FOR REGISTRATION

BACKGROUND

Legal Metrology plays a critical role in ensuring accuracy and transparency in commercial transactions and safeguarding consumer interests. An effective Legal Metrology framework is essential to maintain confidence in the marketplace, particularly as India's retail, manufacturing, e-commerce, and digital commerce ecosystems continue to expand.

As the Government of India places increasing emphasis on ease of doing business, regulatory rationalisation, decriminalization of business laws, and reducing compliance burdens, we need to examine the existing Legal Metrology framework and identify opportunities for reform.

The proposed National Conference on "Decriminalization and Reforms in Legal Metrology: Balancing Ease of Doing Business and Consumer Protection" seeks to provide a high-level platform for policymakers, regulators, industry leaders, consumer organisations, legal experts and other stakeholders to deliberate on the evolving Legal Metrology regime.

The conference will focus on achieving an appropriate balance between regulatory effectiveness, proportionate enforcement, ease of compliance and robust consumer protection, while supporting India's ambition to create a predictable, transparent and business-friendly regulatory environment.

CONFERENCE OBJECTIVES

The conference aims to:

- Deliberate on the ongoing reforms and proposed changes in the Legal Metrology framework.
- Examine the scope and implications of decriminalization and rationalisation of offences and penalties under Legal Metrology laws.
- Identify opportunities to simplify regulatory and compliance requirements for businesses.
- Discuss mechanisms for ensuring that regulatory reforms do not dilute consumer protection and market integrity.
- Facilitate dialogue between Government, industry, and consumer stakeholders on practical implementation challenges.

KEY THEMES FOR DELIBERATION

The conference may deliberate upon the following broad themes:

A. Balance between Ease of Doing Business and Consumer Protection in the realm of Legal Metrology Building a Trust-Based Regulatory Ecosystem
