) has N\$3.5-m to spend on purchasing vehicles in 2024/25 accounting for 1.2% of the total – 16% more than its N\$3-m revised spending last year, following no expenditure in 2022/23.

\* International Relations & Cooperation (Vote 7)'s N\$2.4-b budget for new vehicles in 2024/25 is 76% less than last year's revised N\$10-m, following no expenditure in 2022/23.

\* The Anti Corruption Commission (Vote 30) has N\$2.3-m to spend on vehicles this year – 70% more than its N\$1.35-m revised spending in 2023/24, which was slightly more than its N\$1.2-m allocation and almost half its N\$2.5-m actual spending in 2022/23 – much more than its N\$800,000 midyear allocation after starting with nil.

\* Sport, Youth & National Service (Vote 28) has the smallest, N\$2-m budget for vehicles in 2024/25 – the same as its revised expenditure last year – its first since spending N\$3.75-m in 2016/17.

### Government Garage

This is the eighth consecutive year that the Government Garage has not been allocated any funding for new vehicle acquisitions, following 2016/17's unprecedented first zero budget since independence.

Yet, as pointed out above, the Transport Vote has somehow managed to issued two tenders until the end of August this year for the purchase of new vehicles for the GG fleet:

\* G/ONB/24-01/2023-24 for the supply and delivery of 30x new mid-size SUVs to the Government Garage fleet closed 17-Jan-24; and

\* G/ONB/24-01/2024-25 for the supply and delivery of 18x new SUVs to the Government Garage fleet closed 02-Aug-24.

Both open national bidding tenders were advertised in local newspapers and not on the GRN eProcurement website where they should have been and no bid information of award details were made public.

It would seem that the funds for these tenders will once again be source from the Road Fund Administration, which has been providing vehicles to Nampol and the Windhoek City Police over the past few years – outside the formal budget.

The GG resorts under Transport (Vote 24) and was owed N\$1.5-b by

other ministries and central government institutions for vehicle leasing fees over the previous five years, it was reported in August 2022.

The central government fleet consists of an estimated 3,300 vehicles (New Era, 30-Aug-22).

In 2015/16, the GG spent N\$10-m less than its initial N\$45-m allocation.

Most recently, the Auditor General found that the National Assembly owed the Government Garage an accumulated N\$21.3-m in 2021/22 for maintenance on vehicles allocated to it (Namibian Sun; Republikein, 04-Jul-23).

The GG's original budget for new vehicles – which it leases out to other ministries – was dramatically slashed in 2015/16 by 87% from 2014/15's N\$345.3-m, when it accounted for one third of the N\$1-b budget for new vehicles – the biggest share ahead of Police, with N\$277.6-m and Health & Social Services, with N\$50-m that year.

In 2015/16 the Transport Vote lost its top spot from the previous two years, with only N\$45-m to spend on acquiring new vehicles – an 87% reduction on 2014/15's N\$345-m, when it enjoyed a third of the total vehicle purchasing budget – a 90% increase on fiscal 2014.

The Transport Vote ranked third in 2015/16, compared to the previous year, when its N\$182-m constituted 39% of the central government's budget for vehicle purchases in first place.

See accompanying tables.

To be continued.

Our procurement guide to Namibia's 2024/25 national budget so far:

- \* Bulletin 1533 – Part 1 – Introduction – The Social Sector – A budget filled with ballots
- \* Bulletin 1536 – Part 2 – Introduction – Government debt – Till debt do us part
- \* Bulletin 1539 – Part 3 – Introduction – Economic highlights – Pursuing prosperity with peanuts
- \* Bulletin 1542 – Part 4 – Introduction – Administration & Security – Government and its big guns
- \* Bulletin 1543 – Part 5 – Procurement expenditure preview – More procurement for consumption
- \* Bulletin 1546 – Part 6 – Procurement spending allocations – Plastering over the cracks
- \* Bulletin 1547 – Part 7 – Construction, renovations & improvements – Super share for security apparatus in state construction
- \* Bulletin 1549 – Part 8 – Feasibility studies, design & supervision – Mini-Boom for building consultants
- \* Bulletin 1550 – Part 9 – Materials & Supplies – Schoolyard bullies in uniform
- \* Bulletin 1551 – Part 10 – Other Services & Expenses – Consumption spending chews more of the budget
- \* Bulletin 1552 – Part 11 – Operational equipment, machinery & plant – More ploughshares beaten into swords.

# LUCKY CHINA RAILWAY LANDS N\$138-M ROAD CONTRACT

30 AUGUST 2024

The Ministry of Works & Transport has awarded a N\$138-m contract to China Railway Seventh Group to upgrade Awas Road in Windhoek, linking the newly renamed Dr Hage Geingob Freeway to the Hosea Kutako International Airport - without issuing a tender for the project that is not listed on its annual procurement plan and therefore not budgeted for.

