SUMMIT ON HARNESSING THE POWER OF COOPERATIVES FOR SUSTAINABLE AND ECONOMIC DEVELOPMENT OF NORTHEAST REGION

Overview

In the Northeast region of India, cooperatives have been instrumental in promoting regional strengths such as organic farming, tea production, and handicrafts. They have empowered local communities, preserved indigenous traditions, and provided sustainable livelihoods. Cooperatives in the region have also played a significant role in advancing tribal welfare and improving market access for local producers.

The Ministry of Cooperation, established under the guidance of Prime Minister Shri Narendra Modi Ji, aims to strengthen the cooperative framework in India, with a focus on harnessing the unique strengths of North East India.

Emphasis is placed on digital inclusion, driving social, livelihood, and financial inclusion, and integrating the North East's cooperative ecosystem into the national mainstream. The mission is to create a prosperous, self-reliant cooperative movement that supports sustainable economic growth and positions India—including its North Eastern states—as a global leader in cooperative enterprises.

Objectives

The objective of this Summit is to empower and promote cooperative models in **North East India** as key drivers of sustainable economic growth. By focusing on the region's unique strengths and challenges, the event will:

- Showcase the Role of Cooperatives
- Strengthen FPOs (Farmer Producer Organizations) and Agricultural Cooperatives
- Promote the Dairy Sector
- Boost Local Handicrafts and Organic Products
- Support the Tea Industry
- Engage Stakeholders for Collaboration
- Foster Policy Advocacy

Delegate Profile

- Cooperative leaders and members
- Government officials and policymakers
- Representatives from cooperative banks and financial institutions
- Industry leaders and entrepreneurs from agriculture, dairy, sugar, and other sectors
- Academicians and researchers specializing in cooperatives, governance, and sustainable development
- International stakeholders and trade experts
- NGOs and civil society organizations working in the fields of rural development, social welfare, and financial inclusion
