

MINISTERUL AFACERILOR EXTERNE

Deputy Minister of Foreign Affairs for Interinstitutional Relations,
Development Cooperation and Human Rights

20.03.2026

Dear Dr. Ranjeet Mehta,

Following my recent visit to India, which I had the pleasure of undertaking together with the Romanian delegation, I would like to express my sincere appreciation for the warm welcome extended by you and your team, as well as for the very productive discussions we had.

The interactions during the Business Forum organized by PHD Chamber of Commerce and Industry provided a valuable opportunity to review the current status of Romania–India economic relations and to exchange views on the many concrete possibilities for expanding cooperation between our countries.

We greatly appreciated the professional manner in which this event was organized, bringing together officials and business representatives from areas of mutual interest. The constructive dialogue during the sessions was a testament to the shared values and common intention to further strengthen cooperation in key sectors such as energy, IT&C, manufacturing, defence, metallurgy, education and technology.

Romania attaches particular importance to deepening its economic engagement with India and to encouraging stronger business-to-business contacts, institutional cooperation and joint initiatives that can further expand bilateral trade and investment flows.

I am confident that the discussions initiated and the partnerships established during the visit will contribute to identifying new avenues for cooperation and to advancing practical collaboration between Romanian and Indian partners.

We look forward to remaining in close contact and to continuing this fruitful dialogue in the period ahead, in close coordination with the Embassy of Romania in New Delhi.

Please accept, dear Dr. Ranjeet Mehta, the assurances of my highest consideration.

Clara Volintiru