According to media reports, a groundbreaking ceremony took place in July when the Minister of Works & Transport John Mutorwa, announced that the project will be undertaken in two phases.

N\$30-m was allocated for Phase 1, which has already commenced and should be completed within nine months. Phase 1 consists of clearing and de-bushing, storm water and other drainage structures, small bridges and ancillary road works.

The second phase is scheduled to begin early in the 2025/26 financial year at a cost of N\$108-m, with completion scheduled within twelve months.

Mutorwa explained that the presence of China Railway Seventh Group - "currently undertaking another construction project in Windhoek" - would save government an estimated N\$28-m due to reduced site establishment and material costs for gravel.

Lithon Project consultants are providing advice throughout the project, while the Roads Authority of Namibia will oversee the entire management process, the minister said.

According to Mutorwa, a portion of

**The Ministry of Works & Transport has awarded a N\$138-m contract to China Railway 7th Group to upgrade Awas Road in Windhoek which will link it to the airport highway currently under construction.**

**The award came out of the blue and without public tender or budget in the ministry's 2024/25 procurement plan, raising the value of the charmed Chinese firm's work to N\$1.087-b when combined with its existing contract for Phase 1 of airport highway**

the road from Hosea Kutako Drive up to Blackwood Street will also be expanded to accommodate three lanes in each direction to cater for ever-increasing traffic volumes.

Also speaking at the groundbreaking ceremony was CEO of the Road Fund Administration, Ali Ipinge, who said rehabilitation and upgrading were "part of the package". Small businesses, especially the wood vendors at the end of Awas Road would be accommodated with a small market, he added (*The Brief* 26-Jul-24).

The N\$138-m Awas Road upgrade is not listed in the 2024/25 procurement plans of the MWT or the RFA.

**China Railway working on the N\$949-m Phase 1 of the Windhoek - HKIA highway since 2016**

China Railway 7th was awarded Phase 1 of the Windhoek - Hosea Kutako International Airport dual carriageway project under tender RA/DC-CR/06-2014 in 2015. Phase 1A of the project, fully funded by the Namibian government, commenced in January 2016 and was estimated to cost

N\$922-m.

The tender was for a 8.2km stretch from Main Road 49 at UNAM to the Sam Nujoma Drive extension and was awarded to China Railway in joint venture with Onamagongwa Trading for N\$799-m. Phase 1A was supposed to be completed by Jan-18 but was extended by 3km in 2019 at an additional N\$150-m.

Phase 1A includes 15km ramp roads, four interchanges and thirteen new bridges.

In Feb-21, the Roads Authority announced the partial opening to traffic of Phase 1 of the Windhoek-HKIA highway between Awas Road and Robert Mugabe Avenue (*Tender Bulletin* 1392, 16-Apr-21).

Phase 2A of the Windhoek - HKIA project, 19.5km from Sam Nujoma Avenue close to Avis to the Dordabis intersection, is co-funded through an African Development Bank loan. It was awarded on 18-Dec-19 to China's AVIC International Project Engineering Company for N\$949,992,389.10.

Phase 2B, covering the remaining 23.5km (revised to 21.3km) from the Dordabis interchange to the HKIA was funded through a grant from the

People's Republic of China and was awarded in November 2021 to another Chinese company, Zhong Mei Engineering Group for over N\$1.035-b - after a tender process behind closed doors exclusively for Chinese contractors.

The latest award brings the total cost of the freeway to about N\$3-b - all sections of which will have been built by Chinese contractors (see report in *Tender Bulletin* 1424).

## City of Windhoek announces road works

The City of Windhoek on 23-Aug-24 issued a public notice regarding the works on Awas Road - Sean McBride Street up to Aviation Road, which is part of the Awas Road upgrade to dual carriageway standards, Phase 1.

The construction works and partial/phased closure of affected areas is applicable to the Western Carriageway, i.e. the inbound lanes between Arebbusch and Namcor (Aviation Road) along Awas Road. Additional areas where traffic will be affected include Sean McBride Street, Golf Street, Netbal Street, Cricket Street, Stadion Street and Aviation Road.

According to the notice, works commenced on 19-Aug-24 and are expected to continue until 19-Aug-25.

For enquiries the CoW Department of Infrastructure, Water & Technical Services can be contacted via the Contract Management engineer Martha Ndemumana at 061-2903580 or Lithon Project Consultants engineer Willie Knoouds at 061-250278 (*Die Republiek* 23-Aug-24).

