

Bomet hands over site for Sh950m stadium project

BY ERICK ONGERI (KNA)

The County Government of Bomet is set to get a new stadium following the handover of the site for the proposed Sh950 million, 10,000-seater Kipchamba National Stadium at Kipranye Grounds in Nyangores Ward. Construction of the modern sporting facility will take

place on land recently acquired by the county government in the Kyogong area on the outskirts of Bomet Town, with the State Department for Defence supervising the works.

Governor Prof. Hillary Barchok, State Department of Defence Principal Secretary Dr Patrick Mariru, and State Department of Sports Principal Secretary Elijah Mwangi jointly presided

over the groundbreaking ceremony. Speaking at the site, Governor Barchok said the ultra-modern stadium will feature a CAF-standard football pitch and a tartan-laced athletics track designed to meet international standards.

He added that additional land surrounding the facility will be fenced and secured for future development of an indoor

volleyball and basketball arena as well as a warm-up running track to support athletics training.

“The construction of this stadium marks a

turning point in sports and talent development in Bomet County. Beyond nurturing sporting talent and hosting events, the stadium will boost the eco-

nomie fortunes of Bomet Town, create employment opportunities and generate revenue,” said the Governor.

He noted that the project will play a key role in identifying and developing young sporting talent while positioning the county as a competitive hub for sports tourism and athletics in the region.

The construction works are expected to be completed by February next year according to the initial project timeline outlined by the implementing agencies.
