Fulfilling Our Organic Desires

Foods Stands For Diversity, Nutrition Affordability & Safety

A greater diversity of nutritious foods should be available in our fields, in our markets, and on our tables, for the benefit of all

We All Have a Role to Play

Only when everyone enjoys the human right to adequate food will we be able to achieve other human rights and the Sustainable

As Consumers:

- We can **Exercise Rights** and call on governments to tackle inequality and poverty
- Make **Healthy Food Choices** to increase their availability
- **Reduce Food Waste** and protect the environment Development Goals

ABOUT CONFERENCE

With the idea of advocating the Human rights such as the right to food, life and liberty, work and education which are recognised by the Universal Declaration of Human and Continuing on our journey to contribute towards our Nation's ambition, symbolizing the strides for a Viksit Bharat, The Food Processing Committee at PHDCCI in collaboration with the Bhaskaracharya College of Applied Sciences is celebrating World Food Day. Aligning with this Year's theme of World Food Day Right to food for a better life and a better future and to get the global community involved, the conclave will bring together the people of with representatives and dignitaries along with stakeholders from Governments, the private sector, academia, civil society and individuals under one roof.

To sensitize, inspire and encourage the participants of the Younger generation how Food is the third most basic human need after air and water and everyone should have the right to adequate food, A Scientific Poster competition is also being organized on the theme, Food for All: Achieving Sustainable Food Systems for the AMRIT PEEDHI. The Conclave also aims to cover various aspects of sustainability through Expert panel deliberations on how to work towards Sustainable Agri-food Solutions through Research & Innovation for Viksit Bharat 2047. The Success Stories shared by the warriors of sustainability during the conclave who are working on Food Systems Transformation through Successful Sustainable Practices will serve as a testament of perseverance along with true intentions born out of concerns for our Mother Earth.

SEPTEMBER MARKS 'POSHAN MAAH 2024'

A Nationwide Celebration dedicated to Promoting Nutrition Awareness and Driving Action towards Building a Healthier India

In 2018, PM Shri Narendra Modi launched the 'Rashtriya Poshan Abhiyan' to address malnutrition by focusing on the nutritional status of Pregnant Women, Lactating Mothers, Adolescent Girls, and Children up to the age of six. This year, in its 7th phase, the Poshan Maah campaign is focusing on critical themes such as anemia prevention, growth monitoring, effective service delivery through good governance and technology, "Poshan Bhi Padhai Bhi," and supplementary nutrition. The Government of India has prioritized several key activities to address the challenge of malnutrition under Mission Saksham Anganwadi and Poshan 2.0 (Mission Poshan 2.0). Whether it is National Horticulture Mission (NHM) or food processing schemes, the govt. of India is engaging on several fronts through different initiatives to tackle the food security.

TARGET AUDIENCE

- Food Processors and Manufacturers
- Nutrition Agency / Nutritionist
- Food Safety and Standards Agencies
- National and International health organizations
- Policy Makers
- Non-Governmental Organizations
- Food Processing/Technology Institutes
- Medical Research Institutes

A country's youth is the most important and dynamic segment of its population. It is believed that developing countries with a large youth population could experience exponential growth if they invest in the education, health, and rights of their youth. Without a doubt, today youth will be tomorrow innovators, creators, builders, and leaders. The Union Budget 2023-24 also highlighted 'AMRIT PEEDHI' or 'Youth Power' as a priority under the 'Saptarishi' guiding the nation through the Amrit Kaal.

Against this backdrop, to celebrate the World Food Day 2024, the Food Processing Committee, PHDCCI in association with Bhaskaracharya College of Applied Sciences, University of Delhi is organizing the Food for All: Achieving Sustainable Food Systems for Amrit Peedhi on 16th October, 2024 at PHD House, New Delhi with an aim to promote sustainable practices in food processing and promote food security. This Meet expects a vivid participation of over 300 delegates and industry leaders of agriculture and the Food Processing fraternity and students from top business schools of Delhi-NCR region.

OBJECTIVES OF THE EVENT

- To address the issue of food and nutrition insecurity, with the food distribution system to be strengthened
- To enhance understanding among stakeholders about the critical role of sustainable food processing, circular economy practices, and sustainable packaging in building a resilient food system.
- To discuss the various aspects of processed foods including, plant-based foods, functional foods, etc, in meeting the consumption.
- To promote innovative ideas of the young generation through exhibition and recognition.
- To raise awareness about the health benefits of consuming millet-based products.
- To discuss institutional and policy frameworks, procedures, and incentives that support suitable forms of cooperation for processing and value addition of raw materials for nutritional security
- To help in creation of a sustainable processing chain and to increase market acceptance of local food and knowledge of food nutrition
- To raise consumer knowledge of the health advantages, supporting the expansion of the sector, henceforth increasing food consumption levels

TOPICS THEMES

- Sustainable Food Systems
- Green innovation and entrepreneurship
- Food waste and by product utilization
- Agro waste valorisation
- Regenerative Agricultural Practices
- Renewable energy management
- Water management
- Waste management
- Environmental sustainability
- Education for Sustainable Development
- Capacity building for sustainable development
- Indian Knowledge Systems (IKS) for sustainable development
- Green economy
- Green Chemistry
- Green Campus initiatives
- Sustainable lifestyle
- Sustainability in design
- Climate change adaptation and mitigation Sustainable transportation
- Green skills or... any Other aspects of sustainability

EXPECTED OUTCOMES

- Increased Awareness and Understanding: Enhanced knowledge of sustainable practices and innovations in food processing, circular economy, and packaging
- Strengthened Collaborations: New partnerships and networks formed among stakeholders committed to advancing sustainable agrifood systems
- Policy Recommendations: Development of actionable policy recommendations for governments and industry leaders to support sustainable practices and circular economy models
- Promotion of Best Practices: Dissemination of successful case studies and best practices to encourage broader adoption of sustainable food processing and packaging practices
- Pathways for Innovation and Investment: Identification of key areas for innovation and investment to drive sustainable transformation in food systems