## ELECTRICAL

**REFERENCE:** ZCL 1555 - marketing; **CLOSING:** 10-Sep-24 date and time not stated

**DESCRIPTION:** Marketing consultant at Zambia Dry Port, Walvis Bay, Namibia. (1) BACKGROUND: The Zambia Dry Port (ZDP) at the Port of Walvis Bay serves as vital logistics hub for Zambia ex- & imports. To enhance its visibility and increase throughput, ZCL seeks a marketing consultant with expertise in transportation, logistics and international marketing to develop and execute a comprehensive marketing strategy. (2) OBJECTIVES: To develop a robust marketing strategy that highlights the benefits of using the ZDP for logistics and trade; to increase awareness on the ZDP among potential stakeholders, incl. shippers, freight forwarders and manufacturing industries in Zambia; to drive higher usage of the dry port facilities and services, leading to an increase in freight handled and stored. (3) SCOPE OF WORK: Market research, marketing strategy development, branding, promotional activities, partnership development and monitoring and evaluation. (4) DELIVERABLES: Comprehensive database of im- & exporters, clearing agents, transport operators, logistics companies, associations in the transport and logistics industry; detailed marketing strategy document with timelines and budget estimates; branding guidelines and samples of marketing materials (e.g. brochures, banners, social media content); report on promotional campaign outcomes and recommendations for future marketing activities; increased volumes handled in the ZDP facility. (5) DURATION: The project is expected to last six months from date of contract signing; detailed timeline for deliverables will be developed during the inception phase. (6) REPORTING: The consultant will report directly to the Chief Executive Officer at ZCL in Zambia as well as the Regional Manager at the ZDP in Walvis Bay. Regular progress meetings will be scheduled bi-weekly to monitor progress and address any issues. (7) EXPERIENCE: Min. 15 years experience in marketing and/or operations, particularly within the logistics or transportation sectors; proven experience in developing and executing successful marketing strategies; strong analytical skills and proficiency in market research methodologies; excellent communication and presentation skills. (8) APPLICATION PROCESS: Interested candidates should submit a cover letter detailing relevant experience and approach to the project; current CV; examples of previous marketing projects or campaigns executed; proposed fee structure [but no contact details provided for submission]. (9) SELECTION CRITERIA: Understanding of the logistics landscape in Southern Africa; creativity and innovative marketing approaches; proven track record of success in similar consultancy roles; previous experience working in Africa, particularly Zambia or Namibia, will be an advantage. (10) BUDGET: Detailed budget must be submitted with the application and should include consultancy fees, projected marketing costs and other expenses associated with the delivery of the work

**CONTACT:** Zambia Cargo & Logistics Limited; Procurement Controller, Dar es Salaam, Tanzania; Mukuba Depot, Zambia Dry Port, Walvis Bay; ph.: +255-628-987989 or 756-515595 (ZCL); 081-4043484 (Zambia Dry Port Walvis Bay); web: [info@zamacargo.co.tz](mailto:info@zamacargo.co.tz) (ZCL) or [erick.shimumbwe@zamacargo.co.tz](mailto:erick.shimumbwe@zamacargo.co.tz) (Walvis Bay); **DOCUMENTATION:** not stated

**MINING PROJECT**

**REFERENCE:** MME 1554 - tiles project; **CLOSING:** 07-Oct-24 10:00

**DESCRIPTION:** Expression of interest: Joint venture partner to take over the operations of the Noordoewer Slate Tiles Project, Noordoewer Settlement, //Karas Region [re-issue of SC/RP/15-10/2022 closing 10-Nov-22 - with a reference for consulting services]. (1) PROJECT BACKGROUND: (1.1) The Small Scale Mining Division of the MME has been operating a slate processing project at Noordoewer in order to create employment opportunities for the community; the plan has been to hand over the project to the community to run it after sustainability has been achieved. (1.2) Attaining sustainability has been challenging and requires individuals/companies with proven expertise in business development and management. On behalf of the !Gariap Small Miners Association, the MME therefore invites individuals/companies with proven capabilities to express their interest to participate in the bidding process for a Joint Venture partner, to take over the operations of the project. The JV partner will oversee the planning, day-to-day operations of the project, administration, monitoring, payment of workers and utility costs. The partnership is also expected to bring expertise and practical project management skills to the table.

**PROPERTY DEVELOPMENT**

**REFERENCE:** Notice No. 74/2024; **CLOSING:** 01-Nov-24 11:00

**DESCRIPTION:** Invitation for development proposals to the services installation and development of houses in three [sic] townships: Ext. 4 & 5 of Matutura. Notice is given in terms of Section 63(2) of the Local Authorities Act 23 of 1992 as amended, that the municipal council of Swakopmund invites development proposals from "incorporate" companies for the installation of services and development of houses in the townships. REQUIREMENTS: In order to be considered, the following requirements must be complied with: (i) proof of successful completion of at least two projects requiring relevant similar experience in projects involving turnkey township development within the last seven years, not less than N\$50-million; (ii) proof of skills and ability of professional teams involved in the execution of the development agreement in at least two projects of similar value, scope and extent; (iii) adequate proof of developer's financial ability to develop the township "in the discretion of Council" and confirm proof of access to finance to complete the development project; (iv) the content of the development project must include: (1) purchase price expressed in Namibia Dollar per square meter for the undeveloped sellable land; (2) alternatively, return/transfer of at least 30% of the land to Council after installation of services; (3) cost to the public of erven based on the actual cost of installation of services and the cost of 1-, 2- or 3-bedroom houses based on a bill of cost; (4) development of the township is based on the approved zoning map and in terms of all relevant regulations and the Standard Manual for the Civil Engineering Services for Township Development; (5) the developer shall carry all risk and expense at their cost without having ownership of the land or using it as security (depending on options 1 and 2 above); (6) the time-frame within which the development will be commenced from the date of signing the development agreement and completion of the project. SUBMIT: The duly completed proposal document, together with the required documents, must be in a sealed envelope marked with the name of the proposer and stating 'Development proposal for either Extension 4 or 5, Matutura' and placed in the blue wooden box marked 'Development Proposals for Township' before the closing date and time. Only proposals attached to the municipal form will be accepted. The Town Council is not obliged to accept any proposal and reserves the right to withdraw this invitation, and/or any of the townships

**CONTACT:** Swakopmund Municipality; PO Box 53; Municipal Building, Rakotoka Street c/o Daniel Kamho Ave, Swakopmund; cashiers (documents); Head: Procurement Management Unit, blue wooden box on the ground floor (bids); Stephny Bruwer (documents and enquiries); Chief Executive Officer - A Benjamin (issued by); ph.: +264-(0)64-4104212 (enq); web: [pmu@swkmun.com.na](mailto:pmu@swkmun.com.na) (adm) or [sbruwer@swkmun.com.na](mailto:sbruwer@swkmun.com.na) (enq); [www.swakopmun.com.na](http://www.swakopmun.com.na)

**DOCUMENTATION:** The proposal document and zoning maps for each extension can be obtained from S Bruwer, subject to payment of N\$300 fee (non-refundable and VAT inclusive)

## VEHICLES, PLANT & ACCESSORIES

**REFERENCE:** ZCL/WLVB/EH/2024/01; **CLOSING:** 07-Sep-24 12:00

**DESCRIPTION:** Tender invitation for hire of one reach stacker and two forklifts at Zambia Dry Port, Walvis Bay, Namibia. **INTRODUCTION:** ZCL is a regional logistics service provider, wholly owned by the government of the Republic of Zambia through the Industrial Development Corporation with terminals in Tanzania (Dar es Salaam), Namibia (Walvis Bay) and an operating centre in Ndola, Zambia. ZCL invites qualified and experienced suppliers to submit proposals for the above. To enhance the operational capacity and service levels ZCL requires the hire of material handling equipment that will meet our needs for smooth and efficient handling of materials at the dry port operations. **SCOPE OF WORK:** The successful bidder will provide 1x reach stacker (max. lifting capacity 45 tons; overall width & height: 4,150mm x 4,500mm) and 2x forklifts (each max. lifting capacity 3.5 tons; min. lifting height: 4,300mm). **DURATION:** The hire period will be for 12 months starting 20-Sep-24; the period may be extended based on operational requirements and mutual agreement. **TENDER REQUIREMENTS:** Bidders must submit

the following documents: company profile, incl. years of experience and references; detailed specifications of the equipment offered; proposed hire rates (daily/weekly/monthly); terms and conditions of hire (incl. maintenance, insurance and liability); evidence of compliance with Namibian regulations and safety standards; any additional costs that may be incurred (e.g. delivery, fuel). **EVALUATION CRITERIA:** Tenders will be evaluated based on: compliance with technical specifications; pricing competitiveness; reputation and experience of contractor; readiness for service and support; delivery timelines. **SUBMIT:** Proposals must be named 'Tender for Hire of Reach Stacker and Forklifts' addressed to the ZCL Procurement Controller, James Kilasi, by email with copy to the other two emails. Late submissions will not be considered

**CONTACT:** Zambia Cargo & Logistics Limited; Procurement Controller, Dar es Salaam, Tanzania - James Kilasi (enquiries / bids); Mukuba Depot, Zambia Dry Port, Walvis Bay; ph.: +255-715-022200 (eng); web: james.kilasi@zamacargo.co.zw with cc to info@zamacargo.co.zw and erick.shimumbwe@zamacargo.co.zw (bids)

**DOCUMENTATION:** not stated
